- These instructions may be updated at any time due to product improvements, Please visit website for most current installation instructions.

### Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Make a hole where fitting is to be placed using dimensions provided on line drawings above.
3. Connect the cable to LED Driver - If more than one fitting installed, wiring must be done in parallel.
4. Strip back the cable on both fitting and cable run and twist positive cables together. Then connect neutral cables together making sure to cover connections.
5. Insert LED Driver first into hole and then fitting by squeezing clips and gently pushing fitting into cutout.
6. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

**Must be installed by a licensed electrician**
