

AWG 10-R – Battery set

Set contains:
1 machine, 2 battery packs 5.5 Ah LiHD,
1 quick charger, 1 system case
Mat. no.101 002 736

Accessories

Battery pack 5.2 Ah

Voltage: 18 V
Battery capacity: 5.2 Ah
Energy: 94 Wh
Weight: 695 g
Mat. no. 101 002 618

Battery pack 5.5 Ah

Voltage: 18 V
Battery capacity: 5.5 Ah
Energy: 99 Wh
Weight: 980 g
Mat. No.: 101 002 621

Battery pack 8.0 Ah

Voltage: 18 V
Battery capacity: 8.0 Ah
Energy: 144 Wh
Weight: 980 g
Mat.-No.: 101 002 624

Quick charger LG CAS 12-36 V EU

Battery voltage: 12 - 36 V
Mains voltage: 220 - 240 V
Charging time for 18 V/5.5 Ah: 41 min
Charging time for 18 V/8.0 Ah: 60 min
Weight: 551 g
Mat.-No.: 101 002 627

	Type/purpose	Ø mm	Weight	Mat. no.
	Protective guard SH 125 * (grinding discs, finned grinding wheels)	125	0.213 kg	100 053 950
	Protective clip-on guard for cutting wheel TSH (clip onto SH 125 for cutting work)	125	0.085 kg	100 053 912
	Quick action lock nut SSM * (grinding discs and cutting wheels)	-	0.054 kg	100 053 949
	Mounting flange SF * (grinding discs and cutting wheels)	-	0.052 kg	100 053 948
	Handle *	-	0.091 kg	101 003 247

AWG 10-R

Battery powered angle grinder

AWG 10-R

The SUHNER battery powered angle grinder AWG 10-R offers you the best in flexibility and performance.

The 18 V battery gives you cable-less freedom while the keyless adjustment of the protective guard enables quick adjustments. The machine has been fitted with quick action lock nuts (SSM) as standard in order to enable tool changes to take place quickly, easily and without kit.

The protective guard does not need to be changed for work involving cutting wheels; an additional clip simply needs to be added to the protective guard.

With the continuously adjustable Brushless motor and an output of 1100 Watt you can easily carry out grinding and cutting work.

Another small, but important detail for daily use is the firm attachment of the mounting flange to the working spindle.

Optimum results for cutting, rough machining, grinding, rust removal, or brushing.

AWG 10-R: An indispensable tool for professional use.

The LiHD battery packs by SUHNER/CAS have been designed for ultimate performance and extremely long use with only minimal heat generation.

The intelligent battery management, permanent electronic monitoring of each individual cell during charging, grants the battery packs long life.

The integrated capacity indicator allows control of the battery charge level.

The LiHD batteries can be stored for long periods almost without loss of charge.

Discover cable-less freedom – no matter the manufacturer!

Cordless Alliance System (CAS) is an alliance of leading brands of electronic tools. Your advantages: 100% compatibility with machines, battery packs and chargers.
