

Ezy Ties - Custom Velcro Ties

Crafted for Precision: Elevate your Brand and Efficiency with EzyTies by Eco Smart Lighting

Ezy Ties offers a seamless solution for swiftly and effortlessly managing cable installations. Our innovative Ezy Tie Velcro strap ensures a quick and hassle-free application process, tailored to the specific needs of your project.

Benefits:

Effortless Application - Perforated design, eliminating the need for scissors or Stanley knives during installation. Simply tear along the perforations for quick and convenient use.

Tailored Lengths - Customize the length of your Ezy Ties to perfectly fit your project's requirements, ensuring minimal waste and maximum efficiency.

Optimal Performance - With a melt temperature of 180°C and a wide working temperature range from -40°C to +85°C, Ezy Ties deliver reliable performance even in extreme conditions.

Robust Strength - Tensile strength of 25N (5.6lb) for a 1x1cm connection, and a peeling force of 3N (0.67lb), ensuring secure cable management solutions.

Standard Width Options:

- 9.5 mm
- 12.5 mm
