Wild Nettle & Heather

Fresh heather flowers from the Scottish Highlands combine with nutrient-rich wild nettle to create a subtle fragrance with a lovely woody yet floral scent.

I bought these products because I love that they are organic and that the bottles are made of sustainable sugarcane rather than traditional plastic

Hello and a very warm welcome to The Highland Soap Company.

ABOUT US

The Highland Soap Company was founded by Emma Parton in her kitchen 20 years ago and we remain a small, family-owned maker of soap and skincare products based in the Highlands of Scotland. We use organic and natural ingredients and ecological packaging to make what we believe are the finest and most sustainably made products made in Scotland.

These days, with our new larger premises in Fort William, we are better placed than ever to meet the needs of our customers. We've moved on from the kitchen table to a purpose-built workshop that is open to the public with a visitor centre, a beautiful store and Larder Café. Being retailers with our own shops as well as manufacturers, we understand how to help you make a success of our range. We love to show people round our new workshop, so if you're in the Highlands, drop by for a VIP tour!

Our products are:

-  ORGANIC & NATURAL
-  PARABEN FREE
-  NATURAL INGREDIENTS
-  NOT TESTED ON ANIMALS
-  SUSTAINABLE PACKAGING
