B EARPHONES STATUS LIGHT

Indicates if the earphones are on/off, pairing, or charging. The light will be RED when charging in the Charging Case Station

C TYPE-C CHARGING PORT

This is the area to plug-in and charge your Charging Case Station. If the earphones are in the Charging Case Station they will charge first.

D CHARGING CASE STATUS LIGHT

These 4 lights will illuminate one by one - blinking GREEN when being charged. The blinking light will remain a solid GREEN when that percentage is full. When all 4 lights are a steady GREEN the case is fully charged.

ITEM: AOFREESP

3 Quick Start Guide

3.1 Charging & Powering ON

- 1 Connect the Type-C cable (only use the provided cable) to a computer USB port or a USB wall charger. Plug the other end of the Type-C cable into the Type-C charging port (C) located on the left side of the Charging Case Station. Each LED indicator light (D) will blink GREEN until they reach their full percentage and stay GREEN when full. Once the 4 LED lights are a steady GREEN your Charging Case is fully charged.
- 2 Open the top of the Charging Case Station and place your earphones in their initialled/designated areas. Once properly in place the LED lights on the earphones will illuminate RED. When the earphones are fully charged the RED LED light will automatically turn off.

NOTE: please refer to the diagram on 2.2

3 Quick Start Guide

3.2 Turning ON/OFF - 2 Options

- 1 The first option is when your earphones are turned off, touch and hold the Multi-Function button (A) for 3 seconds to turn ON your earphones. If your earphones are already ON, touch and hold the Multi-Function button (A) for 5 seconds to turn OFF your earphones.
- 2 The second option is when you remove your earphones from the Charging Case Station they will turn ON automatically. When you put them back in the charging station they will turn OFF automatically and begin to charge if needed.

NOTE: please refer to the diagram on 2.2

3 Quick Start Guide

3.3 Bluetooth Pairing - Method 1

- 1 Ensure the earphones are turned off, then touch and hold the Multi-Function button (A) for 3 seconds to turn the earphones ON. The earphones will enter Bluetooth pairing mode automatically and emit a tone as the LED indicator light (B) will flash GREEN and RED. Make sure your device has Bluetooth turned ON.
- 2 Ensure Bluetooth is enabled on your smartphone or music device. Your device will start searching for wireless devices. The earphones will appear as "audeo Free Spirit" in the list of available Bluetooth devices.
- 3 Select "audeo Free Spirit" the LED lights will stop on the earphones and will say "Bluetooth connected" to indicate that it has been successfully paired with your device.

3 Quick Start Guide

3.4 Bluetooth Pairing - Method 2

- 1 Pick up both earphones from the Charging Case Station your earphones will automatically enter pairing mode. They will automatically pair to one another and either the RIGHT or LEFT earphone will flash GREEN & RED steadily. Your earphones are now waiting to be paired to a device.
- 2 Ensure Bluetooth is enabled on your smartphone, tablet, computer, or music device. The earphones will appear as "audeo Free Spirit" in the list of available Bluetooth devices.
- 3 Select "audeo Free Spirit" and connect.

3 Quick Start Guide

3.5 Single Earphone Mode

- 1 Remove either the RIGHT or LEFT earphone from the Charging Case Station or only turning one of the earphone ON.
- 2 Turn ON by touching and holding the Multi-Function button (A) until you hear the prompt. After a few seconds the earphones will go into pairing mode (flashing GREEN & RED).
- 3 Open your Bluetooth setting on your device and pair again if needed. The earphones will appear as "audeo Free Spirit" in the list of available Bluetooth devices. Select "audeo Free Spirit" and connect.

NOTE: Last track function and Volume down function will not work in single earphone mode.

4 Button Functions
