# FLEXI STREAMLINE 24V RGB 5M KIT FLBP24V5M/RGB - 6W/M

Versatile, COB RGB LED, 5m strip kit, 6W/m, IP20, strip width 10mm.

## Application

Ideal for residential features

## Design Specifications

- 5 metre strip kit includes COB strip with self-adhesive tape, plug and play driver
- Beam distribution 140°
- Streamline RGB COB LED technology, providing a smooth lighting profile
- Dimming, light level, colour and mode selection is via the supplied remote control.
- Heat sink required for system performance, LED channel options refer this section  - LED channel options (quick link)
- Cuttable every 125mm NOTE: when cutting LED strip kits greater than 50% of the kit length, it is always important to calculate the remaining LED load to reconfirm its compatibility with the existing driver, as driver changes may be required with moderate reduction in loads

## Performance

- Dimmable - **YES**
- Dimmer Type - **RGB Controller**

## Technical Specification

| Product | Model No. | Input Voltage (V/AC) | Watts per metre (W/m) | Beam Angle (°) | LEDs Per Metre | Cutting Interval |
|---|---|---|---|---|---|---|
| | **FLBP24V5M/RGB** | 240 | 6 | 140 | 336 | 125 |

| Body Colour | Dim (mm) |
|---|---|
| RGB | 5000(L) x 10(W) x 2(H) |

**DID YOU KNOW ?**

What is the importance of EMC? Electromagnetic Compatibility, defines the use of different electronic devices (such as electrical appliances, medical equipment, LEDs and drivers etc) to operate without interference with other devices. This is a mandatory label (and testing) requirement for Australian Lighting equipment covered by AS/NZS CISPR 15. ACMA also recognises equivalent standards CISPR 15 and EN 55015.
If you are unsure, ask your supplier for EMC compliance.
