Linda Lizotte, R.D.

As a practicing nutritionist for over 15 years, I have successfully treated thousands of clients with a wide range of health issues. I am the founder of the #1 "nutraceutical" company in the country. Realizing that what we rub on our skin DOES matter, because we are what we absorb. I saw the need for anti-aging skin products that don't just say they are natural, but actually ARE natural. I now have developed a line of personal care products. My products contain no synthetic chemicals and are derived from all-natural plant sources making them unique to the "beautyceutical" industry. We at AMG Naturally Inc. believe "We are what we absorb." Why not get healthy, stay healthy, and age more gracefully?
