

sunlite®

Sunlite 37030-SU T8 Germicidal Straight Fluorescent Tubes Light Bulbs, UVC Light (253.7nm), Medium 2-Pin (G13) Base, Sterilizes Water, Air, and Surfaces, Effective against Bacteria, Mold, Fungi, and Viruses, 6,000 Hour Life Span, 1 Pack

The Sunlite 15 Watt T8 UVC Germicidal Straight Tube bulb is designed for use in disinfectant fixtures only. The UVC coating (253.7nm output) is highly effective in killing bacteria, mold, fungi, and viruses by destroying their molecular bonds that hold their DNA together. Effective on water, air, and surface contamination. They are eco-friendly and contain no chemicals. And unlike germicidal chemicals there are no corrosives or byproducts that can cause health hazards. Widely used for hospital disinfection, food service sanitation, clean rooms, and for instrument disinfection in commercial applications. Clear finish with 6,000 hour life span. Medium 2-Pin Base (G13). Overall length 18-inches, 1-inch in diameter.

General Characteristics

Bulb	T8
Nanometer	253.7nm
Lamp Life Hours	6000 Hours
Bulb Finish	Clear
Life (based on 3hr/day)	5.5000000000 Years

Electrical Characteristics

Watts	15
-------	----

Light Characteristics

Color Accuracy (CRI)	80
Coating	UVC
Nanometer	253.7nm

Product Dimensions

MOL (in)	18
Diameter (in)	1"

Product Data

Item Number	37030-SU
Case Quantity	25.000000
Pack Size	1 Pack
Barcode on SKU	653703370309
Brand	Sunlite
Description	G15T8

Suggested Usage

- **UVC LIGHT** - The Sunlite 15 watt T8 straight tube bulb is effective for disinfecting water, air, and surface contamination. Medium 2-Pin Base (G13).
- **DISINFECTANT** - The UVC coating (253.7nm output) is highly effective in killing bacteria, mold, fungi, and viruses by destroying their molecular bonds that hold their DNA together.
- **FOR SPECIALIZED FIXTURES ONLY** - This bulb is designed for use in specialty disinfectant fixtures only that contain the proper shielding to prevent exposure to the skin and eyes of humans and animals. They can not be used as a retrofit for standard lighting fixtures.
- **COMMERCIAL USE** - Widely used for hospital disinfection, food service sanitation, clean rooms, and for instrument disinfection in commercial applications.
- **LONG LIFE SPAN** - Features a life span of up to 6,000 hours. Overall length 18-inches, 1-inch in diameter.
