Our Story

Skyframe is one of the leading manufacturers of quality framing, professional printing, retail store displays and more. Since 1983, Skyframe has been a provider of high end, custom framing to local New York art galleries and artists. Over the years, it has grown into a global supplier of frames and displays for the retail & fashion industries.

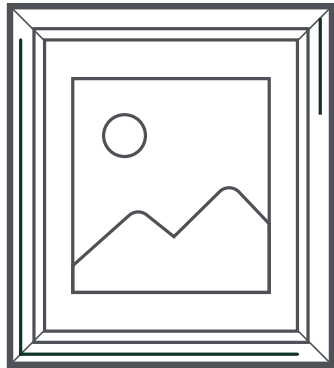

Through excellent customer service and cultivating bonds with our clients, Skyframe has had the pleasure to work with some of the finest companies in the industry. Our clientele varies from art galleries, museums, interior designers, aretail stores, to art collectors and artists.

In an effort to create a one-stop shop, we offer services including art installation and art storage. Between our penthouse showroom in Chelsea, production facility in New Jersey, and manufacturing capabilities overseas, we have the resources to complete any project at any scale. Over the last 35 years, Skyframe has earned an outstanding reputation in the industry.

We look forward to making your dreams come to life!

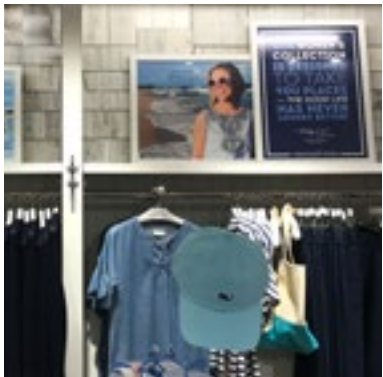

Picture Framing

As our name implies, our main forte is to provide high quality custom picture framing at an affordable price. Our capacity to produce Fine Art Picture Framing as well as budget conscious commercial framing is unparalleled in the framing industry. Whether it's for your home, or for an international in-store ad campaign, Skyframe delivers the same professionalism and attention to detail for projects big and small. Skyframe's picture frames consist of Custom Milled Wood, Lacquered, Gold-Leafed, Metal, Acrylic and MDF picture frames.

Printing Services

SkyLab Visual Solutions is Skyframe's expanding printing and lab department. Our lab offers an array of services that are great when paired with our other displays. Fine Art, Commercial, Signage, In-Store POP Displays, and Dye-Sublimation Printing. SkyLab's team consists of experts in the Commercial and Fine Art market to suit every need.

Retouching and hi-res scanning also available.

Inkjet Printing

Our Inkjet printers offer the latest in color profile technology to maintain control over large print runs. With the latest in Inkjet Technology, achieving "Fine Art Grade" Printing is a standard.

Fabric Printing

Ideal when used with our SEG products for economical production of light boxes and our patented fabric picture frame. The fabric is dye-sublimated using heat-to-fabric transfer technology to provide vibrant colors. Fabric prints are the most economical print solution on the market for seasonal media that needs to be replaced often. Can be shipped rolled or folded.

Dye-Sublimation

A printing process popular for its color vibrancy, this method can be applied to prints on hard surfaces such as metal, wood, phenolic, and more as an alternative to direct-to-substrate printing. Unlike direct, Dye-Sublimation is archival, lasts longer, and maintains color protection in more environments.

Vinyl Printing

Offers a versatile product line for signage, wallpaper, floor graphics, window graphics and more. Vinyl can also be paired regularly with other displays like shoe-risers, mirrors, and tabletop frames.

Wall Coverings

A practical way to cover large empty areas of any interior often installed in hotels, stores, and offices. Custom printed in an array of textured wall coverings.

HD Metal

Dye-Sublimation transfer print onto 1/16" metal, finished with an aluminum brace. Archival, scratch resistant, and cleanable. HD Metal has become a favorite new medium for vibrant images in modern settings.

Fabric Lightboxes

The SEG fabric system has become a favorite in store retail for its economical cost in rolling out to many stores. Ideal for seasonal promotions that can be changed out by anyone. Fabric Prints shipped rolled.

Stretch Canvas

Stretch Canvas offers a timeless look with or without a frame. Ability to print on up to 98" in width. Fine Art and Commercial Canvases.

Plexi Face Mount

1/4" Plexi Face, 1/8" Sintra Backing, finished with an aluminum brace. Modern, high end feel that can be paired with a frame or plexi-standoffs.

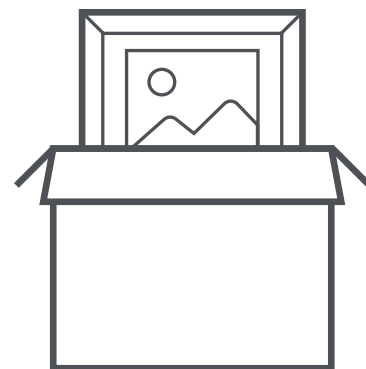

Logistical Services

Skyframe & Display has expanded its reach to a global scale allowing our well crafted products to be produced in higher volumes and to a larger demographic, all while maintaining excellent quality.

Capabilities:

- ON-DEMAND PRINTING AND FRAMING
- HIGH VOLUME FULFILLMENT
- GLOBAL DISTRIBUTION
- FREIGHT MANAGEMENT

Delivery & Storage

Skyframe's Art Handlers have ample experience in carefully transporting valuable artwork throughout the tri-state area. Our Art Storage Facility gives you peace of mind knowing that your most prized artworks are safe. We are just a short distance from New York City, providing you with accessibility, safety, and versatility. We are the ultimate one-stop shop! We install all of the products we make: Picture Frames, Vinyl, Displays, and Abstract Installs. Skyframe also

offers National
Installation Packages.

On-Site Installations

Installation Services include picture framing installations, pedestal installations, sculpture installations, and other visual displays. We install on Brick, Drywall, Concrete, Tile, Marble, Ceilings and more.

Oversize Installations

On-site assembly of frame for oversize installations. Can't fit it through the door framed? Skframe & Display will assemble the frame and fit the piece into the frame on site.

Hanging Capabilities

Skyframe will determine the best hanging hardware to use on your frame, given the dimension and material the frame is being hanged on. Hanging hardware includes classic picture framing wire, D-Rings, Mirror Hangers, Wooden Z-clips, Metal Z-Clips/French Cleat, and Standoffs; Ceiling hanging systems and cable systems available at additional costs.

We offer crating & delivery as well!

Skyframe offers crating for large scale, and exceptional art that needs extra protection. Our crates are custom hand-made to perfectly fit your artwork. We currently offer delivery in NYC, and are happy to provide you with estimates for delivery outside of the five boroughs of New York City. Delivery fees should be discussed with your sales consultant prior to scheduling a delivery.
