**Disposal of your old product:**

Your product is designed and manufactured with high quality materials and Components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means the Product is covered by the European Directive 2012/19/EU.

Please find out for yourself about the local separate collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old products with your normal Household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.
