Dentamaze Aims To Amaze.

About Us:

It's in our name, in our business practices, in our unmatched quality of products and customer service.

Dentamaze comes from the combination of words "dental" and "amaze", because that's what we're constantly striving for: to amaze everyone with the great dental solutions we provide.

We offer dentists in Jordan and surroundings dental products, supplies and equipment, in order to make their practice seamless and simple.

We offer them the latest technologies on the market along with a top-notch field sales and account management.

In 2020 we helped over 1000 dentists in the Jordan market, even though our team is comprised of only a little more than 20 employees.

Our Story:

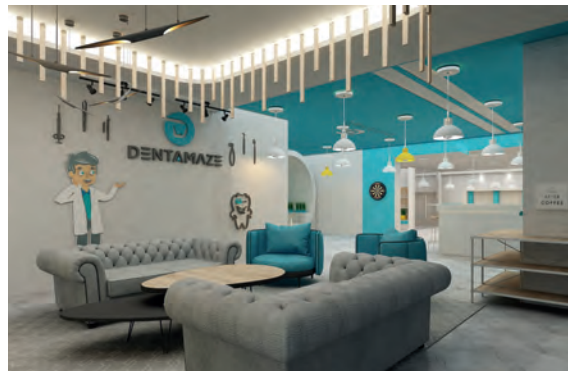

The journey of our brand started when two ambitious brothers decided to help people smile healthier and with more confidence.

We know a smile is the expression of one's soul, a way of showing kindness and affection to the people around you.

We also know the magic of giving people the smiles that they deserve is all done by dentists.

And magic needs the right ingredients to work. The right tools in the right hands will do wonders to anyone in need. That's where we come in.

Dentamaze offers great solutions to dentists in Jordan so they can continue their wonderful work in restoring the smiles of everyone.

bisico®

Bisico, Bielefelder Dentalsilicone GmbH & Co. KG, is a family-run company which was founded in 1970 by the master dental technician Horst Ludwigs in Bielefeld.

From the initial product line based on a small range of condensation-curing silicones, a comprehensive range of high-quality consumables for the dental laboratory and dentists has come.

Bisico now provides a wide range of dental products including products for temporary restoration, impression materials, high-quality materials for modern dental fillings and more.

Today, Bisico became a global supplier in dentistry, satisfying dentists and dental technicians in more than 50 countries worldwide.

Since Bisico was founded, their guiding principle “Your methods – our material” has been central to all of the product ranges based on three pillars:

✓ High quality standard

✓ Continual innovation

✓ Reliable service

 Dentamaze

We know how

In the year 1998 the company "Willmann & Pein GmbH" was founded
The idea for start up with "W & P" was to create an own label.

Since many years both companies are producing light curing composites, temporary cements, glas-ionomer-cements and more.

The distribution of the products takes place under own trade mark in more than 80 countries all over the world.

Poland

Topical Anesthesia Alpha

- Topical anesthetic reduces the slight discomfort associated with insertion of the needle.
- 30g Strawberry.

USA

Barbed Broach VDW

- Used to remove pulp tissue during endodontic treatment.
- Length: 21mm.
- 10pcs/box.

Germany

Finger Spreaders

- Used for condensing gutta percha.
- Available in 6 different sizes.
- 6pcs/box.

France

Endo Ring Ruler

- Used to measure the length of limes, paper tips and gutta-percha using a single hand.
- 1pc/bag.

Pakistan

Gates Glidden Thomas

- Used primarily for shaping the coronal third of the root canal.
- Available in 6 different sizes.
- 6 pcs/box.

France

Endodontics

Endodontics encompasses the study (practice) of the basic and clinical sciences of normal dental pulp, the etiology, diagnosis, prevention, and treatment of diseases and injuries of the dental pulp along with associated periradicular conditions.

Formaline & Tricresol PD

- Root canal disinfection.
- 15ml bottle.

Switzerland

WP Glass Liner

- Glass Liner is a light-curing, flowable, radioopaque glass-ionomer lining material, it can be used as a liner under any filling material, for extended fissure sealing - 2ml syringe.

Germany

GLOCO-CHeX 2%

- Chlorhexidine digluconate from Cerkmated used to improve cleaning of root canals.
- 200 g bottle.

Poland

Gutta Solvent Cerkmated

- Eucalyptus used during Endodontics re-treatment to remove gutta-percha from the root canal.
- 10ml bottle.

Poland

H-File & K-File MANI

- Sizes: 15, 20, 25, 30, 40.
- Length: L25.

Japan

Bleeding Block Cerkmated

- Alustat it decreases the local swelling and to staunch slight gingival bleedings.
- 10g bottle.

Poland

Absorbent Paper Gutta Perch

- All sizes are available (refill/assorted)
- Taper: 0.02, 0.04, 0.06.
- box of 60 or 120 points.

 Dentamaze

Calcium Liner META

- Biner Ic it is a light cured liner and base material specially formulated for use with adhesives and composites.
- 2x2g syringes/pack.

 Korea

Calcium Silicate Liner -BISCO

- Theracal Ic is a light-cured material that performs as a barrier and protectant to the dental pulpal complex. 1g syringe/pack.

 USA

Pulp Devitalizer Vladmiva

- Devit is used as an anaesthetic and antiseptic compress in case of pain when treating caries.
- 3g syringe/pack

 Russia

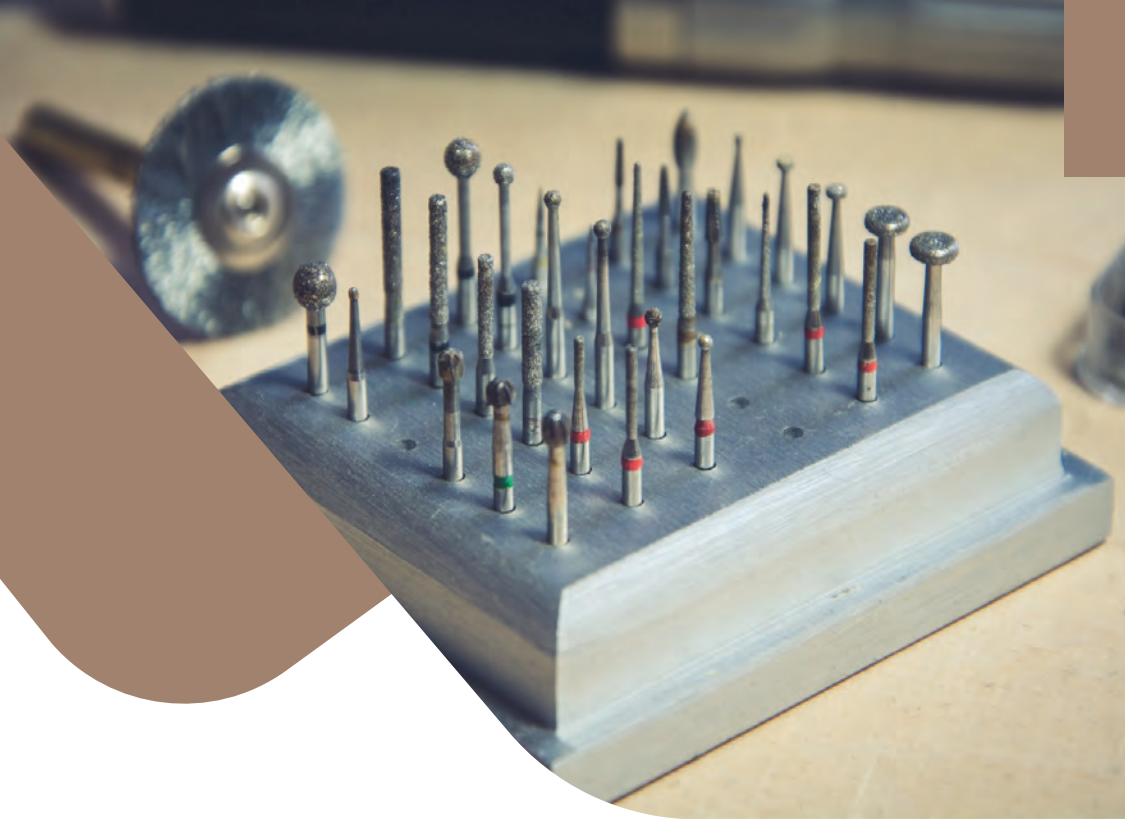

Endofill Root Canal Filling Material

- 15g powder.
- 15ml liquid

 Switzerland

Stone Burs

- White stone composite polishing bur.
- Shape : round and flame.
- 1 pc/pack.

 China

Carbide Burs

- Available with different shape and length. low speed hand piece burs, high speed handpiece and straight hand piece burs.
- 1 pc/pack.

 China

High Speed Diamond Burs

- Variety diamond burs with several shapes and various roughness.
- available with several sizes.
- 1 pc/pack.

 China

Diamond Burs Kits

- Usage: finishing and polishing kit, preparation kit and cavity kit.
- Kit of 20 or 18 or 12 burs.

 China

Burs Holder

- autoclavable plastic holder (12 hole).
- metal holder (15 hole).
- metal holder (30 hole).
- 1pcs/box.

 China

Handpieces And Burs

A handpiece is one of the most used instruments in dental surgery, for this reason, Dentamaze would like to help you make an informed decision when choosing your handpieces.

High-speed Handpiece

- Available with 4 holes and push button for bur removal.
- Single piece.

 Dentamaze

High-speed Handpiece With LED

- 1 LED, triple water spray with excellent cooling system and stainless steel cap with 4 holes and push button for bur removal.
- Single piece.

 Dentamaze

Highspeed Handpiece 5 LED

- 5* Ring LED shadowless illumination, low noise with standard head.
- 4 holes push button system.
- Single piece.

 Dentamaze

Straight Handpiece

- Dentamaze high quality Straight Handpiece.
- Internal cooling system.
- Single piece.

 Dentamaze

Contra Angle External Cooling

- Dentamaze high quality contra angle.
- External cooling system.
- Single piece.

 Dentamaze

Contra Angle Internal Cooling

- Dentamaze high quality contra angle.
- Internal cooling system.
- Single piece.

 Dentamaze

Handpiece Motor External Cooling

- Dentamaze high quality air motor.
- External cooling system.
- Single piece.

 Dentamaze

Handpiece Motor Internal Cooling

- Dentamaze high quality air motor.
- Internal cooling system.
- Single piece.

 Dentamaze

evices

Distiller Machine

- Produces 4L of 100% steam distilled water in 4 hours and reduces 99% of total dissolved solids.
- Single piece.

 Dentamaze

Teeth Whitening With LED

- 10 high power LEDs, fan-cooled, suitable for dental clinic.
- Adjustable angle and direction. Unique semi-circular head fit the teeth arc that whiten both arches at the same time.

 China

Dentist Trolley

- Material: Wooden.
- Number of drawers: 5 drawers.
- Soft rubber wheel with brake lock, movable at any direction.

 China

Digital Ultrasonic Cleaner

- Normal and soft power control to resolve the cleaning blind spot.
- Degas function for improve the cleaning effect.
- Time setting: 1-99 minutes adjustable.
- Heating: 20-80 °C temperature adjustable.
- User-friendly and clear panel.
- Memory function.
- LED display for temperature and timer.

 China

Fast-cutting Sealer

- This machine can seal multiple sterile pouches of different widths at the same time, max sealing length 300mm.
- The cutting blade and pressure bar can be replaced without disassembly.
- The sealing temperature is adjustable to accommodate the pouch rolls of various material and thickness.
- Pouch rolls can be feeded by one hand easily and cut smoothly without jam.

 China

Devices

Koaladent Is A Professional Dental Equipment Manufacturer, In 2004, they start their business as a dental compressor factory which creates the first medical usage oil-free compressor for a dental unit. During 18 years of doing business with clients.

Intraoral Scanner

Say hello to cameo brand new intraoral scanner, Elegant 3! Exceptional, smart and elegant, Elegant 3 improves the overall clinical experience. It allows users to easily acquire vivid digital impressions in a faster and more accurate way.

Moreover, Elegant 3 comes with a wide range of different intelligent functions, guaranteeing more comfortable chairside experience and efficient clinic lab collaboration.

Single Arch
25_s

Faster Scan

The scan speed is 30% faster than the last generation due to Elegant 3 drastically upgraded scanning technology

30%

More Accurate Scan

Thanks to optimized algorithms and imaging mechanism, Elegant 3 carries out more accurate and precise results by 30%, meeting the clinical needs of different applications

15%

Longer Scan Tip

Slimmer and 15% longer autoclavable scanner tips offer patients with more comfortable clinical experience

22_{mm}

Greater Scan Depth

Elegant 3 is suitable for various clinical scenarios including acquiring scan bodies and periodontal scans.

CX Implants

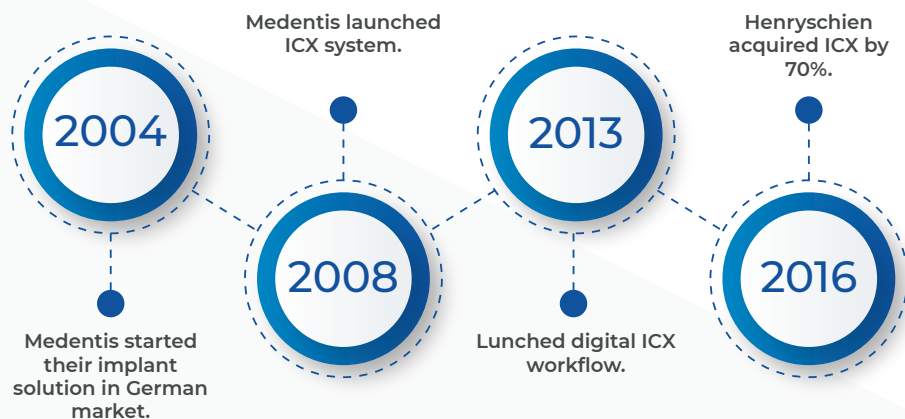

ICX Overview

Medentis medical GmbH internationally active company with a focus on dental implantology, aesthetic dentistry and CAD/CAM manufactured prosthetics, based in Bad Neuenahr-Ahrweiler near Bonn, Germany.

Since then medentis medical with ICX has continuously revolutionized the implant market and convinced a wide range of users around the world who appreciate the reliable quality of ICX premium implants.

Today ICX system is one of the most successful implant systems in Germany and has advanced from a popular implant to a real success implant.

ICX Implants

ICX (Internal conical hex) Manufactured in Switzerland, treated in Germany, and exported worldwide. ICX is one of the most successful and selling implants in Germany that has advanced from a popular implant to a real successful implant.

Why is ICX Trustworthy?
