A21 PRODUCT FEATURES

Omnidirectional Lighting

This A21 meets the new ENERGY STAR V1.1 requirements for omnidirectional bulbs by providing 330° of evenly distributed light intensity. In the 135° to 180° zone, this lamp emits 65% more lumens than what is required by ENERGY STAR, providing a fuller light than other LED A-lamps.

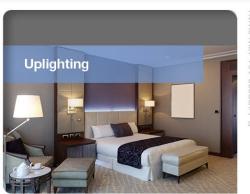

Exceptional Efficacy

At 94 LPW, this lamp's efficacy is 10% higher than the Tier 1 LED A21 3-way 100W replacement industry average. This energysaving performance makes this lamp a smart retrofit choice for incandescent and CFL bulbs.
