

WARNING:

DA-LITE SCREENS ARE NOT FOR OUTDOOR USE - SHOULD BE USED INDOORS ONLY

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE DA-LITE WARRANTY SHALL NOT BE VALID IF THE PRODUCT IS NOT OPERATED IN ACCORDANCE WITH THE DA-LITE WRITTEN INSTRUCTIONS.

Irreparable damage to Da-Lite screens can occur via exposure to wind, sunlight, moisture and extreme temperature.

CAUTION:

Wind

Screens are not rated for wind resistance. Failure to secure the screen appropriately to resist high wind can lead to screen damage and/or personal injury.

Extreme Temperature

Extreme temperature can cause screen surface cracks (cold temperature), permanent deformity, and/or exuding (hot temperature).

Sunlight

Exposure to UV rays can cause permanent discoloration (yellowing) of the screen surface.

Moisture

Exposure to moisture can increase the screen surface susceptibility to cracking, and/or compromise screen surface flatness. Moisture may cause mildew to occur on the screen surface.
