Please consult your reseller or Panasonic representative before purchasing.

* Caution: Do not expose the skin to this product when using the product in a hot or cold environment. When using in hot or cold environment, some peripherals may fail to work properly. Check the operation environment of the peripherals. When using in low temperature environment, startup may become slow or battery operation time may become short. The computer consumes power when warming up during startup. Therefore, if you are using battery power and the remaining power is low, the computer may not start up.

1 Exclusively configurable by selecting one from Barcode reader or Secondary USB A 2.0.

2 Operations of this computer are not guaranteed except for the pre-installed OS.

3 1MB = 1,048,576 bytes/1GB = 1,073,741,824 bytes

4 1MB = 1,000,000 bytes /1GB = 1,000,000,000 bytes. Your operating system or some application software will report as fewer GB.

5 Operation has been tested and confirmed using Panasonic microSD Memory Card with a capacity of up to 2 GB and Panasonic microSDHC Memory Card with a capacity of up to 32 GB.

6 Does not guarantee operation of all USB-compatible peripherals.

7 Only for model with Wireless WAN. The specifications may differ depending on the models.

8 Approx. 0.5 W when the battery pack is fully charged (or not being charged) and the computer is OFF. Even when the AC adaptor is not connected to the computer, power is consumed (Max. 0.3 W) simply by having the AC adaptor plugged into an AC outlet.

9 Varies depending on the usage conditions.

10 May differ depending on models and options.

11 Average value. May differ depending on models and options.

12 Accessories and Integrated Options may vary depending on your configuration. Visit Panasonic website for more accessories and details.

13 The AC adapter is compatible with power sources up to 240V AC.

14 USB Type-C of this model does not support USB PD, Display Port, or Thunderbolt.
