

# ATLAS CLEAN GROUTS

- refreshes and cleans cement grouts
- does not dissolve grouts
- prepares the surface for further impregnation

## Properties

ATLAS CLEAN GROUTS contains non-ionic and anionic surfactants, organic acids.

Efficiently cleans grouts from general household dirt.

Does not cause grouts cracking and softening.

Quick and easy in use.

For daily use.

## Use

Recommended for regular maintenance of grouts and removal of typical household dirt.

TYPE OF REMOVED DIRT	
mud	+
dust	+
marks of shoes	+
marks of tires	+
coffee	+
wine	+

TYPE OF CLEANED SURFACE*	
cement grouts	+

\* in order to establish the product influence on a particular surface it is recommended to perform a trial application on a less exposed surface part.

## Technical data

Density	1.0 g/cm <sup>3</sup>
Temperature during application	from +5°C to +25°C

## Technical requirements

Cleaning agent is not classified as a construction product. The product has been given the Radiation Hygiene Certificate.

## Cleaning

Moisten the cleaned grout with water. The product should be applied over the stains with an atomizer and left for a few minutes. Then after, the dirt can be removed with a sponge, a cloth or a brush. The cleaned surfaces should be additionally washed with clean water. In the case of tough soiling it is recommended to repeat the agent application. It is recommended to protect the cleaned surfaces with ATLAS IMPREGNATING SEALER FOR GROUTS AND TILES agent.

## Consumption

Consumption depends on the degree and the type of contamination.

## Packaging

Plastic bottle with an atomizer 0.5 l.

## Important additional information

- Due to the porosity and absorptiveness of unimpregnated joints, some stains may be found impossible to remove, especially:
  - stains which penetrated deeply into the grout structure,
  - stains existing for a long period of time.
- A room where product is applied can be used after airing until characteristic smell disappears.
- Wash the tools with clean water directly after use.
- The product may produce irritating smell during application.
- DANGER. Causes severe skin burns and eye damage. Causes serious eye damage. Harmful to aquatic life with long-lasting effects. Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Immediately call a POISON CENTER or doctor/physician. Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. Wash with plenty of soap and water. Get medical advice/attention. Avoid release to the environment. Contains ionic and anionic surfactants, sulphamic acid < 12%, lactic acid < 4%. Proceed in accordance with the Safety Data Sheet.
- Keep the product in tightly sealed, original and labelled packaging, in cool and dry place, protect from high temperatures (above 30 °C) and freezing – the product freezes and loses irreversibly its properties at temperature below 0 °C. Protect from direct sunlight. The shelf life of the product is 12 months from the date of manufacturing shown on the packaging.
