

# Mounting Times-7 Panel Antennas with the EZ-M9 Articulating Mount and VESA Mounting Plate

EZ-M9 Bracket

Times-7 Mounting Plate

Times-7 Panel Antenna

## Step 1

Lay Mounting Plate face down with screw posts facing up. Place EZ-M9 bracket as shown, using the corner holes diagonally. Insert plastic washers and nuts on screw posts and tighten.

## Step 2

Turn bracket and plate assembly over and attach antenna using included machine screws at each corner.

Step 3

Insert plastic hole plugs as shown. Make sure to align the small tongue and groove for proper fit.
