HOW TO PRINT

• To ensure accurate sizing, this chart must be printed to the correct scale on 8.5"x11" paper. Page Scaling must be set to "None" or "100%" or "Actual Size".

• Please use the "Print accuracy check" section below to confirm the correct page scaling after printing. Only one of the objects is necessary to confirm the proper page scaling.

HOW TO FIT

1. Begin on a firm, flat surface.
2. Have your child stand up with their foot placed on the designated heel location.
3. Record the first line past the longest toe, for EACH FOOT, in the designated Size Tracker box.
4. Select the correct size by following the LARGER of the two numbers.
5. Done!

This Sizing Tool has been designed to accommodate for the recommended "growing room" necessary for a child's foot. Please order the US Size as indicated.
