Panasonic

DATA PROTECTION

Providing ultimate data protection is how we're engineering a better world.

Absolute®Software
Computrace®

OVERVIEW

Panasonic's Data Protection offers the ultimate data protection, computer theft recovery and asset tracking solution. Panasonic is a preferred provider of Computrace® by Absolute Software. Using any type of Internet connection, Computrace works behind the scenes on your Toughbook® Windows®-based computers to silently and securely contact the Absolute Monitoring Center every 24 hours to report its location. If a Toughbook computer is reported missing or stolen, the machine is flagged to call in every 15 minutes, and then the Absolute Recovery Team goes to work.

SERVICE BENEFITS

- Embedded in the BIOS firmware
- Remove sensitive data at computer end of life or lease
- Monitor computers as they change hands and move through your organization
- Generate asset reports for upgrades, rollouts and computer retirement
- View daily reports on unauthorized software use and hardware changes

DATA PROTECTION

Computrace's Data Delete erases and overwrites the data. So once data is removed, it can never be recovered. You can remotely delete data from computers that are on or off of your network.

REMOTE COMPUTER
Location, user, hardware and software data are transmitted daily without user input or knowledge (client initiated, TCP based and encrypted).

ABSOLUTE MONITORING CENTER
Information is confidentially stored in our secure off-site facility.

IT ADMINISTRATOR
Responsible for managing remote/mobile computer assets and for setting up Data Delete.

ONLINE CUSTOMER CENTER
Absolute website: Log in to Customer Center to track and manage your PC assets.

TOUGHBOOK®

COMPUTER THEFT RECOVERY

Computrace can recover lost or stolen computers when they go missing. When you report a Toughbook® mobile computer stolen, the Absolute Recovery Team immediately goes to work. The Team provides law enforcement with tracking information to pinpoint the physical location of the computer and documentation needed to obtain subpoenas and process search warrants. Depending on the product selected, a Service Guarantee* of up to $1,000 may apply if a computer cannot be recovered within 60 days of being reported stolen.

SECURE IT ASSET MANAGEMENT

For IT asset management, Computrace gives up to 100% visibility into computer assets:

- Monitor machines as they change hands and move through your organization
- Engage geolocation functionality to find the location of your computers on a map
- Manage leased computers for a nearly perfect return ratio at end of lease
- Detect and manage users operating outside corporate policies with predefined alerts
- Identify preventive maintenance tasks to reduce help desk costs

LEVELS OF PROTECTION

These data protection services are available on all new deployments and, if your organization requires, may also be purchased for an existing deployment. Please consult your Panasonic representative for details.

COMPUTRACE COMPLETE

- Computer Theft Recovery
- Secure Asset Tracking with Advanced Reports
- Data Protection
- Recovery Guarantee*

COMPUTRACE PLUS

- Computer Theft Recovery
- Secure Asset Tracking with Basic Reports
- Data Protection

COMPUTRACE DATA PROTECTION

- Secure Asset Tracking with Advanced Reports
- Data Protection
