**Eco-shot dispensing.**  
Bucket & Bottle Fill + Oversink Dispenser

Dose n Fill is Castle's chemical management system for hospitality and healthcare, designed to provide customers with an efficient, safe alternative to traditional chemical cleaning regimes, with no trade-off in performance.

Automatic dosing, concentrated chemistry, and significantly reduced chances of spillage and misuse of chemicals make Dose n Fill a viable option for every healthcare and hospitality setting.

# Efficient

Dose n Fill

concentrated performance made convenient

- DnF products deliver up to 5-times more RTU product than standard concentrates
- Eco-Shot dispensers provide a significant reduction in cost-per-clean via accurate dosing management, standardising and minimising chemical usage costs.
- Compact packaging reduces required chemical storage space & bulky dispensers

Dosing rings set the desired amount of chemical to be dispensed, from 5mL-30mL.

A built-in delay mechanism prevents costly mis- or multiple-dosing. After one pump, the spring mechanism takes considerable time to return to pumping position.

# Safe

- Reduced pack sizes (2.5L bottles) improves user safety
- Closed-loop & SafeLink valves prevents most accidental spillage
- Colour-coded caps and valves reduce chance of dispensing (or mixing) the wrong chemicals.
- Twist & push operation reduces chance of accidental dispensing

SafeLink Valves

Twist & push dispensing

# Performance

- 2.5L ultra-concentrates equate to 375L of RTU product.

Using DNF Sanitiser-  
No Rinse at 5mL per
