With transfer paper

1. PREPARING THE SURFACE

Wipe the surface where you are to apply your decal with a damp cloth. Do not use any cleaning products.

2. CUT

Separate the individual motifs.

3. PEEL

Gently peel away the white paper from your decals. Be sure that the stickers remain on the transfer paper. You will now see the adhesive side of the decals.

4. APPLY

Apply the decal to your wall. Press firmly and then rub your hands over the decals in a circular motion. (The heat from your hands will help the decals to adhere).

5. REMOVE THE TRANSFER TAPE

Gently remove the transfer paper. Start at the top and gently peel back the paper to expose your decal.

6. FINAL PRODUCT

If any bubbles remain you can simply gently push them towards the outside of your decal with your fingers.
