

# PROTECTIVE FACE MASK CONVENIENCE PACK

NEW

Our medical grade Type II-R 3-ply masks offer excellent quality and assurance of superior protection level being compliant with international regulatory standards and provided by a leading, trusted healthcare services and sterilization company.

The unique package format offers convenient on-demand, protected access while reducing contamination issues related to larger unprotected multi-unit format boxes. The ideal, readily available 'on-the-go' consumer solution as an 'always available' protective provision.

# PROTECTIVE FACE MASK CONVENIENCE PACK

**NEW**

## OVERVIEW

Consumers and workers are wearing masks to protect each other from the possibility of spreading viruses and support public health and safety. The utilization of masks is a newly adopted consumer behaviour in North America and often a standard requirement for many normal everyday situations. Our convenience pack is designed as a unique solution for immediate everyday 'on hand' use and future safety supply needs.
