Naturally we care

Our philosophy

“Mother Nature is our muse: she guides us in all our choices. In Diosapet, naturally we care”

This is the company philosophy of Diosapet which dates back to 1901, the year of the creation of its first line of natural products aimed to the care and the wellness of pets.

Over the years the company has evolved but the philosophy has always been the same, shaping both the creation of all the new lines of products and our production techniques in a unique and inimitable way.

In Diosapet our ingredients are not only carefully selected but they are also always respected in each step of our production process.

In particular the steam cooking procedure is performed in a very gentle way in order to preserve the nutritional value of the raw materials.

All this is made possible thanks to a Scientific Team able to transform raw materials and ingredients into petfood of excellent quality following the same highest production standards as the ones used for human food (ISO 9001 and ISO 22000).

For 120 years Mother Nature has guided all our actions: this is our DNA and this is why “In Diosapet, naturally we care”.

How we **work**

The process that we follow is divided into 8 phases. It is a path in which every element is fundamental and essential to reach our aim: the wellbeing of our pets.

Science & Technology

From the study of the formulas to the creation of the products we operate based on a strict scientific nutritional approach, which is obtained thanks to the cooperation of our internal scientific team with nutritionists, researchers of universities and institutions. We employ the best extruder on the market (by Wenger USA) maximizing its efficacy thanks to a steam cooking process which respects the integrity of the valuable ingredients that we choose.

Steam Cooked

Health, wellness and sustainability

Thanks to our approach, we develop innovative nutritional systems, which are able to satisfy the needs of our pets at 360°. Not only our company philosophy leads us to be naturally sustainable but we also choose research methods fully respectful of the dignity of our pets. The production is 100% made in Italy and the ingredients that we use are mainly of local production.

Made in Italy

No Cruelty Test

Km Zero

Ingredients and phytonutrients

The analysis and the accurate selection of the protein sources, fats and carbohydrates grant us the possibility to evaluate their freshness, integrity and nutritional value: in this way we can surely define their specific molecular composition and therefore their digestibility.

neobreeder dog

Neobreeder kibbles have been developed in six different formulations to meet the specific needs of canine professional breeders.

neobreeder holistic

The HOLISTIC line is addressed to all breeders who do not accept compromises in terms of quality and who are aware of the outstanding benefits of the phytonutrients.

Only natural antioxidant

Grain Free

Unique Phytonutrient Philosophy

The holistic attitude of this line comes to life thanks to an effective cocktail of phytonutrients, characterized by a high functional activity.

Aloe vera

Supports immune system activity and favors skin regeneration.

Ginseng root

Reduces stress, supports vitality.

Cloves, lemon, turmeric, rosemary

Help to limit cellular aging.

Hemp apical leaves and inflorescence

Selected and naturally rich in active principles.

Omega-3

Support dermic function.

Taurine and L-carnitine

For heart health and to support fats metabolism.

Omega-3	0,50%

Glucosamine	1.000mg/kg
Chondroitin sulfate	800mg/kg
Metabolizable Energy (CEN)	3.960 kcal/kg; 16,60 MJ/kg

LAMB & PUMPKIN

Monoproteic

Low Grain

ADULT MEDIUM/MAXI

Complete pet food for medium and large breed adult dogs

Composition: Dehydrated lamb (30%), fresh lamb (20%), brown rice, chicken fat, pea starch, dried pumpkin (5%), dried beetroot pulp, fish oil (herring), chicken liver, chicory root (source of inulin and F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), bicalcium phosphate, potassium carbonate, glucosamine, chondroitin sulfate, Yucca juice

Analytical constituents

Crude protein	26,00%
Crude fat	16,00%
Crude fiber	2,00%
Crude ash	7,00%
Calcium	1,20%
Phosphorus	0,80%
Omega-6	2,00%
Omega-3	0,50%

Glucosamine	1.000mg/kg
Chondroitin sulfate	800mg/kg
Metabolizable Energy (CEN)	3.860 kcal/kg; 16,20 MJ/kg

CHICKEN & SWEET POTATO BABY STARTER

Monoproteic

Low Grain

BABY STARTER

Complete pet food for x-small, small breed puppies and for pregnant and lactating dogs

Composition: Dehydrated chicken (45%) (of which 80% dehydrated, 20% fresh), sweet potato (20%), chicken fat, rice, dried beetroot pulp, chicken liver, fish oil (herring), chicory root (source of inulin and F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), bicalcium phosphate, potassium carbonate, glucosamine, chondroitin sulphate, Yucca juice

Analytical constituents

Crude protein	30,00%
Crude fat	22,00%
Crude fiber	1,30%
Crude ash	7,00%
Calcium	1,50%
Phosphorus	1,00%
Omega-6	1,70%
Omega-3	0,50%

DHA	0,20%
EPA	0,20%
Glucosamine	1.000mg/kg
Chondroitin sulfate	800mg/kg
Metabolizable Energy (CEN)	4.208 kcal/kg; 17,70 MJ/kg

CHICKEN & PUMPKIN

Monoproteic

Low Grain

PUPPY MINI

Complete pet food for x-small, small breed puppies and for pregnant and lactating dogs

Composition Dehydrated chicken (40%), deboned fresh chicken (20%), brown rice, chicken fat, pea starch, dried pumpkin (5%), fish oil (herring), dried beetroot pulp, chicken liver, chicory root (source of inulin and F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), bicalcium phosphate, potassium carbonate, glucosamine, chondroitin sulphate, Yucca juice

Analytical constituents

Crude protein	30,00%
Crude fat	22,00%
Crude fiber	1,40%
Crude ash	7,00%
Calcium	1,50%

neobreeder equilibrium

The EQUILIBRIUM line is designed for breeders who need a specific nutrition, which is often mono proteic, always gluten free and enriched with dried fruit and vegetables, natural sources of antioxidants and soluble fibers.

Only natural antioxidant

Gluten Free

Apple, carrot, blueberry, cranberry
Source of antioxidant and soluble fiber.

Glucosamine and Chondroitin
Support for articulations.

Omega 3
Support dermic function.

SENSITIVE LAMB

Gluten Free

PUPPY ALL BREEDS

Complete pet food for all breed puppies, pregnant and lactating dogs

Composition: Lamb (45%) (of which 80% dehydrated and 20% fresh), rice (25%), corn, chicken fat, pea fiber, chicory root (source of inulin and F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), dried fruits and vegetables (blueberry 0,40%, cranberry 0,40%, apple 0,20%, carrot 0,20%), calcium carbonate, glucosamine, chondroitin sulfate, Yucca juice

Analytical constituents

Crude protein	30,00%
Crude fat	20,00%
Crude fiber	1,50%
Crude ash	7,40%
Calcium	1,40%
Phosphorus	0,90%
Omega-6	1,50%
Omega-3	0,30%

Glucosamine	500mg/kg
Chondroitin sulfate	400mg/kg
Metabolizable Energy (CEN)	4.081 kcal/kg; 17,15 MJ/kg

CHICKEN & OCEAN FISH

Gluten Free

ADULT ALL BREEDS

Complete pet food for all breed adult dogs

Composition: Chicken (28%) (of which 80% dehydrated and 20% fresh), rice (25%), corn, dehydrated ocean fish (herring) (8%), chicken fat, pea fiber, chicken livers, chicory root (source of inulin and F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), dried fruits and vegetables (blueberry 0,40%, cranberry 0,40%, apple 0,20%, carrot 0,20%), calcium carbonate, glucosamine, chondroitin sulfate, Yucca juice

Analytical constituents

Crude protein	25,00%
Crude fat	15,00%
Crude fiber	2,00%
Crude ash	6,50%

Multi Protein

PORK ADULT

ADULT ALL BREEDS

Complete pet food for all breeds adult dogs

Composition: Pork (33%) (of which 85% dehydrated and 1% corn, wheat, chicken fat, dehydrated chicken, dried beet hydrolyzed chicken livers, carob flour, chicory root (source of F.O.S.), dried inactivated brewers' yeast (source of M.O.S.), glu chondroitin sulfate, Yucca juice

Analytical constituents

Crude protein	25,00%
Crude fat	14,00%
Crude fiber	2,50%
Crude ash	8,50%
Calcium	1,70%
Phosphorus	1,20%

Glucosamine	350mg/kg
Chondroitin sulfate	300mg/kg
Metabolizable Energy (CEN)	3,670 kcal/kg; 15,40 MJ/kg
