

IMPORTANT SAFEGUARDS

WARNING-Risk of fire or electric shock. Disconnect power at fuse or circuit breaker before installing or servicing.

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. **WARNING** - Risk of fire or electric shock. LED Retrofit Kit installation requires knowledge of luminaires electrical systems. If not qualified, do not attempt installation. Contact a qualified electrician.
2. **WARNING** - Risk of fire or electric shock. Install this kit only in luminaires that have the construction features and dimensions shown in the photographs and/or drawings and where the input rating of the retrofit kit does not exceed the input rating of the luminaire.
3. **WARNING** - To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
4. It may be necessary to remove a socket mounting plate for adequate clearance.
5. Each downlight shall be installed only in its intended manner and orientation.
6. Suitable for Damp Locations.
7. Min. temperature rating of -25 °C.
8. Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.

TO INSTALL:

STEP 1:

Make sure the **power is turned off** at the source to the recessed can.

STEP 2:

This retrofit downlight was set for 6 inch fixture housing. (See image1). When need to be fitted to 5 inch fixture housing, loosen the two screws with the cross screw driver, slide the hook towards position "5". Then tighten screw. (See image2).

STEP 3:

Srew the E26 socket adapter into recessed can socket by turning clockwise. (see image3).

STEP 4:

Plug E26 adpater's male connector to the downlight's femal connector. (See image4).

STEP 5:

Push two ends of the Flip Clip toward each other till it can fit into the recessed can (see image5).

STEP 6:

Install the downlight up into reseeded can firmly until the rim ring is flush with the ceiling (see image6).
