

What is included:

1 x BSeen LED Dog Collar

1 x 'MINI' type USB charging cord

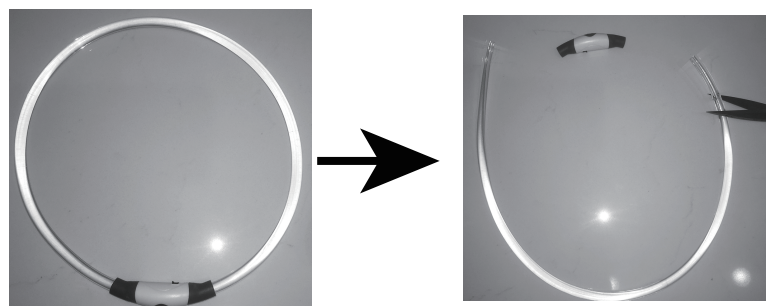

List of Components:

- a. ON/OFF switch
- b. USB charging port with a cover
- c. Soft ends of the unit
- d. Clear light transmitting polymer

Operating Instruction:

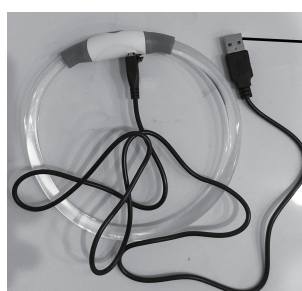

1. Press on/off switch 'a' to go through sequence: 1x Fast flashing; 2 x slow flashing; 3x Glowing; 4x Off
2. Clear polymer 'd' can be detached from both ends 'c'. A cissor can be used to cut the clear polymer from anywhere to resize.

3. To recharge the collar, first lift the USB port cover 'b', then plug in the 'Mini' end of the USB charging cord included in the package. The other end of the charging cord to be plugged into a Computer USB port; or any USB type wall adaptor (which is not included).

Charging indication light shows for the red, orange and green ones. For the blue ones it may not show through.

Charging takes about 30-60 mins.

To be plugged into the USB port of a computer or any USB type wall adaptor for phones
