LIGHTBOXES

If you want your customers to know you exist, a lightbox is one of the most effective ways of drawing their attention. Whether they go above your entrance, higher up on a fascia, or near the road in a pylon cluster, a lightbox will advertise for you day and night.

Suggested Stock

- Backlit acrylic
- Backlit acrylic banner skin

Finishing Options

- Single or double-sided boxes.
- Full illumination or blockout background with illuminated 3D lettering.

WINDOW SIGNAGE

Vinyl • One Way Vision • Frosting

Window signage is great for advertising, as well as offering various levels of privacy. It can be used to continue your businesses' branding, to further market your products or services, display your trading hours and contact details, or just offer a stylish feature to otherwise lifeless windows.

Suggested Stock

- Internally or externally applied opaque graphics
- Externally applied one-way-vision
- Internally applied frosting

Finishing Options

- Full coverage or custom cut-out elements
- Combination of multiple medias
- Short or long term media options

ACM PANELS

Aluminium Composite Material

Aluminium Composite Material is an industry-standard, multi-purpose and versatile panelling material that can be used for many forms of advertising. It is strong, smooth and flat, while being much lighter than a comparable panel like steel or tin. It is available in a range of solid colours, or can be digitally-printed for high impact graphics and branding. ACM can be used for a wide range of purposes, from fascia signs, free-standing sign frames, ute tray panels, trailer panels or even folded box configurations.

Suggested Stock

- Gloss laminated for outdoor use.
- Matt laminate for indoor use and glare-reduction

Finishing Options

- Full sheets or custom sizes.
- Router cut to custom shapes or as 3D lettering.
- V-Grooved to make custom folded boxes & cladding.

3D GRAPHICS

ACM • Acrylic • Aluminium • Expanded Foam •
MDF • Stainless Steel

Router cutting and laser/plasma cutting allows custom 3D shapes to be created out of most popular substrates and materials. It can be used for 3D lettering, logo shapes, decorative panels or even custom-shaped illuminated graphics.

Suggested Stock

- 3mm & 4mm ACM
- 3mm, 4.5mm, 6mm, 8mm, 10mm, 16mm Acrylic
- 0.6 to 8mm Aluminium
- 10mm, 13mm, 19mm, 24mm Expanded Foam
- 6mm, 12mm, 16mm, 18mm, 25mm MDF
- 0.55 to 3mm Stainless Steel

Finishing Options

- Raw finish, custom painted, or digitally printed faces.
- Flush mount, offset, or custom multi-layer configurations.

POINT OF SALE

A-Frames • Pull-Ups • Flags

Now that your customers are right at your doorstep, why not point them in the right direction? We can offer a range of point-of-sale signs ranging from A-Frames, Pull-Up-Banners, to a variety of Flags. Advertise promotions, list your products, or simply greet them as they enter.

Suggested Stock

- Colorbond or Corflute A-Frame
- Pull-Up Banner
- Rectangle, Teardrop or Bowhead Flags

Finishing Options

- Weighted Bases
- Ground Spikes

VEHICLES

Cars • Utes • 4WD's • Trucks • Caravans • Boats

If it moves, we can signwrite it. From simple logo application, to full vehicle wraps, one-way-vision, reflective, site vehicle compliance, we can do it all.

Suggested Stock

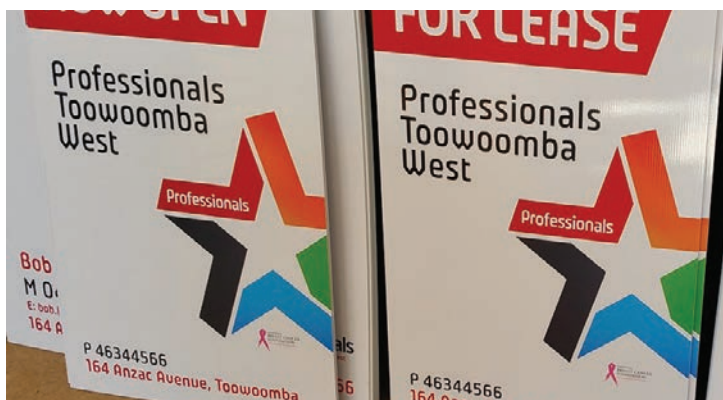

- Simple flat panel vinyl.
- Conformable wrap vinyl.
- One-Way-Vision.
- Class I and II reflective.
- Specialty fluoro, metallics, chrome & chameleon.

Finishing Options

- High gloss or matt laminate

CORFLUTES

Fluted Plastic Panels

Corflute is a cheap, light, and easy-to-use substrate for short-to-medium term advertising. It can be used for one-off or high volume signs, comes in a variety of convenient pre-cut sizes, or can be easily trimmed to custom sizes for a specific fit.

Suggested Stock

- 3mm
- 5mm

Finishing Options

- Single or double-sided printing
- Eyelets

BANNERS

Indoor • Outdoor • Backlit • Mesh

Banners are one of the most economical price-per-square-metre sign options and their versatility allows them to be used for small boutique signs, all the way up to large billboards. Banners can be manufactured for frontlit applications, blockout, backlit illumination or even mesh for construction hoarding. They can also be finished for a range of hanging and mounting systems, from simple ropes & eyelets, through to C-channel tracking and custom pocket & rod systems.

Suggested Stock

- 370gsm indoor
- 440gsm & 510gsm outdoor
- 600gsm & 800gsm blockout double-sided
- 510gsm backlit
- 270gsm mesh

Finishing Options

- Welded & Hemmed Edges
- Ropes Sewn In
- Eyelets
- Kedar for C-channel Tracking
- Pockets for Rods
