

MANTIS

To play with the Mantis Power Token, give it to the player on the right of the starting player, then follow these rules during the game:

- If you begin your turn with the Power Token, take one additional turn to Steal or Score from any player at the end of your turn.
- If you successfully steal card(s) from a player with the Power Token, you steal the Power Token as well! When you take the Power Token, immediately take one additional turn to Steal or Score from any player.
- For a 2 player game, instead of using the “2 Player Game” rules in the Mantis instructions, use these rules and play to 15 points instead of 10.
