

## Blink technology-- simplicity is only skin deep

Blinks clean, simple design and thin profile belies the advanced technologies inside. The edge-lit LED design provides even, efficient light over a wide area through a laminated light guide assembly made of high quality polymer for the highest efficiency and safety. And advanced, on-board IC direct drive technology means there are no external drivers allowing for Blink's sleek design and making wiring easy.

On-board IC drive technology – no external driver needed

Edge-lit design eliminates hot spots and provides even light output

Laminated light guide assembly for consistent light dispersion, (glass, pattern disk and diffuser)

## Installation is easy (5.5", 7", 9")

Blink LED fixtures mount easily to any 3" or 4" junctions box. The Blink quick connect makes connections easy, and the universal mounting plate assures a clean, tight fit.

Blink quick connect

### STEP 1

Simply screw the Blink universal mounting plate to the junction box.

### STEP 2

Make your connections using the quick connect included, and lift into place.

### STEP 3

Snap Blink onto the mounting plate.
