Quattro Zero Basins

The Quattro Zero range of washbasins redefines a visual perception of lightness within the bathroom. Straight lines and ultra slim edges present a sophisticated design that is bold and commanding.

The unique material Ceramilux – an engineered composite that guarantees quality and durability, is recyclable, anti-yellowing, hypoallergenic and non-toxic – has the ability to achieve a 4mm thin profile, top with drip-proof edging and 45 degree finish.

i A lead time of 18 weeks applies; please confirm with a client advisor.
