Dior floral science identifies the most exceptional flowers and deciphers their molecular potential, cultivating them season after season according to organic agricultural principles in their own gardens, to concentrate their active ingredients in the most respectful way. These iconic active ingredients lie at the heart of Dior skincare lines: Rose in Dior Prestige, Longoza in Capture Totale, Yquem Vine Sap in L'Or de Vie, Hibiscus in One Essential and Mauve in Hydra Life. At the expert hands of the Beauty Experts, these floral active ingredients are diffused at the heart of the skin, providing their benefits and their extraordinary potent power.
