## 01 PV Solar

---

Solar panels	1 – 7	Enclosures and accessories	64 – 75
Solar hydropanel	8 – 9	PV fuses and holders	76 – 78
Solar inverters and accessories	10-19,32	Surge protection DC and AC	79 – 83
Off grid inverters and accessories	20-22	Isolators DC and AC	84 – 88
PV pump drives	23	Charge controllers	89
Backup inverters and accessories	24 - 31	Solar connectors	90 – 92
Solar mounting structure and accessories	33 – 47	Tools for solar applications	93 – 94
Solar cable	48	Combiner boxes AC and DC	95 – 96
Electrical cable	49 – 50	Meters and instruments	97
Cable management and accessories	51 – 63	Logging and monitoring	97 – 103
		Circuit breakers	104 – 107

## 02 Energy Storage

---

Lithium batteries	108 - 113
Lead batteries	114
Lithium batteries	115 - 118

## 03 Solar Lighting

---

Street lighting and area lighting	119-126
-----------------------------------	---------

## 04 Electric Vehicles

---

Charging stations home	127, 130
Charging stations business	128, 131, 132, 134
Charging stations public	129
Charging stations supercharger	135 – 136
Charger accessories	133

PV Solar

## HiKu CS3W-P Modules

### Super High Power Poly Perc Module | 390W ~ 405W

#### Features

- 24% more power than conventional modules
- Low NMOT:  $42 \pm 3^\circ\text{C}$
- Low temperature coefficient (Pmax):  $-0.37\% / ^\circ\text{C}$
- Innovative module design, better shading tolerance
- Lower internal current, lower hot spot temperature
- Cell crack risk limited in small region, enhance the module reliability
- Heavy snow load up to 5400Pa, wind load up to 3600Pa

### Mechanical Data

Product Code	CS3W-390P   CS3W-395P   CS3W-400P   CS3W-405P
Cell Type	Poly-crystalline
Cell Arrangement	144 [2 x (12 x 6)]
Dimensions	2108 x 1048 x 40mm
Weight	24,9kg
Front Cover	3,2mm tempered glass
Frame Material	Anodised aluminium alloy, crossbar enhanced
J-Box	IP68, 3 bypass diodes
Connectors	T4 series

### Ordering Information | STC\*

Product Code	Nominal Max. Power	Opt. Operating Voltage	Opt. Operating Current	Open Circuit Voltage	Short Circuit Current	Max. Series Fuse Rating	Module Efficiency
CS3W-390P	390W	38.3V	10.19A	46.8V	10.74A	20A	17.65%
CS3W-395P	395W	38.5V	10.26A	47V	10.82A	20A	17.88%
CS3W-400P	400W	38.7V	10.34A	47.2V	10.90A	20A	18.11%
CS3W-405P	405W	38.9V	10.42A	47.4V	10.98A	20A	18.33%

\* Under Standard Test Conditions (STC) of irradiance of 1000 W / m<sup>2</sup>, spectrum AM 1,5 and Cell temperature of 25°C.

## HiDM CS1H-MS Modules

### High density MONO PERC module | 320W ~ 335W

#### Features

- Maximise the light absorption area, module efficiency up to 19.86%
- Low NMOT:  $42 \pm 3^\circ\text{C}$
- Low temperature coefficient (Pmax):  $-0.37\% / ^\circ\text{C}$
- Better shading tolerance
- Lower internal current, lower hot spot temperature
- Cell crack risk limited in small region, enhance the module reliability
- Heavy snow load up to 5400Pa, wind load up to 2400Pa

### Mechanical Data

Product Code	CS1H-320MS   CS1H-325MS   CS1H-330MS   CS1H-335MS
Cell Type	Mono-crystalline
Dimensions	1700 x 992 x 35mm
Weight	19,2kg
Front Cover	3,2mm tempered glass
Frame Material	Anodised aluminium alloy
J-Box	IP67, 3 bypass diodes
Connectors	T4 series

### Ordering Information | STC\*

Product Code	Nominal Max. Power	Opt. Operating Voltage	Opt. Operating Current	Open Circuit Voltage	Short Circuit Current	Max. Series Fuse Rating	Module Efficiency

## KuMax CS3U-P Module

### High Efficiency Poly Module | 1000V / 1500V

#### Features

- Low power loss in cell connection
- Low NMOT:  $42 \pm 3$  °C
- Low temperature coefficient (Pmax):  $-0.37\%$  / °C
- Better shading tolerance
- High PTC rating of up to: 92.64%
- Lower hot spot temperature
- Minimizes micro-cracks
- Heavy snow load up to 5400Pa, wind load up to 3600Pa\*

### Mechanical Data

Product Code	CS3U-350P   CS3U-355P   CS3U-360P
Cell Type	Poly-crystalline
Cell Arrangement	144 [2 x (12 x 6)]
Dimensions	2000 x 992 x 35mm
Weight	22,5kg
Front Cover	3,2mm tempered glass
Frame Material	Anodised aluminium alloy, crossbar enhanced
J-Box	IP68, 3 bypass diodes
Connectors	T4 series

### Ordering Information | STC\*

Product Code	Nominal Max. Power	Opt. Operating Voltage	Opt. Operating Current	Open Circuit Voltage	Short Circuit Current	Max. Series Fuse Rating	Module Efficiency
CS3U-350P	350W	39,2V	8,94A	46,6V	9,51A	30A	17,64%

\*Under Standard Test Conditions (STC) of irradiance of 1000 W / m<sup>2</sup>, spectrum AM 1,5 and Cell temperature of 25°C.

## KuMax CS3U-MS Modules

### High Efficiency Mono Perc Module | 1000V / 1500V

#### Features

- Low power loss in cell connection
- Low NMOT:  $41 \pm 3$  °C
- Low temperature coefficient (Pmax):  $-0.37\%$  / °C
- Better shading tolerance
- High PTC rating of up to: 93.13%
- Lower hot spot temperature
- Minimises micro-cracks
- Heavy snow load up to 5400Pa, wind load up to 3600Pa

### Mechanical Data

Product Code	CS3U-370MS   CS3U-375MS   CS3U-380MS   CS3U-385MS   CS3U-390MS

## Poly-crystalline Module

**JKM275P-60 | JKM330P-72**, the best sold and competitively priced polycrystalline modules of this kind offers exceptional value, reliability and energy output while reducing overall system costs. With output up to 270Wp | 310-330Wp, superior low light performance as well as weather resistant reliability, it is renowned for its outstanding performance ratio and yield in kWh / kW (according to Photon Lab's Outdoor Module Test). It is a classic poly module suitable for all applications from residential rooftop, commercial, public building, agricultural and industrial flat roofs to large scale ground-mounted solar plants.

JKM270P-60

### Poly-Crystalline Module JKM270P-60 And JKM275P-60

#### Features

- **4 Busbar Solar Cell:** 4 busbar solar Cell adopts new technology to improve the efficiency of modules , offers a better aesthetic appearance, making it perfect for rooftop installation.
- **High Efficiency:** High module conversion efficiency (up to **16,50% for JKM270-60** and up to **16,80% for JKM275-60**), through innovative manufacturing technology.
- **Low-light Performance:** Advanced glass and solar Cell surface texturing allow for excellent performance in low-light environments.
- **Severe Weather Resilience:** Certified to withstand: wind load (2400 Pascal) and snow load (5400 Pascal).
- **Durability against extreme environmental conditions:** High salt mist and ammonia resistance certified by TÜV NORD.

### Ordering Information

Product Code	Maximum Power	Maximum Power Voltage	Maximum Power Current	Open-Circuit Voltage	Short-Circuit Current	Module Efficiency STC

# LR6-72BP 360-380M

Hi-MO2 High Efficiency

Low LID Bifacial PERC Technology

10-year Warranty for Materials and Processing;  
30-year Warranty for Extra Linear Power Output

LR6-72BP 360-380M

LR6-72BP 360-380M

## Front side performance equivalent to conventional low LID mono PERC

- High module conversion efficiency (up to 19.3%)
- Better energy yield with excellent low irradiance performance and temperature coefficient
- First year power degradation <2%

**Bifacial technology** enables additional energy harvesting from rear side (up to 25%)

**Glass/glass lamination** ensures 30 year product lifetime, with annual power degradation <0.45%

**Solid PID resistance** ensured by cell process optimization and careful module BOM selection

## Design (mm)

Units: mm  
Tolerance:  
Length:  $\pm 2$ mm  
Width:  $\pm 2$ mm  
Height:  $\pm 1$ mm  
Pitch-row:  $\pm 1$ mm

## Mechanical Parameters

Cell Orientation: 72 (6x12)	Operating Parameters
Junction Box IP67, three diodes	Operational Temperature
Output Cable: 4mm <sup>2</sup> , 300mm in length, length can be customized	Power Output Tolerance: 0~+5W
Weight: 25.5kg	Voc and Isc Tolerance: $\pm 3\%$
Dimension: 1977x996x30mm	Maximum System Voltage: DC1500V (IEC&UL)
Packaging: 36pcs per pallet 180pcs per 20'GP 792pcs per 40'HC	Maximum Series Fuse Rating: 20A
	Nominal Operating Cell Temperature: $45 \pm 2^\circ\text{C}$
	Application class: Class II
	Fire Rating: UL type 6
	Bifaciality: $\geq 70\%$

## Electrical Characteristics

Test uncertainty for Pmax:  $\pm 3\%$

# LR6-72PE 360-380M

Hi-MO1 High Efficiency  
Low LID MONO PERC Technology

LR6-72PE 360-380M

**Positive power tolerance** (0 ~+5W) guaranteed

**High module conversion efficiency** (up to 19.6%)

**Slower power degradation** enabled by Low LID Mono PERC technology: first year <2%, 0.55% year 2-25

**Better energy yield** with excellent low irradiance performance and temperature coefficient

**Solid PID resistance** ensured by solar cell process optimization and careful module BOM selection

**Adaptable to harsh environment:** passed rigorous salt mist and ammonia tests

**Robust frame** (40mm) withstands mechanical loading of 5400Pa for snow load on front and 2400Pa for wind load on rear side

Design (mm)	Mechanical Parameters	Operating Parameters
	Cell Orientation: 72 (6x12)	Operational Temperature: -40°C ~ +85°C
	Junction Box: IP67, three diodes	Power Output Tolerance: 0 ~ +5W

# Solar Powered Hydropanel

ZERO MASS water™

## Why customers love?

### SOURCE™

Water Independence: Free yourself from bottled or municipal with healthy, delicious water at your tap

Truly Renewable: When the sun comes up, your supply is refreshed each day without any waste

Every Person, Every Place: Whether it's dry or humid, SOURCE makes water for you and your family. Transform drinking water for every person with our Water for Life program

Drinking Water, Perfected: SOURCE produces pure water and mineralizes for health and taste benefit. With monitoring through the SOURCE app, you have drinking water peace of mind

## How does SOURCE work?

- Water vapor from the ambient air around us is drawn into SOURCE via fans and adsorbed onto special material
- Pure water is desorbed into an air-tight system inside SOURCE
- Liquid water flows into reservoir and is mineralized
- Drinking water passes through flavor polishing cartridge before being dispensed at the tap
- SOURCE panels are connected to a mesh network and are monitored for production and quality

# SOURCE™

## How much water do you need?

We build arrays based on your drinking water consumption, use and location.

2 Panels  
Average couple, small family,  
or small office

3+ Panel Array  
Average or large family,  
office, school, community

## How do you want to dispense your water?

### Optional Dispenser

Product Code	Description
SOURCE	SOURCE Hydropanel system

Residential Solutions

SolarEdge developed the DC optimised inverter solution by splitting the traditional inverter functionality into two. The power optimiser that maximises energy production for each module and a simplified inverter that is only responsible for DC - AC inversion and grid management.

The SolarEdge monitoring application enables PV installers and system owners to perform remote monitoring on the go using their mobile Android device, thus allowing them to constantly be updated on the latest data and be up to speed with their site's performance.

Single Phase inverter with HD-Wave Technology

Less weight, more power

SolarEdge's HD-Wave inverter technology is a novel power conversion topology that significantly decreases inverter size and weight while achieving record efficiency.

Optimised installation with HD-Wave technology

- Specifically designed to work with power optimisers
- Record-breaking 99% efficiency
- Extremely small, lightweight and easy to install
- High reliability without any electrolytic capacitors
- Built-in module-level monitoring
- Outdoor and indoor installation
- Fixed voltage inverter for longer strings
- Smart Energy Management control
- Compatible with the StorEdge Interface for StorEdge™ applications

Ordering Information

Product Code	Description
SE2200H-ZA000NNN2	Inverter 1Ø 2,2kW, HD-Wave (-20°C)
SE3000H-ZA000NNN2	Inverter 1Ø 3kW, HD-Wave (-20°C)
SE3500H-ZA000NNN2	Inverter 1Ø 3,5kW, HD-Wave (-20°C)
SE4000H-ZA000NNN2	Inverter 1Ø 4kW, HD-Wave (-20°C)
SE5000H-ZA000NNN2	Inverter 1Ø 5kW, HD-Wave (-20°C)
SE6000H-ZA000NNN2	Inverter 1Ø 6kW, HD-Wave (-20°C)

## StorEdge AC Coupled Single Phase Inverter with Wave-HD technology

### Upgrade existing PV systems to StorEdge™

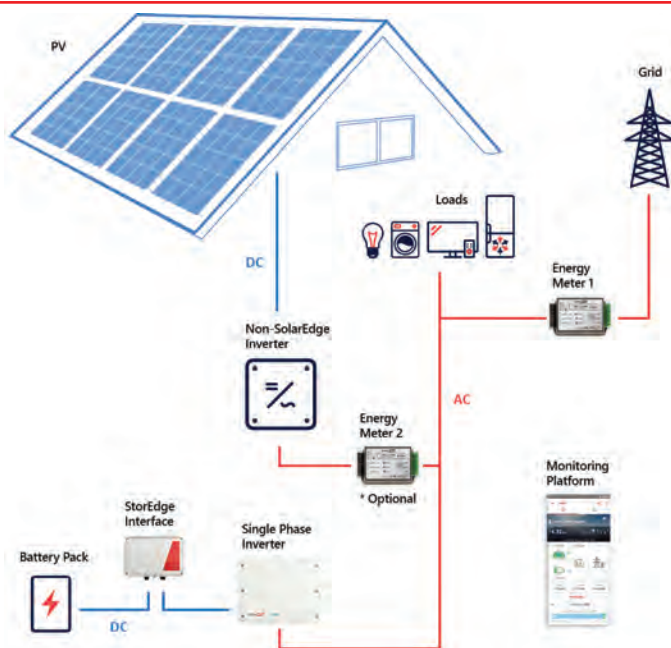

- All the benefits of the HD-Wave inverter: record-breaking efficiency, extremely small, lightweight and easy to install, and high reliability without any electrolytic capacitors
- Specially designed to work side by side with three-phase SolarEdge inverters and non-SolarEdge inverters
- Compatible with the SolarEdge StorEdge Interfaces and selected battery vendors such as the LG Chem RESU
- Monitor battery status, PV inverter production, and self-consumption data for full visibility
- IP65 – Outdoor and indoor installation
- No high voltage or current during installation, maintenance or firefighting for maximum safety
- The StorEdge™ AC Coupled Inverter does not work with power optimisers or as a standard solar PV inverter

### Ordering Information

Product Code	Description
SE3680H-RWSACNNN2	HD-Wave 3,68kW StorEdge AC Coupled Inverter

### Storedge AC Coupled Single Phase Inverter with HD-Wave technology with Non-SolarEdge Inverter

\* Optional - needed for full system monitoring: consumption, self-consumption and inverter production

\* Optional - needed for full system monitoring:  
consumption, self-consumption and inverter production

### Storedge AC Coupled Single Phase Inverter with HD-Wave technology with Three Phase SolarEdge Inverter

SE4K-ZA00ENNN2

## Three Phase Inverter

### Specifically designed to work with power optimisers

- Noise level suitable for residential environment
  - No external fan
- Superior efficiency (98%)
- Small, lightest in its class and easy to install
- Built-in module-level monitoring
- Internet connection through Ethernet or Wireless (Wi-Fi, ZigBee Gateway, Cellular)
- IP65 – Outdoor and indoor installation
- Fixed voltage inverter for longer strings
- Smart Energy Management control

Product Code	Output	INPUT	Weight
	Maximum AC Power Output	Maximum DC Power (Module STC)	
SE4K-ZA00ENNN2	4000VA	5400W	18,7kg
SE5K-ZA00ENNN2	5000VA	6750W	18,7kg
SE7K-ZA00ENNN2	7000VA	9450W	18,7kg
SE8K-ZA00ENNN2	8000VA	10800W	18,7kg
SE9K-ZA00ENNN2	9000VA	12150W	18,9kg
SE10K-ZA00ENNN2	10000VA	13500W	18,9kg
SE12.5K-ZA00ENNN2	12500VA	16850W	33,2kg

## StorEdge Single Phase Inverter

### Ideal for battery storage and backup power

- **Supports StorEdge Solution Applications** - reduce electric bills with maximised self-consumption and profile programming
- **Provides Backup Power** - StorEdge Inverter includes the hardware required for automatically supplying power to backed-up loads in the event of grid outages
- **Simple Design and Installation** - single inverter for managing PV production, battery storage and backup power
- **Enhanced Safety** - designed to eliminate high voltage during installation, maintenance or fire fighting
- **Full Visibility** - built-in monitoring of battery status, PV production, remaining backup power, and self-consumption data
- **Easy Maintenance** - remote access to inverter software

Product Code	Output - AC (Loads / Grid)	Output - AC (Backup Power)	INPUT DC (PV)	Input - DC (Battery)
	Max AC Power Output	Max AC Power Output - Surge	Maximum DC Power (STC)	Supported Battery Types
SE5000-ZAS20NNB2	4600VA	Lower Power Output: 3300; Higher Power Output: 7300V	6750W	LG Chem RESU7H; LG Chem RESU10H
SE6000-ZAS20NNB2	4600VA	Lower Power Output: 3300; Higher Power Output: 7300V	8100W	LG Chem RESU7H; LG Chem RESU10H

### StorEdge Solution with Backup Power

### SolarEdge StorEdge Interface (technical information is on the next page)

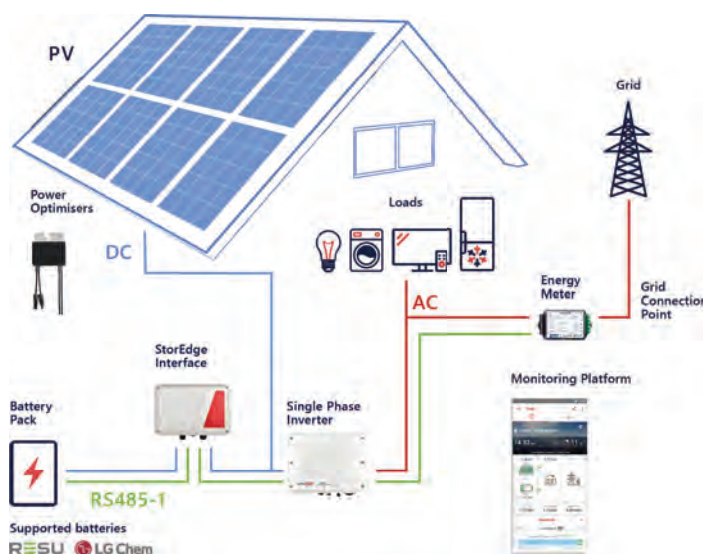

## SolarEdge StorEdge Interface

- Allows connection of selected battery vendors such as the LG Chem RESU to a SolarEdge inverter
- Simple installation and connectivity of the battery and the SolarEdge Meter
- Connects to the SolarEdge inverter in parallel to the PV strings
- Can be used to upgrade existing SolarEdge systems
- Designed to eliminate DC voltage and current during installation, maintenance or firefighting

Product Code	Battery DC Input		
	Number of Batteries per StorEdge system	Compatible Batteries	Compatible Inverters
SESTI-S1	1	LG Chem RESU7H	Single phase non-HD-Wave Inverters
SESTI-S2	1	LG Chem RESU10H	Single phase non-HD-Wave Inverters
SESTI-S4	1	LG Chem RESU7H LG Chem RESU10H	HD-Wave Inverters

Interface Diagram

## StorEdge™ and Battery

## Optimised PV Production

*SolarEdge DC-optimized inverter managing all smart energy applications*

## Smart Energy

## Smart Energy

SolarEdge's Smart Energy Management solution increases self-consumption, reduces electricity bills and provides greater user convenience. The solution integrates solar energy, storage management and Smart Energy under the control of the SolarEdge PV inverter. Solar energy usage is maximised by shifting device consumption to match PV production as well as by storing energy to use when needed.

## Smart Energy ZigBee Plug-in

### Wireless Home Energy Management Solution

- ZigBee module to support Smart Energy functionality
- Functions as Smart Energy network manager
- Installed within the inverter enclosure for outdoor resilience
- Antenna external to inverter for wider range

## Functional Unit

Number of devices in a Smart Energy network	Up to 10
Communications with monitoring portal	Single inverter installation - Ethernet / GSM*; Multiple inverter installation - RS485 and Ethernet / ZigBee / Wi-Fi / GSM*
*Requires a SIM card with a 1GB data plan that should be purchased from a cellular provider	

## RF Performance

Transmit Power	11,8 dBm
Receiver Sensitivity	-102 dBm
Antenna Gain	5 dBi
Operating Frequency Range	2,4-2,5 GHz
Outdoor (LOS) Range	400m
Indoor Range*	50m

\*Requires a SIM card with a 1GB data plan that should be purchased from a cellular provider

## Ordering Information

Product Code	Description
SE1000-ZB06-MOD*	Wireless Communication ZigBee Module for Home Energy Management
*For every system using Smart Energy products, one Smart Energy ZigBee Plug-in is required	

## Smart Energy Hot Water

### Maximises self-consumption by storing excess energy as hot water

- Smart Energy Hot Water adjusts the power supplied to the heater based on available PV power (up to 3kW)
- Seamless integration with all SolarEdge inverters
- Wireless communication between the inverter and Smart Energy Hot Water via Smart Energy ZigBee Plug-in
- Simple wall mount installation
- Suitable for powering purely resistive loads only

## Electrical Service

Operating Voltage Range	207 - 253V AC
AC Frequency	50Hz
Supported Grids	L / N / PE
Maximum Supported Load Size	3kW
Maximum Load Current Rating	13A
Minimum Output Power	2% of load rating
Load Type	Resistive
Efficiency	> 97%

## Communication

Supported Communication Protocol	ZigBee Home Automation
Nominal Transmit Power	10 dBm
Operating Frequency Range	2,4 - 2,5 GHz
Outdoor (LOS) Range	400m
Indoor Range*	50m

\*Approximate values may differ depending on specific installations conditions

## Ordering Information

Product Code	SEHAZB-HEAT-CONT-3 UNITS
--------------	--------------------------

## Smart Energy - Load Switching Devices

Maximise self-consumption by controlling device usage

### Smart Energy Socket

- Wireless AC switch for controlling electrical devices
- Smart Energy can be done remotely according to a preconfigured schedule or dynamically by the inverter for maximised self-consumption
- Built-in energy and power consumption metering
- Provides power measurements up to 3kW

### Smart Energy Relay

- Wireless dry contact switch for controlling electrical devices
- Suitable for heat pump control
- Supports a wide input voltage range

Device	Smart Energy Switch	Smart Energy Socket	Smart Energy Relay
Product Code	SEHAZB-SWITCH-MTR	SEHAZB-SCKT-MTR-DE	SEHAZB-DR-SWITCH-2
Product Image			

## Electrical Service

Operating Voltage Range - Line to Neutral	90 - 250V AC	90 - 250V AC	90 - 250V AC
AC Frequency	50 / 60 Hz	50 / 60 Hz	50 / 60Hz
Maximum Active Power Measurement	3kW	3kW	N / A
Maximum Load Current	13A	13A	13A
Dry Contact Voltage Range	N / A	N / A	0 - 250V AC / V DC

## Communication

Supported Communication Protocol	ZigBee Home Automation	ZigBee Home Automation	ZigBee Home Automation
Nominal Transmit Power	3 dBm	3 dBm	10 dBm
Operating Frequency Range	2,4 - 2,5 GHz	2,4 - 2,5 GHz	2,4 - 2,5 GHz
Outdoor (LOS) Range	100m	100m	400m
Indoor Range*	50m	50m	50m

\* Approximate values. May differ depending on specific installation conditions

## Installation Specifications

Operating Temperature Range	0 to +50°C	0 to +50°C	0 to +50°C
Protection Rating	IP30	IP30	IP30
Dimensions (H x W x D)	110 x 70 x 25mm	110 x 50 x 40mm	110 x 70 x 25mm
Mounting Type	Wall mount	N / A	Wall mount

Load Switching Devices Diagram

## Pxxx Power Optimiser

SolarEdge power optimisers can be used with crystalline silicon PV modules or Thin film modules to provide module-level MPPT and performance monitoring, and are designed to work exclusively with SolarEdge inverters. All power optimisers have 99,5% maximum efficiency and are backward-compatible with older SolarEdge products.

### Features

- SafeDC™ module-level shutdown for added safety (1V DC per optimiser)
- NEMA6P, IP68 environmental protection rating
- Operating temperatures of -40°C to +85°C

The P300 - P505 optimisers can be used with any SolarEdge inverter, while the P600 - P800 dual-module optimisers are compatible only with large 3-phase inverters. SolarEdge optimisers can be attached to most PV mounting systems using a single fastener.

- Available for 60-Cell, 72-Cell, 96-Cell, and bi-facial PV modules
- 99,5% maximum efficiency
- 25 years warranty

## Power Optimiser: Module Add-On for Residential

### PV power optimisation at the module-level

- Specifically designed to work with SolarEdge inverters
- Up to 25% more energy
- Superior efficiency (99,5%)
- Mitigates all types of modules mismatch-loss, from manufacturing tolerance to partial shading
- Flexible system design for maximum space utilization
- Fast installation with a single bolt
- Next generation maintenance with module level monitoring
- Module-level voltage shut down for installer and firefighter safety

Product Code	Compatible Module Type	Rated Input DC Power @ STC	Maximum Input Voltage (@ Min. Temp)	Input Connectors	Output Cable (Length)
P300-5R M4M RS	60-Cell	300W	48V	MC4	0,95m
P370-5R M4M RM	For high power 60-Cell and 72-Cell	370W	60V	MC4	1,2m
P404-5R M4M RM	For 60-Cell and 72-Cell, short strings	405W	80V	MC4	1,2m
P500-5R M4M RM	96-Cell	500W	80V	MC4	1,2m
P505-5R M4M BM	For higher current modules	505W	83V	MC4	1,2m

Compliant with: IEC61000-6-2, IEC61000-6-3, FCC Part 15 B, IEC62109-1 Class II

## Power Optimiser: Frame-mounted Module Add-On for Residential

### Fast mount power Optimisers with module-level optimisation

- Specifically designed to work with SolarEdge inverters
- Quicker installation - Power optimisers can be mounted in advance saving installation time
- Up to 25% more energy
- Superior efficiency (99,5%)
- Mitigates all types of modules mismatch-loss, from manufacturing tolerance to partial shading
- Flexible system design for maximum space utilization
- Next generation maintenance with module level monitoring
- Module-level voltage shutdown for installer and firefighter safety

Product Code	Compatible Module Type	Rated Input DC Power @ STC*	Maximum Input Voltage (@ Min. Temp)	Input Connectors	Output Cable (Length)
P300-5R M4M FS	60-Cell	300W	48V DC	MC4	0,95m
P370-5R M4M FM	For high power 60-Cell and 72-Cell	370W	60V DC	MC4	1,2m
P404-5R M4M FM	60-Cells / 72-Cells, short strings	405W	80V DC	MC4	1,2m
P500-5R M4M FM	96-Cell	500W	80V DC	MC4	1,2m

Compliant with: IEC61000-6-2, IEC61000-6-3, FCC Part 15 B, IEC62109-1 Class II. \*Rated STC power of the module. Module of up to +5% power tolerance allowed.

## Commercial Solutions

The SolarEdge solution consists of inverters, power optimisers, and a monitoring platform. The technology provides superior power harvesting and module management by connecting power optimisers at the module level. The ability to connect two modules to one optimiser, combined with DC to AC conversion and grid interaction being centralised at a simplified PV inverter maintains a competitive cost structure.

The cloud based SolarEdge monitoring platform provides enhanced PV performance monitoring and yield assurance through immediate fault detection and alerts at module level, string level and system level.

## Three Phase Inverters

### Large capacity, easy to install

Three Phase Inverter with synergy technology  
- up to 100kVA

The inverter design is based on small, lightweight, and easy-to-carry primary and secondary units. They are wall mounted for a minimal footprint, with installation only requiring a one or two-person crew.

No crane or special tools are needed when installing the inverter, unlike alternative large capacity inverters on the market today, which are heavy, bulky, and difficult to install. Installing SolarEdge's large capacity inverters instead of using multiple, smaller capacity inverters will further reduce setup times and costs. This new generation of SolarEdge inverters is available in the following sizes: 50kVA, 55kVA, and 82,8kVA as well as 66,6kVA and 100kVA for medium voltage grids.

### Specifically designed to work with power optimisers

- Easy two-person installation – each unit mounted separately, equipped with cables for simple connection between units
- Balance of System and labour reduction compared to using multiple smaller string inverters
- Independent operation of each unit enables higher uptime and easy serviceability
- No wasted ground area: wall / rail mounted or horizontally mounted under the modules (10° inclination)
- Built-in module-level monitoring with Ethernet or cellular GSM
- Fixed voltage inverter for superior efficiency (98,3%) and longer strings
- Integrated DC Safety Unit with DC Safety Switch and optional surge protection & DC fuses – eliminates the need for external DC isolators
- Built-in RS485 Surge Protection Device, to better withstand lightning events

## Three Phase Inverter

SolarEdge offer multiple models of three-phase commercial inverters. The SolarEdge inverters are designed to work exclusively with SolarEdge power optimisers. MPPT and voltage management is handled by the power optimisers, allowing for a very high-efficiency, low cost inverter. The inverters operate with a high input voltage, allowing for longer string lengths, less wire line loss, and fewer BOS system components.

These wall-mountable inverters are lightweight, and have built in Module-Level Monitoring. The inverters are rated for use from temperatures of -20°C to +60°C. The built-in SafeDC™ feature automatically shuts down the DC current and voltage from the power optimisers when it detects excessive heat, when the SolarEdge inverter is turned off, or disconnected from the grid, to ensure installer and firefighter safety.

## Power Optimiser: Module Add-On for Commercial

### PV power optimisation at the module-level

The most cost effective solution for commercial and large field installations

- Specifically designed to work with SolarEdge inverters
- Up to 25% more energy
- Superior efficiency (99,5%)
- Balance of System cost reduction; 50% less cables, fuses and combiner boxes, over 2x longer string lengths possible
- Fast installation with a single bolt
- Advanced maintenance with module-level monitoring
- Module-level voltage shutdown for installer and firefighter safety
- Use with two PV modules connected in series or in parallel

Product Code	Compatible Module Type	Rated Input DC Power @ Stc	Maximum Input Voltage (@ Min. Temp)	Input Connectors	Output Cable (Length)
P600-5R M4M RM	60 Cell - 2 in series (portrait)	600W	80V	MC4	1,2m

## SolarEdge Monitoring And Accessories

### SolarEdge provides free web-based monitoring.

The system provides PV performance monitoring, fault detection, performance monitoring, fault detection, and troubleshooting at module, string, and system levels. Web-based software provides real-time monitoring, facilitating increased system uptime, and lowering maintenance costs. Remote fault detection pinpoints the location of under performing modules on a virtual PV site map. The monitoring sensors and transmitters are built-in and data is transmitted over the DC power lines. Connection between the inverter(s) and the Internet can either be by Ethernet or a wireless connection using a ZigBee gateway with connections between multiple inverters using their RS-485 connection ports. A free monitoring iPhone app. or Android app. is available as a download from the Apple iTunes Store or Google Play. Registered users can monitor multiple sites from their iPhone or Android device.

The application provides an at-a-glance view of past and present energy production. Current weather conditions and forecasts are also presented to aid in assessing the system's performance. The Site Mapping Tool software is also available free on the SolarEdge website, which allows bar code scanning for creation of a virtual site map using an iPhone or Android phone. The SolarEdge Designer software for on-site configuration and module-level installation verification are available free online as well. The ZigBee Gateway Kit includes the ZigBee gateway and a single ZigBee Plug-in with extended range antenna for connecting a single inverter wirelessly to an existing network router. A ZigBee Plug-in can be used to connect each additional inverter and the ZigBee Repeater can be used to extend the range of the network up to 240m.

RCC-02

BSP\*

Accessories: Communication Module Xcom-232I

Xcom-232i is an RS232 serial bridge for communications access to a Studer system consisting of one or more Xtenders, VarioTracks or VarioStrings from any host.

Product Code	Dimension (H x L x I)
BSP 500	110,5 x 75 x 26mm

For use with Xtender, VarioTrack and VarioString systems.

Accessories: Communication Sets

For Internet communication to the Studer Internet Portal, from where all parameters, real time system details and the last 30 days of log files can be viewed. Full system control as if from as RCC-02 / 03.

Product Code	Description
Xcom-LAN	(1 x Ethernet port and all necessary accessories)
Xcom-GSM	(GSM modem and all necessary accessories)

For use with Xtender, VarioTrack and VarioString systems.

Accessories: Communication Module Xcom-Can

For communication with Lithium BMSs. List of compatible batteries available on request

Product Code	Xcom-CAN
--------------	----------

Accessories: X-Connect Multi Xtender System

The pre-wired mounting offers a flexible and cost effective solution for high power systems (up to 63kVA) based on the XTH inverter / charger.

Communication Cable

Connect Xtenders, VarioTracks and the VarioStrings together to build multi-unit systems.

BTS-01 Battery Temperature Sensor

Accurately adapt the charge thresholds to the battery temperature.

Product Code	Dimensions (H x L x W)
BTS-01	58 x 51,5 x 22mm

BTS-01

## PV Pump Drives

### 3 Phase Motor Drives:

Emponi's "Solar Direct Drives" are high-grade PV powered motor inverters. Suited to a multitude of applications, they can be used on many 3-phase motors in everything from pumps, compressors, fans and simple machines to general industrial applications. They have specifically been developed for solar power and therefore are capable of dealing with the behaviour of an erratic and variable power supply. Maximum Power Point Tracking of the array is integrated into the fundamental behaviour of the drive. As the sun rises, the frequency of the motor is ramped up, to the maximum set point. As the power diminishes, the drive will ramp down again, until no load can be sustained and the drive will shut down.

Developed and manufactured in Germany, they have been tested in the harshest conditions, including in the Sahara desert. Their high IP rating means that they do not need to be enclosed and can be surface mounted. Additionally, their fan-less design means that the most common failure mode on VSDs is eliminated.

## Features

### Popular uses:

Water pumping | Fans |  
Compressors | Simple machines

Now available pre-kitted from Emponi, the kits contain specially matched motors enabling best possible performance in a small array! The kits are available in 2 types, enabling the user to select the pump which best suits the well depth.

### Kit part number:

### Description:

<b>SDD-1.5-550W/35M</b>	SDD1.5 kw drive with 4" 550W motor and 35m pump
<b>SDD-1.5-550W/85M</b>	SDD1.5 kw drive with 4" 550W motor and 85m pump

### Hydraulic performance pump type optimized for 35m pump head duty point

Pump head	2	19	25	30	37	43	49	m
Discharge	5,49	4,38	3,84	3,38	2,45	1,15	0	[m³/h]

### Hydraulic performance pump type optimized for 85m pump head duty point

Pump head	35	45	60	85	95	105	120	m
Discharge	1,55	1,43	1,18	0,87	0,62	0,52	0	[m³/h]

## Hydraulic System Specification

External Casing :	Stainless Steel
Pump Stages:	Polycarbonate
Impeller:	Noryl
Max. Water Temperature:	35 °C
Sand Content:	max. 50g / m³
Utilization:	EN 60335-2-41
Power Input:	550W @ 2850 rpm
Water Connection:	DNM 1"1 / 4
Bore Diameter:	DN 100mm

## Backup and PUS Pure Sine Wave Pwer Inverter for Load Shedding

SYNAPSE

- Pure sine wave output
- Smart LCD setting ( frequency , charge voltage, charge current, etc).
- 3 steps charging algorithm
- Built in AVR function
- Overload and short-circuit protection
- Battery reverse polarity protection (Optional)
- Deep discharge protection
- Cold start function

The SYNAPSE Solar pure sine wave series is designed to work and protect PC equipment and serves as a backup device in extremely hostile power environments where other UPS simply cannot operate. An extra wide input AVR conserves battery for added security. Includes a multi-stage surge suppressor which can protect from surges and spikes. Available in 600W and 1000W versions. These units are powered / charged from the utility / grid only.

Product Code		SYNAPSE 600	SYNAPSE 1000
Default Battery System Voltage		12V DC	24V DC
Inverter Output	Rated Power	600W	1000W
	Surge Rating (20ms)	1800W	3000W
	Waveform	Pure Sine Wave	Pure Sine Wave
	Rated Output Voltage	Inverter: 230V AC (+/-2% RMS), AVR: 195V AC - 245V AC	
	Output Frequency	50Hz / 60Hz +/-0,2Hz	50Hz / 60Hz +/-0,2Hz
	Inverter Efficiency (Peak)	>75%	>81%
	Bypass Efficiency	>95%	>95%
	Output Transfer Time	Typical: 6ms 10ms (Max.)	Typical: 6ms 10ms (Max.)
Battery	Minimum Start Voltage	Low Battery Voltage Cutoff +0,5V	Low Battery Voltage Cutoff +0,5V
	Low Battery Alarm	Low Battery Voltage Cutoff +0,5V	Low Battery Voltage Cutoff +1V
	Low Battery Cutoff	10 - 12V DC	20 - 24V DC
	High Battery Cutoff	Nominal Voltage +0,5V	Nominal Voltage +1V
Ac Charge	Floating Voltage	13,5 / 13,6 / 13,7V DC	27 / 27,2 / 27,4V DC
	Nominal Voltage	13,8 ~ 14,5V	27,6 ~ 29V
	Maximum Charge Current	600W	1000W
		20A	15A
Bypass & Protection	Input Waveform	Pure Sine Wave	Pure Sine Wave
	Input Frequency	50Hz or 60Hz	50Hz or 60Hz
	Low Frequency Trip	45+ / -0,2Hz	45+ / -0,2Hz
	Low Frequency Trip	65+ / -0,2Hz	65+ / -0,2Hz
	Overload Protection	110% ~ 125% R Load fault after 30S 125% ~ 150% R Load fault after 3s >150% R Load fault after 500ms	
	Over Temperature Protection	>90°C	>90°C
	Bypass Output Protection	10A 250V AC	10A 250V AC
	Output Circuit protection	YES	YES
Mechanical Specification	Dimensions	385 x 325 x 190mm	385 x 325 x 190mm
	(N.W) kg	3000W	1000W
		8kg	13,5kg
	Shipping Dimensions (W x H x D)	420 x 385 x 225mm	420 x 385 x 225mm

## Acc. Battery Boxes

Product Code	Description
SYNAPSE-C1	Battery box for 1x 12V 100AH
SYNAPSE-C2	Battery box for 2x 12V 100AH

**SYNAPSE 3.0+ Off-Grid Inverter****SYNAPSE**

- Pure sine wave solar inverter
- Output power factor 1
- High PV input voltage range
- Inverter running without battery
- Built-in 60A MPPT solar charger
- Battery equalization function to optimize battery performance and extend lifecycle
- Built-in anti-dusk kit for harsh environment

**Model**

Product Code	<b>SYNAPSE 3.0+</b>
Rated Power	3000VA / 3000W

**Input**

Voltage	230V AC
Selectable Voltage Range	170 - 280V AC (For Personal Computers); 90 - 280V AC (For Home Appliances)
Frequency Range	50Hz / 60Hz (Auto sensing)

**Output**

AC Voltage Regulation (Battery Mode)	230V AC $\pm$ 5%
Surge Power	6000VA
Efficiency (Peak)	90% ~ 93%
Transfer Time	10 ms (For Personal Computers); 20 ms (For Home Appliances)
Waveform	Pure sine wave

**Battery**

Battery Voltage	24V DC
Floating Charge Voltage	27V DC
Overcharge Protection	33V DC

**Solar Charger & AC Charger**

Maximum PV Array Open Circuit Voltage	145V DC
Maximum PV Array Power	1500W
MPP Range @ Operating Voltage	30 ~ 115V DC
Maximum Solar Charge Current	60A
Maximum AC Charge Current	60A
Maximum Charge Current	120A

**Physical**

Dimension (D x W x H)	100 x 300 x 440mm
Net Weight	9,5kgs
Communication Interface	USB / RS232

**Environment**

Humidity	5% to 95% Relative Humidity (Non-condensing)
Operating Temperature	-10°C to 50°C
Storage Temperature	-15°C to 60°C

Product specifications are subject to change without further notice.

# SYNAPSE

## SYNAPSE 5.0+ Off-Grid Inverter

- Pure sine wave solar inverter
- Output power factor 1
- High PV input voltage range
- Inverter running without battery
- Built-in 80A MPPT solar charger
- Battery equalization function to optimize battery performance and extend lifecycle
- Built-in anti-dusk kit for harsh environment

### Operation with battery connected

Solar Power and AC Power available

### Solar Power and AC Power not available

### Operation with battery connected

Solar Power available

### Model

Product Code	SYNAPSE 5.0+
Rated Power	5000VA / 5000W

### Input

Voltage	230V AC
Selectable Voltage Range	170 - 280V AC (For Personal Computers); 90-280V AC (For Home Appliances)
Frequency Range	50Hz / 60Hz (Auto sensing)

### Output

AC Voltage Regulation (Battery Mode)	230V AC $\pm$ 5%
Surge Power	10000VA
Efficiency (Peak)	90% ~ 93%
Transfer Time	10 ms (For Personal Computers); 20 ms (For Home Appliances)
Waveform	Pure sine wave

### Battery

Battery Voltage	48V DC
Floating Charge Voltage	54V DC
Overcharge Protection	63V DC

### Solar Charger & AC Charger

Maximum PV Array Open Circuit Voltage	500V DC
Maximum PV Array Power	4000 W
MPP Range @ Operating Voltage	120 ~ 450V DC
Maximum Solar Charge Current	80A
Maximum AC Charge Current	60A
Maximum Charge Current	80A

### Physical

Dimension (D x W x H)	100 x 300 x 440mm
Net Weight	10kgs
Communication Interface	USB / RS232

### Environment

Humidity	5% to 95% Relative Humidity (Non-condensing)
Operating Temperature	-10°C to 50°C
Storage Temperature	-15°C to 60°C

Product specifications are subject to change without further notice.

## SYNAPSE

## SYNAPSE 5.0K+ Off-Grid Inverter

- Zero transfer time to protect mission-critical loads such as servers and ATM.
- Detachable LCD control module with multiple communications
- Built-in Bluetooth for mobile monitoring (Android App is available)
- Supports USB On-the-Go function
- Reserved communication port for BMS (RS485, CAN-BUS or RS232)
- Configurable AC/PV output usage timer and prioritization
- Optional parallel operation up to 9 units

## Model

Product Code	SYNAPSE 5.0K+
Rated Power	5000VA / 5000W
Parallel Capability	Up to 9 units

## Input

Voltage	230V AC
Voltage Range	110 - 280V AC
Frequency Range	50Hz / 60Hz (Auto sensing)

## Output

AC Voltage Regulation (Battery Mode)	230V AC $\pm$ 5%
Surge Power	10000VA for 5 sec
Efficiency (Peak)	93% at Line Mode, 90% at Battery Mode
Transfer Time	0 ms
Waveform	Pure sine wave

## Battery

Battery Voltage	48V DC
Floating Charge Voltage	54V DC
Overcharge Protection	66V DC

## Solar Charger &amp; AC Charger

Maximum PV Array Open Circuit Voltage	145V DC
Maximum PV Array Power	4000W
MPP Range @ Operating Voltage	60 ~ 115V DC
Maximum Solar Charge Current	80A
Maximum AC Charge Current	60A
Maximum Charge Current	140A

## Physical

Dimension (D x W x H)	140 x 303 x 525mm
Net Weight	13.5kgs
Communication Interface	USB / RS232 / RS485 / Bluetooth / Dry-contact

## Environment

Humidity	5% to 95% Relative Humidity (Non-condensing)
Operating Temperature	0°C to 55°C
Storage Temperature	-15°C to 60°C

Product specifications are subject to change without further notice.

**GOODWE**  
 YOUR SOLAR ENGINE

## ES Series | Single-phase Energy Storage Inverter | 3,6kW / 5kW

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge the battery, depending on the economics and set-up. The electricity stored can be released when the loads require it during the night. Additionally, the power grid can also charge the storage devices via the inverter.

### Battery Input Data

Product Code	GW3648D-ES	GW5048D-ES
Battery Type	Li-Ion or Lead-acid <sup>1</sup>	Li-Ion or Lead-acid <sup>1</sup>
Nominal Battery Voltage	48V	48V
Max. Charging Voltage	≤60V (Configurable)	≤60V (Configurable)
Max. Charging Current <sup>1</sup>	75A	100A
Max. Discharging Current <sup>1</sup>	75A	100A
Battery Capacity <sup>2</sup>	50 ~ 2000Ah	50 ~ 2000Ah
Charging Strategy for Li-Ion Battery	Self-adaption to BMS	Self-adaption to BMS

### PV String Input Data

Max. DC Input Power	4600W	6500W
Max. DC Input Voltage	580V	580V
MPPT Range	125 ~ 550V	125 ~ 550V
Start-up Voltage <sup>3</sup>	150V	150V
MPPT Range for Full Load	170 ~ 500V	170 ~ 500V
Nominal DC Input Voltage	360V	360V
Max. Input Current	11 / 11A	11 / 11A
Max. Short Current	13,8 / 13,8 A	13,8 / 13,8 A
No. of MPP Trackers	2	2
No. of Strings per MPP Tracker	1	1

### AC Output Data (On-grid)

Nominal Apparent Power Output to Utility Grid	3680VA	4600VA
Max. Apparent Power Output to Utility Grid <sup>4</sup>	3680VA	5100VA
Max. Apparent Power from Utility Grid	7360VA	9200VA
Nominal Output Voltage	230V	230V
Nominal Output Frequency	50 / 60 Hz	50 / 60 Hz
Max. Ac Current Output to Utility Grid	16A	24,5 x 5A
Max. Ac Current From Utility Grid	32A	40A
Output Power Factor	~1(Adjustable from 0,8 leading to 0,8 lagging)	
Output THDi (@Nominal Output)	<3%	<3%

### AC Output Data (Back-up)

Max. Output Apparent Power	3680VA	4600VA
Peak Output Apparent Power <sup>6</sup>	5520,10sec VA	6900,10sec VA
Max. Output Current	16A	20A
Nominal Output Voltage	230 (±2%) V	230 (±2%) V
Nominal Output Frequency	50/60 (±0,2%) Hz	50/60 (±0,2%) Hz
Output THDv (@Linear Load)	<3%	<3%

- IP65
- Uninterruptible Power Supply
- Remote Upgrade
- 100A
- Export Control
- 30% PV Oversizing
- Monitoring via App and PC

## Efficiency

Max. Efficiency	97,6%	97,6%
Max. Battery to Load Efficiency	94,0%	94,0%
Euro Efficiency	97,0%	97,0%

Weight	28kg	30kg
Size	516 x 440 x 184mm	516 x 440 x 184mm
Mounting	Wall Bracket	Wall Bracket
Protection Degree	IP65	IP65
Standby Self Consumption	<13W	<13W
Topology	High Frequency Isolation	High Frequency Isolation

\*1: Lead-acid battery use refers to Approved Battery Options Statement.

The actual charge and discharge current also depends on the battery.

\*2: Under off-grid mode, then battery capacity should be more than 100Ah.

\*3: When there is no battery connected, inverter starts feeding in only if string voltage is higher than 200V.

\*4: 4600 for VDE 0126-1-1 & VDE-AR-N4105, 4950 for AS4777.2(GW5048D-ES); 4050 for CEI 0-21(GW3648D-ES).

\*5: 21,7A for AS4777.2.

\*6: Can be reached only if PV and battery power is enough.

\*7: The standard configuration is CAN.

## ET Series | Three-phase Energy Storage Inverter | 5,0kW / 8,0kW / 10kW

The brand new GoodWe ET Series is a three-phase high voltage energy storage inverter that enables enhanced energy independence and maximizes self-consumption through export limit feature and time of use shifts for reduced electric bills. Covering a power range of 5kW, 8kW and 10kW, the ET Series allows up to 100% overloading to maximize power output and features Uninterruptible Power Supply(UPS) to inductive loads such as air conditioners or refrigerators with an automatic switchover time of less than 10 milliseconds, providing grid-tied savings when the grid is up and off-grid independence and security when it is down or compromised.

### Battery Input Data

Product Code	GW5K-ET	GW8K-ET	GW10K-ET
Battery Type	Li-Ion	Li-Ion	Li-Ion
Battery Voltage Range	180 ~ 600V	180 ~ 600V	180 ~ 600V
Max. Charging Current	2A	25A	25A
Max. Discharging Current	25A	25A	25A
Charging Strategy for Li-Ion Battery	Self-adaption to BMS	Self-adaption to BMS	Self-adaption to BMS

### PV String Input Data

## Delta Solar Grid-Tied Inverters

### Performance and advanced features

#### Maximum profitability

Delta solar inverters achieve a peak efficiency of up to 98.6% and offer one of the largest operating temperature ranges available. Full output up to 52°C ambient temperature to maximise energy efficiency and ensure maximum profitability.

#### Long lifetime

Delta inverters have a very long lifetime thanks to the durable aluminium housing and high quality robust electronics that are employed in their design. Continuous product improvement is ensured due to comprehensive testing during product development and in production.

#### Easy installation

The lightweight, compact design combined with the unique wall bracket makes installation of the solar inverters greatly simplified. All inverters ship standard with a mounting bracket and AC plug to allow quick installation right out of the box

#### Aluminium housing

The aluminium housing of Delta solar inverters ensure long lasting protection against moisture and corrosion.

The dust-proof, completely shockproof housing protects the electronics of the solar inverter from water spray from all directions. This means that it can be installed in protected outdoor areas, damp basements and areas with a high level of dust (agriculture).

### 3kVA - 5kVA Grid - Tied Inverter

Product Code	Input (DC)		Output (AC)		
	MPP Operating Voltage Range	Max. No. Of MPP Trackers	No. Of Phases	Nominal Apparent Power	Voltage Range
RPI H3A	125 ... 550V	1	1	3kVA	230 (-20% / +22 %), 1 phase (L, N, PE or L, L, PE)

RPI M50A	200 ... 1000		3	50kVA	

\*Please enquire about our Generator integration feature!

### Delta's Grid-tied, 3-phase and transformerless PV Inverter

#### Product Features

- 2 stages inverter with wide input operation range from 200 to 1000V DC
- Wall mounted installation
- 2 MPP trackers
- Excellent performance, maximum efficiency 98.8%
- 16 strings with fuses protection
- Ergonomics handle design
- Outdoor application with NEMA4X
- Arc fault detector
- Built-in DC switch
- Built-in AC & DC SPDs

DC Input					AC Output
Product Code	Operating Voltage Range	MPP Voltage, Rated Power	MPP Tracker	Connection Type	Rated Output Power
RPI M80U_122	200 - 1000V	600 ~ 800V	2	18 pairs of MC4 connectors	80kW

RPI M50A

RPI M80U\_122

**PowAR Snap® S**

Fastening &amp; Grounding clip for framed modules and steel structures – ANTI-THEFT VERSION

**Quick**

- Fastening and grounding in a single operation.
- Up to 5 times faster than a clamp.

**Easy to use**

- Tool-free set up.
- Designed for non-qualified workers– allowing minimal training.
- Friendly: no need for climbing on structure, panels can be inserted from underneath the array.

**Cost saving**

- Grounds the module to the structure, no other earthing required between modules.
- Lower overall costs of the PV installation.

- Lower land investment and structure savings thanks to minimised inter module gap: up to 3% more modules per available surface.
- Hot spot risk reduction for PV modules thanks to elastic mechanical clamping<sup>(1)</sup>.

**Performance**

- Tested by accredited laboratories and qualified by major module manufacturers.
- High protection against corrosion and lightning.
- Grounding continuity of the string preserved when a module is dismounted for maintenance.
- Anti-theft designed.

Product Code	Product Group	Dimensions	Orientation	Types	Material

**Removal Tool for Anti-Theft Clip**

Product Code	Description
RUB-SOL-PS-ECONOTOOL	Removal tool for Power snap S

**PowAR Snap® 90B Fastening clip for framed modules and steel structures STANDARD VERSION****Easy to use**

- **Tool free:** Low mounting effort.
- **Multiple access:** Module assembly from top or bottom.
- **Maintenance friendly:** No torque control required.

**Cost saving**

- **Fast assembly:** 2 minutes per module saved.<sup>(1)</sup>
- **Foot print reduction:** For solar on-ground installations up to 3%.<sup>(2)</sup>

**Performance**

- 7 Compliant with IEC 61215:2005-10.16, +2400 and -2400 Pa static load.<sup>(3)</sup>
- Compliant with UL2703, section 21 for mechanical \ load testing.

<sup>(1)</sup>According to field test results available on demand | <sup>(2)</sup>Clamp-less solution allowing 3cm average space saving between each module | <sup>(3)</sup>Fraunhofer ISE tests results available on demand

Rayvolt® Grounding Clip For Electrical Management

Quick and easy set up

- Just one single action required to cut wire insulation, connecting the wire and fixing it to the frame. Free positioning on frame and regarding distances between modules.

Efficient

- Mechanically and electrically: complies with product norms IEC61730-2:2007, IEC60947-1:2007 and EN60068-2-11:1999.<sup>(1)</sup>

Large scope of use

- For all modules with aluminium frame thickness from 1,5 to 2,5mm and multi-strand flexible cable cross section of 6mm² (H07V-K6 mm²).

<sup>(1)</sup> Test report from Bureau Veritas available on demand

Roof Mounting Systems

Rubicon offers a complete solar mounting system solutions for all roof types. The system is easy to assemble and requires minimal use of tools. The basic components comprise the roof bracket or roof hook, Solarsnap (steel or aluminium options) and the Araymond Powersnap clip.

- Roof Brackets - made from stainless steel or aluminium (certification on request)
- Solarsnap – 41 x 41mm solar rail made from steel or aluminium designed for solar systems
- Powersnap – The innovative module mounting clip made from spring steel with a mil spec magni coating for use with aluminium and steel Solarsnap.

1.5 Axis Tracker System

A brand new, Innovative "1.5 Axis tracker" which provides higher yield than traditional single-axis tracking with little more cost than a single axis tracker. Simple, fast installation that doesn't require heavy machinery – ideal for small, medium and large installations.

Technical Information

Tracker Type	1.5 Axis variable tilt and roll tracker for PV panels
Modules & kWp per tracker	12 x 60 Cells or 12 x 72 Cells panels. kWp ranging from 2,5 to 4kWp
Tracking Range	Tilt: 10 to 30°, Roll: -52° to +52°
Control System	Astronomical tracking with backtracking, SCADA control system, real-time performance monitoring of solar plant including preventive maintenance
Drive System	Electric linear actuator
Structure & Bearings	Hot-dip Galvanised steel structure, maintenance-free spherical bearings
Dimensions	Module frame H=5m, W=3,2 to 4m; Maximum system height < 4m
Maximum Wind Speed	Up to 110 km / h (10 Min. average) & 175 km / h (3s gust) measured at 10m
Codes & Standards	Eurocodes 1, IEC 62817, CE
Warranty	Full system warranty

## Rail-less IBR Bracket

**RUBICON**

New from Rubicon: Complete rail-less IBR mounting bracket solution

Features:

- Low cost
- Light weight
- Earthing accessory available
- 100mm airgap from module backsheet to IBR sheet trough for good airflow
- Quick and easy installation with self drilling screws

RUB-SOL-IBR

## Ordering Information

Product Code	Description
RUB-SOL-IBR	IBR Rail-less bracket
RUB-SOL-EC	End Clamp assembly for rail less IBR bracket
RUB-SOL-MC	Mid Clamp assembly for rail less IBR bracket
RUB-SOL-ET	Earth tag for mid clamp

Aluminium Walkway

Specially bent walkway for solar installations

Features:

- Marine grade aluminium with excellent corrosion resistance
- Lightweight
- Safe non-slip design
- Strong rigid construction

Application:

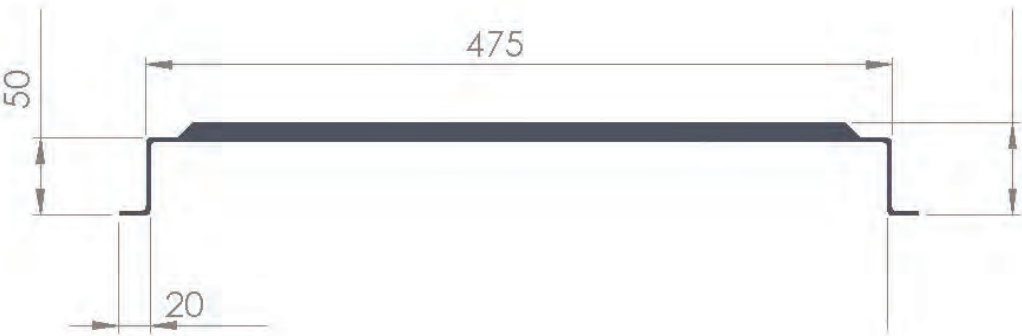

- Roofing installations
- Bulk liquid container industry
- Trailer applications
- Machinery and factory installations

Specification Sheet:

Description	Dimension / Mass	Comment
Length Max	5700 mm	± 30 mm
Length Min	1080 mm	± 3 mm
Width	475 mm	± 5 mm
Height Of Flange	50 mm	± 3 mm
Gauge	3 mm	± 0,2 mm
Mass / M	3,85 kg	Net Mass
Load Max	150 kg	Per 1500 mm

Cross Sectional View:

## KBE Solar DB EN 50618 H1Z2Z2-K

\* Blue cable available on request

KBE's solar product range covers standard cables, PV-cables for direct burial, and voltages up to 1500 V according to the newest standard H1Z2Z2-K according to the European norm EN 50618. Our cables are certified according to international standards EN 50618 (TÜV) or even Style 4703 (UL). KBE solar cables are suitable for installations in PV power plants, roof systems, wire harnesses, and panel manufacturing while meeting the expectations of distributors. The state-of-the-art production facilities guarantee a continuous cost optimisation.

KBE solar cables are TÜV certified "Made in Germany". The special cross-linked insulations exceed the test requirements to ensure long service time and high operating reliability. KBE solar cables are available in many different outer diameters making them compatible with almost all connectors and junction boxes. Resistance to termites and protection against rodents are also available on request for your individual needs! Our capacity and short delivery time is outstanding while offering different packaging sizes to meet your individual requirements.

**Conductor**

- E-Cu tinned acc. IEC 60228 Class 5

**Insulation material**

- Cross-linked Special Polyolefin
- 36 Shore D
- Halogen free
- Weather- and UV-resistant
- Ozone resistant

**Jacket material**

- Cross-linked Special Polyolefin
- 36 Shore D
- Halogen free
- Weather- and UV-resistant
- Ozone resistant

**Temperature range**

- -40°C to +90°C
- Max. conductor temperature: 120°C

**Voltage rating**

- U / U = 600 / 1000V AC
- Max. 1800V AC (conductor-conductor, non earthed system, circuit not under load)

**Flame resistance**

- Acc. to DIN EN 60332-1-2

**Colours**

- Black, red, blue

**Guidelines & certificates**

- EN 50618, R60107612
- RoHS 2011/65/EU

\*Specify colour; Red, White, Blue, Black, Grey, Green, Green / Yellow, Violet, Orange, Pink, Brown, Yellow. Sold per 100m coil.  
E.g "CABLE-PW1.0/black"

H07 Cable (Neoprene / Multicore)

These heavy-duty rubber sheathed cables are suitable for use on large appliances and machinery in dry and damp conditions as well as in open air and wet industrial environments. Resistance to oils and certain chemicals is also good. Withstands voltages up to 2500V.

RWC2200HANGER		For Wiring Channel 2200 Hanger	11mm
RWC8000HANGER		For Wiring Channel 8000 Hanger	11mm
RWC9000HANGER		For Wiring Channel 9000 Hanger	11mm
RWCFH01/8		Flange Hanger, Electro-galvanised Finish	8mm
RWCFH01/10		Flange Hanger, Electro-galvanised Finish	11mm
RWCFH01/12		Flange Hanger, Electro-galvanised Finish	13mm
RWCPH01/10		Purlin Hanger, Pre-galvanised Finish	11mm
RWCPH01/12		Purlin Hanger, Pre-galvanised Finish	14mm
RWCSH01/12		Swivel Hanger, Electro-galvanised Finish	13mm
RWC2540BRASS		For Wiring Channel 2540, Brass Light Fitting Adaptor	-
RWC2540NYLON		For Wiring Channel 2540, Nylon Light Fitting Adaptor	-

Gutter Bolt &amp; Square Nut

Hex Set Screw &amp; Nut

## Fasteners All fasteners sold individually. When enquiring give the thread size and length.

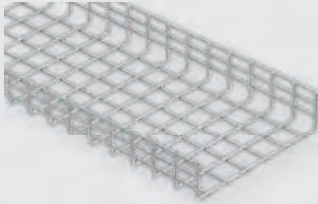

Product Code	Product Range	Threaded Size	Length (mm)	Material
RWCSAN *-***	Hex Set Screw & Nut	M6, M8, M10, M12	20, 25, 30, 35, 40, 45, 50, 55, 60	Electro-gal.
RWCFW *	Flat Washer	M6, M8, M10, M12		Electro-gal.
RWCSSW *	Spring Washer	M6, M8, M10, M12		Electro-gal.
RWCFENW *	Fender Washer	M6, M8, M10, M12		Electro-gal.
RWCHCN *	Hex Coupling Nut	M6, M8, M10, M12		Electro-gal.
RWCNS *	Spring Nut Long / Short	M6, M8, M10, M12		Electro-gal.
RWCTR *	Threaded Rod	M6, M8, M10, M12	3 meters	Electro-gal.
RWCGBN**	Gutter Bolt & Square Nut	M6	12, 20, 25	Electro-gal.
RWCCPS M10	Cone Point Screw	M10	45	Electro-gal.
RWCCPS M12F	Cone Point Screw	M12 Fit	-	Electro-gal.
RWCCPS M12	Cone Point Screw	M12	-	Electro-gal.
RWCDIA **	Drop in Anchor	M6, M8, M10, M12	25, 30, 40, 50	Electro-gal.

\*Add Threaded size for product code. \*\*Add Threaded size and length for product code. \*\*\*Add length for product code.

## Medium Duty Wiring Channels (Welded Wire Mesh Tray)

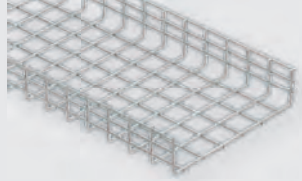

(PF Splice sets comprise 2x Angle splices, 8x M6 Cup square bolts, Hex nuts and flat washers / Joint.)

Product Code	Product Image	Width	Length	Height	Base Aperture	Side Aperture	Wire
RWWM50-100		100mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-150		150mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-200		200mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-300		300mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-400		400mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-500		500mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm
RWWM50-600		600mm	3000mm	50mm	50 x 75mm	25 x 50mm	4mm

The standard finish is Hot-dip Galvanised. The Finish for the fasteners is Super Zinc

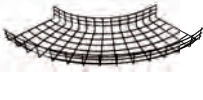

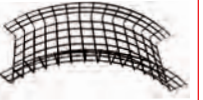

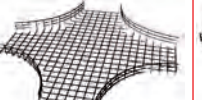

## Heavy Duty Wiring Channels (Welded Wire Mesh Tray)

(PF Splice sets comprise 2x Angle splices, 8x M6 Cup square bolts, Hex nuts and flat washers per joint.)

Product Code	Product Image	Width	Length	Height	Base Aperture	Side Aperture	Wire
RWWM75-100		100mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	375mm
RWWM75-150		150mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	375mm
RWWM75-200		200mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	375mm
RWWM75-300		300mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	375mm
RWWM75-400		400mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	375mm
RWWM75-800		800mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	300mm

The standard finish is Hot-dip Galvanised. The Finish for the fasteners is Super Zinc

## Wiring Channels (Welded Wire Mesh Tray) Accessory

Product Image						
Product Code	RWWM**-***H	RWWM**-***I	RWWM**-***E	RWWMPT**-**4W	RWWMPT**-***T	RWWMSPICE
Description	Horizontal Bend (HB)	Riser (Internal) Bend (IB)	Dropper (External) Bend (EB)	4 Way (4W)	Tee Piece (TP)	Welded Wire Mesh Cable Tray Splice Set

\*Add the numerical part of the Wire Channels product code to the accessory code. For example RWWT75-100T is the accessory code for the Tee pie.

## Tools For Wire Mesh Trays

## Bolt cutter

Product Code	Length	Designation	Weight	Wire	Qty.
GKDB B28	630mm	Bolt cutter, universal	2,63kg	4-6	1

Equipped with especially configured cutting edges for low-burr cutting wire tray to length

## Portable Mesh Trunking Shears Mini Portable Mesh

Product Code	Designation	Weight	Qty.
MGKE M	Portable Mesh Trunking Shears Mini	1kg	1

For a clean cut on wires up to 6mm, supplied in case. Comprising: Mesh trunking shears, 2x batteries, 1x charger

## Cantilever Arms - Single

Product Code	Length	Thickness	Material
RWCCA254S-150	150mm	2,5mm	Hot-dip Galvanised
RWCCA254S-200	200mm	2,5mm	Hot-dip Galvanised
RWCCA254S-250	250mm	2,5mm	Hot-dip Galvanised
RWCCA254S-350	350mm	2,5mm	Hot-dip Galvanised
RWCCA254S-450	450mm	2,5mm	Hot-dip Galvanised
RWCCA254S-550	550mm	2,5mm	Hot-dip Galvanised
RWCCA254S-600	600mm	2,5mm	Hot-dip Galvanised
RWCCA254S-650	650mm	2,5mm	Hot-dip Galvanised

## Cantilever Arms - Double

Product Code	Length	Thickness	Material
RWCCA254D-650	650mm	2,5mm	Hot-dip Galvanised
RWCCA254D-800	800mm	2,5mm	Hot-dip Galvanised
RWCCA254D-850	850mm	2,5mm	Hot-dip Galvanised
RWCCA254D-1050	1050mm	2,5mm	Hot-dip Galvanised

## Return Flange Arms (Wrap Around Arms)

Product Code	Length	Height	Thickness	Material
RWCCA2235-150	150mm	50,5mm	2mm	Pre-galvanised
RWCCA2235-200	200mm	63mm	2mm	Pre-galvanised
RWCCA2235-250	250mm	75mm	2mm	Pre-galvanised
RWCCA2235-350	350mm	100mm	2mm	Pre-galvanised
RWCCA2235-450	400mm	113mm	2mm	Pre-galvanised
RWCCA2235-550	500mm	138mm	2mm	Pre-galvanised
RWCCA2235-650	600mm	163mm	2mm	Pre-galvanised

Can be used with cable tray

## Field Assembly (Wrap Around Arms)

Product Code	Length	Thickness	Material
RWCRFARM-200	200mm	2,5mm	Hot-dip Galvanised
RWCRFARM-250	250mm	2,5mm	Hot-dip Galvanised
RWCRFARM-350	350mm	2,5mm	Hot-dip Galvanised
RWCRFARM-450	450mm	2,5mm	Hot-dip Galvanised

\* Standard slot size

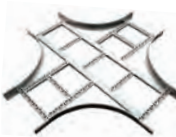

## Cable Ladder - Medium Duty

(CL55 Litespan® Splice sets comprise 2x Angle Splices, 8x M6 Cup Square Bolts, Hex Nuts and Flat Washers per joint.)

Product Code	Product Image	Width	Length	Height	Strapping Slots	Cable Tie Holes	Standard Finish
RCL55-100		100mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised
RCL55-150		150mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised
RCL55-200		200mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised
RCL55-300		300mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised
RCL55-400		400mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised
RCL55-500		500mm	3000mm	55mm	11 x 28mm	11 & 8 Ømm	Hot-dip Galvanised

Accessory Radius: Min. 450mm. Suitable for use with K, U & Trefoil Clamps. Cross rung centre is 375mm. Fasteners finish Mega Zinc / Super Zinc

## Accessories For Cable Ladders - Medium Duty

Product Image							
Product Code	RCL55-***H	RCL55-***I	RCL55-***E	RCL55-***4W	RCL55-***T	RCL55SPlice	RCL55RADSPlice
Description	Horizontal Bend (HB)	Riser (Internal) Bend (IB)	Dropper (External) Bend (EB)	4 Way (4W)	Tee Piece (TP)	Adjustable Splice (AS) (only in vertical plane)	Reduction Splice (RS)

\*Add the numerical part of the Wire Channels product code to the accessory code. For example RCL55-100INT is the accessory code for the riser product RCL55-100 Ladder.

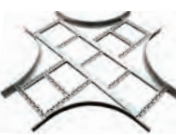

## Cable Ladder - Heavy Duty

(CL76 Litespan® Splice sets comprise 2x Angle Splices, 8x M6 Cup Square Bolts, Hex Nuts and Flat Washers per joint.)

Product Code	Product Image	Width	Length	Height	Strapping Slots	Cable Tie Holes	Material
RCL76-100		100mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-150		150mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-200		200mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-300		300mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-400		400mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-500		500mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-600		600mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised
RCL76-800		800mm	3000mm	76mm	11 x 28mm	11 & 8 Ømm	Hot-dip galvanised

Accessory Radius: Minimum 450mm. Suitable for use with K, U and Trefoil Clamps. Cross rung centre is 375mm (except 800 & 1000mm centre =300). The finish for the fasteners is Mega Zinc / Super Zinc

## Accessories For Cable Ladders - Heavy Duty

Product Image							
Product Code	RCL76-***H	RCL76-***I	RCL76-***E	RCL76-***4W	RCL76-***T	RCL76SPlice	RCL76RADSPlice
Description	Horizontal Bend (HB)	Riser (Internal) Bend (IB)	Dropper (External) Bend (EB)	4 Way (4W)	Tee Piece (TP)	Adjustable Splice (AS) (only in vertical plane)	Reduction Splice (RS)

\*Add the numerical part of the Wire Channels product code to the accessory code. For example RCL76-100INT is the accessory code for the Riser product RCL76-100 ladder.

## DIN Terminals / W Series Screw Connection With Universal Foot For DIN Mounting

## DIN Terminal (Colour options)

Earth Terminal

End Plate

End Bracket

Cross Connector 10 Way

## Safe operation

The terminal blocks are supplied with open clamping units, this enables quick assembly. In addition, the misplugging safeguard prevents conductors from being inserted incorrectly. Embossing on the clamping yoke and current bar engage so that even the smallest conductors are reliably contacted; large conductors and also 2 conductors are gripped in the middle.

## Square Roof Flashing

### Technical information:

Dektite by Deks is a product designed to allow for easy, watertight cable, conduit and pipe penetrations through roofs and other surfaces.

Using a malleable Aluminium frame, the Dekstite's base can be formed to almost any roof profile. The durable EPDM cone provides a watertight seal around pipes or cables. Fixing is done with silicone on tiles or, in the case of metal sheet, Tek screws

Dektite Roof Penetrator	Cut to fit the diameter of pipe or cable	Apply silicone to underside	Insert Tek screws into metal sheet

## Ordering Information

Product Code	Description	Penetration Size	Overall Size

## Watertight Distribution Enclosures (UV Rated) IP65, (Surface Mounted), (DC Rated DB Boards)

### Technical data

- Degree of protection is IP65
- Test of resistance to glow wire is at 650°C
- For DIN mount Circuit Breakers
- Ball pressure test 70°C
- Maximum Voltage 1000V AC / 1500V DC
- Ordered separately

Product Code	Description	Product Code	Description	N	E

## SMC High End Hinged Enclosures (Manufactured in R.S.A)

### Technical data

- External adjustable mounting bracket, horizontal, vertical or 45° angles
- Internal Stainless Steel hinges
- Mounting brackets are Stainless Steel
- DIN rail mount with M6 bolt and nut
- The height of the DIN rail is easily adjustable

## Venting Element (M20)

**Body:** Polyamide PA6 V-0

**Water Entry Pressure:**  $\geq 0,83$  bar

**Membrane:** Polyether sulphone PES

(Dynamic WEP, 30 seconds)

**O-Ring:** Nitrile rubber NBR

**Temperature Range:** -40 °C to +100 °C

**Connecting Thread:** Metric, as per EN 60423

**Protection Grade:** IP66 / IP68 - 0,6 bar (60 Min.) / IP69K

**Typical Air Flow:** > 400 ml / Min. / cm<sup>2</sup> at  $\Delta p = 0,07$  bar

**Colour:** Light grey

Product Code	A	L	Sw1	H	Qty.
SDJDAE20PA7035	M20 x 1,5mm (M20)	10mm	27mm	21,6mm	10

## Pressure Compensation Device (M40)

Pressure differentials in enclosures with a high degree of protection are a result of internal and external temperature changes. In the case of negative pressure or practical vacuum, dust and humidity can enter the enclosure through the door seal. When the air inside the enclosure cools down, condensation may occur because the humidity cannot escape the enclosure.

The easy-to-install pressure compensation device DA 284 provides compensation of pressure at a protection degree of IP66. even with a slight overpressure, a waterproof membrane inside the plug allows the humidity to escape whilst blocking water and dirt from entering the enclosure.

**Mounting:** Thread M40 x 1,5 with nut

**Air permeability:** 1200l / h at a pressure difference of min. 70mbar

**Depth in enclosure:** Approx. 16mm

**Dimensions:** Ø 60 x 37mm

**Filter waterproof:** Membrane

Product Code	Material	Protection Type	Operating / Storage Temp.	1 Packing Unit	Weight (Approx.)	Approvals
28400.0-01	Plastic, light grey, M40	IP66 (EN 60529) / IPX9K (EN 40050-9)	-35 to +70°C	1 piece	45g	-

## Drainage Device DD 084 | IP66 / IP67 / IP69K

Condensate occurs in enclosures and housings with high protection type by variations in temperature. The use of a drainage device allows the conveying of the condensate without losing the maximum protection type of IP66.

The water permeable membrane makes sure the drainage of the enclosure by the capillary attraction. The construction prevents the infiltration of splash water into the enclosure.

**Mounting:** Thread M50 x 1,5 with nut (Wrench size 60mm, housing 50mm)

**Water flow-through:** Approx. 200ml / h at a water column of 5m

**Material:** Plastic according to UL94 V-0, umbra grey, weather proof and UV light resistant according UL746C (f1)

**Dimensions:** Ø 60 x 49,5mm

**Operating / Storage temperature:** -45 to +70°C

Product Code	Protection Type	Enclosure Wall Thickness	1 Package Unit	Weight (Approx.)

## Atlantic | IP40 Steel Distribution Cabinets

### IP30 - IP40 Combinable Surface Cabinets

#### Supply

They are supplied disassembled in a single packaging that contains body, sides, top and bottom cover, cable entry cover and accessory bag.

- **Accessory bag:** Insulating caps to permit reversible doors, wall mounting supports, reinforcement buttons, mass continuity clamps, rulers for fitting rails and assembly instructions.

The doors are supplied separately if requested, with both locks assembled and with accessory bag.

- **Door accessory bag:** Hinges and locks, mounting screws, lock pins and key.

#### Material

- Opaque doors manufactured in cold-rolled steel EN 10130+A1; 1mm thick surface cabinets and 1,2mm thick flush-fit cabinets and transparent doors manufactured in tinted 4mm tempered safety glass.

#### Finish

- Coated with hardened RAL 9003 epoxy-polyester paint, embossed 80-120 µ.

#### Protection

- **Corrosion resistance according to the UNE-EN 62208 standard.**

For outdoor installations, the effect of the corrosion must be taken into consideration.

## New Generation SV Bus - Bar Holder

Rated Working Voltage Up To 1000 Volt, 50/60 HZ. According to VDE 0660

### New Type Adjustable Busbar Holder

With the wiring techniques of wire section material and Bus – bar without pinholes adopted, the bending - proof intensity and short – circuit – proof capacity of the Bus – bar are improved, and it also helps to cool the Bus – bar, lower the temperature and increase current capacity.

## Bussman PV Fuses

### Overview of String Protection

Depending on the desired capacity of the Photovoltaic (PV) system, there may be several PV strings connected in parallel to achieve higher currents and subsequently more power.

PV systems that have three or more strings connected in parallel need to have each string protected. Systems that have less than three strings will not generate enough fault current to damage the conductors, equipment or modules. Therefore, they do not present a safety hazard, provided the conductor is sized correctly, based on local codes and installations requirements.

Where three or more strings are connected in parallel, a fuse link on each string will protect the conductors and

modules from over current faults and help minimise any safety hazards. It will also isolate the faulted string so that the rest of the PV system can continue to generate electricity.

It should be remembered that PV module output changes with the module temperature as well as the amount of sun it is exposed to. The exposure is dependent on irradiance level, incline as well as shading effect from trees / buildings or clouds. In operation, fuse links, as thermal devices, are influenced by ambient temperature. The current capability of the PV fuse links should be de-rated according to the Rated Current Dimensioning in the Cooper Bussmann High Speed Fuse Application Guide # 3160 at [www.cooperbussmann.com](http://www.cooperbussmann.com).

### 1500V Fuses (DC)

Eaton's Bussmann™ series of 14 x 65mm (10 x 85mm with 10mm caps) package PV fuses are specifically designed for protecting and isolating photovoltaic strings. These fuse links are capable of interrupting low over-currents associated with faulted PV systems (reverse current, multi-array faults).

#### Cylindrical with 10mm fixings

Product Code	Rated Amps	Rated Voltage	Interrupting Rated
PV-2.25A10F85	2,25A	1500V DC	10kA
PV-2.5A10F85	2,5A	1500V DC	10kA

PV-25A10F85	25A	1300V DC	10kA
PV-32A10F85	32A	1300V DC	10kA

### Holder for 1500V Fuses

Product Code	Number Of Poles	Rated Voltage	Rated Current (UI)	Rated Isolation Voltage Ui	Rated Surge Volt. \ Uimp	Rated Breaking Capacity ICC
CHPV15L85	1	1000V AC / 1500V DC	32A (IEC) / 30A	1500V	6	30kA

### 10 x 38 PV Fuses (1000V DC)

A range of UL 2579 fast-acting 600V DC Midget fuses specifically designed to protect solar power systems in extreme ambient temperature, high cycling and low-level fault current conditions (reverse current, multi-array fault).

Product Code	Rated Current	Rated Voltage	Breaking Capacity	Dimensions	Class
PV-2A10F	2A	600V DC	30kA	10 x 38mm	gPV
PV-6A10F	6A	600V DC	30kA	10 x 38mm	gPV
PV-8A10F	8A	600V DC	30kA	10 x 38mm	gPV
PV-10A10F	10A	600V DC	30kA	10 x 38mm	gPV
PV-12A10F	12A	600V DC	30kA	10 x 38mm	gPV
PV-15A10F	15A	600V DC	30kA	10 x 38mm	gPV
PV-20A10F	20A	600V DC	30kA	10 x 38mm	gPV
PV-25A10F	25A	600V DC	30kA	10 x 38mm	gPV

30 Amp available on special request only.

### Holders for 10 x 38 Fuse

Product Code	Rated Current	Rated Voltage	No. Poles	Fuse Blown Indication
*CHPV1IU	30A	1000V DC	1	With indication
CHPV2IU	30A	1000V DC	2	With indication
*CHPV1U	30A	1000V DC	1	Without indication
CHPV2U	30A	1000V DC	2	Without indication
JV-L	Multi-pole connector Kit (10 x 38). For Use with Fuse Holders CHPV1U and CHPV1U			

\*Stocking items

## NH1 Photovoltaic Fuses (DC)

### NH DIN blade fuse

A range of NH size fuse links specifically designed for protecting and isolating photovoltaic array combiners and DC disconnects. These fuse links are capable of interrupting low over currents associated with faulted PV systems (reverse current, multi-array fault).

Product Code	Rated Current	Rated Voltage	Breaking Capacity	Dimensions	Class
PV-32ANH1	32A	1000V DC	30kA	NH1	gPV Fuse Links
PV-40ANH1	40A	1000V DC	30kA	NH1	gPV Fuse Links
PV-50ANH1	50A	1000V DC	30kA	NH1	gPV Fuse Links
PV-63ANH1	63A	1000V DC	30kA	NH1	gPV Fuse Links
PV-80ANH1	80A	1000V DC	30kA	NH1	gPV Fuse Links
PV-100ANH1	100A	1000V DC	30kA	NH1	gPV Fuse Links
PV-125ANH1	125A	1000V DC	30kA	NH1	gPV Fuse Links
PV-160ANH1	160A	1000V DC	30kA	NH1	gPV Fuse Links

### Holders for NH1 Photovoltaic Fuses

Product Code	Rated Current	Rated Voltage	No. Poles	Description
SD1-D	250A	1000V DC	1	DIN-Rail and screw mounting
TD1-D	250A	1000V DC	2	DIN-Rail and screw mounting

## XL Photovoltaic Fuses (DC)

A range of XL package fuse links specifically designed for protecting and isolating photovoltaic array combiners and disconnects. These fuse links are capable of interrupting low over currents associated with faulted PV systems (reverse current, multi-array fault).

Product Code	Product Code	Rated Current	Rated Voltage	Body Size
<b>Bladed</b>	<b>Bolted</b>			
PV-63A-01XL	PV-63A-01XL-B	63A	1000V DC	01

24700-100A	Std. Protection Fuse With Indicator	00	1

## Battery Protection For AC / DC Systems: Multibloc 00.St8 (For NH Fuses) (Holders)

### Features and benefits

- Touch protection IP 20 - when fuse link is in test mode IP rating is maintained
- Parking position of switch operating cover even with fuse-links inserted
- Modular system of cover - cover for cable termination area can be extended - optional
- Varieties of cable termination: screw, clamp strap, Al-Cu clamp, extendable for V-terminal - optional
- Padlocking and sealing of switch door cover - optional
- Indicating switch for switch door position - optional
- Safe on load connection/disconnection in accordance with IEC 60947-3

Product Code	Rated Voltage	Rated Current	No. Poles	Size	Cable Termination Components
F229292	690V AC / 220V DC	160A	1	00	2 M8 screws
G229293	690V AC / 220V DC	160A	2	00	4 M8 screws

## Battery Protection For AC / DC Systems: Multibloc 00.St9 (For NH Fuses) (Holders)

### Features and benefits

- Touch protection IP 30
- Sealing and padlocking device integrated in switch door cover
- Installation depth 81 mm
- Voltage test through holes in slidable windows directly at contacts or tags of NH-fuse links
- Parking position of switch operating cover even with fuse-links inserted
- Modular system of cover - cover for cable termination area can be extended as required
- Varieties of cable termination: screw, clamp strap, Al-Cu clamp, frame clamp, extendable for
- V-terminal - optional
- Electronic or electro-mechanic fuse monitoring - optional
- Indicating switch for switch door position - optional
- Installation on to DIN rails in accordance with EN 60 715 - optional
- Safe on load connection/disconnection in accordance with IEC 60947-3

Product Code	Rated Voltage	Rated Current	No. Poles	Size	Cable Termination Components
P1023007	690V AC / 440V DC	160A	3	00	6 M8 screws

## MC Inline Fuse

Molded inline fuses utilise genuine MC4 connectors from MultiContact to ensure the lowest losses and highest quality connection, while maintaining the full system safety. Fully overmolded, non-replaceable fuses are disposable to ensure user safety.

Product Code	Description
MCfuse-1-*	1000V DC, Inline Fuse, MC4
MCfuse1500-1-*	1500V DC, Inline Fuse, MC4

\*Insert current rating: 4A, 6A, 10A, 12A, 15A, 20A | To order with pigtails, please contact a branch near you.

## Surge Protectors for Photovoltaic Systems

Most photovoltaic module manufacturers guarantee their materials for 20 years or more. The ROI of photovoltaic generation facilities connected to the low voltage network is therefore calculated over this long period of time. But these systems are often highly exposed to lightning and power surges, which can greatly reduce the required operating time. Implementation of appropriate protection solutions is strongly recommended.

### DS50PV / 51 AND DS50VGPV / 51 SERIES

### DS60PV / 51 SERIES

### Several points must be considered to analyse the risk of Lightning and Power Surges:

- Due to the exposed nature of the PV array, the threat of lightning is more common.
- The risk is multiple: direct effect (lightning strike on the panels) and indirect (surge on Cells, solar chargers / inverters), on other lines data).
- The operating loss must be taken into account, especially at sites of high power capacity.
- When the PV system is located on industrial sites, the risk of switching overvoltages must also be taken into account.
- The level of risk is directly related to the lightning density and exposure of local lines

### Protection of PV installation

The photovoltaic grid-connected low voltage power lines may be subject to overvoltages on different networks:

- **AC network:** surge protectors are necessary, and in most cases, mandatory on the AC output of the PV inverter which is connected back to the AC power grid.
- **DC network:** surge protectors are required or mandatory on the input of the PV inverter or the input PV modules.
- **Low current network:** if the PV inverter is connected to low voltage signal lines (probes, sensors, monitoring) then SPD devices are recommended.

### AC surge protectors for PV installation

Depending on the type of networks, the presence of lightning rod or primary surge protectors existing, CITEL also offers a complete range of solutions to protect the AC portion of the PV system.

### Installations with lightning rods

A Type 1 surge protector, specifically dimensioned to handle direct lightning current is required at the service entrance of the installation (main switchboard). Arresters like the DS130R provide a high energy surge capacity in a compact size and are easily serviced with pluggable modules.

### Standard installation

In the absence of lightning rod, the implementation of a type 2 SPD is generally preferred, but, in some cases, it is compulsory depending on the level of lightning in the area ( $Ng > 2,5$ ). The DS40 type 2 arrester range offers a modular solution adapted to these applications. For medium and small size facilities with limited space available, the DS240 / DS440 provides a high surge capacity in a reduced footprint.

### Input protection of PV inverter

Guide UTE C15-712-1 requires the implementation of an additional SPD on the AC input of the PV inverter, if it is more than 10 m from the surge protector origin. The DS215 / DS415 surge protectors provide this protection for these applications and can be installed either directly into the distribution panel or in a dedicated, standalone enclosure solution.

### Surge protectors for low current

The PV system can be interconnected to various low-current networks including probes, sensors, and monitoring equipment. In these cases, the implementation of suitable surge protector is highly recommended: The DLA range performs this function and surge protector is available for any type of telecom or data line connections.

## Power Plant

If lightning protection rod systems are equipped:

- TYPE 1 Surge Protectors Are Compulsory For AC And DC Side
- Lightning Current Withstand  $I_{IMP}$  (10 / 350  $\mu$ s) Is Minimum 5 kA

DS60VGPV-1500G/51

### D60VGPV

**NEW**  
1500V DC

#### Type 1 + 2 Monobloc

- Lightning Impulse Current  $I_{IMP} = 12,5kA$
- Nominal Discharge Current  $I_n = 40kA$

#### DC

## Fire Fighter Safety Switch

Product Code	Description
FSS-A300-FU	Basic IEC The box design enables easy installation and optimal access to switch connections.
FSS-A300-FTU	Express IEC Developed for quick installation and easy string connections, Pre-wired on spring terminals

D-G-W

D-H-W

XA\*

FSS-A300-FRU

FSS-B5

<b>FSS-A300-FRU</b>	Retrofit IEC Ideal for integrating into existing PV systems. Comprises: Pre-wired cables directly on switch poles optionally cables can be equipped with solar connectors (MC4)
<b>FSS-B5</b>	Push button / key switch for switch control, Positive feedback through LED's, 2x cable glands M20 for control signals

## Arc Fault Detection Unit

The Arc fault Detection Unit (ADU) offers extra safety, efficiency and convenience to any PV system. The electronic device developed specifically for PV systems detects arc faults within a string and gives both visual and acoustic feedback the moment an arc fault.

### ADU on DIN R0rail in IP65 box

Product Code	Description
<b>ADU 1</b>	For 1 string, 5x M16 Cable Glands, 1x Spring Terminal 6mm <sup>2</sup>
<b>ADU 2</b>	For 2 strings, 9x M16 Cable Glands, 2x Spring Terminals 6mm <sup>2</sup>
<b>ADU 3</b>	For 3 strings, 13x M16 Cable Glands, 3x Spring Terminals 6mm <sup>2</sup>

### Silios E: ADU in IP65 Box and X-Type DC Switch For Max. 32A / 1000V DC

Product Code	Description
<b>E1</b>	For 1 string and 2 poles, 5x M16 Cable Glands, 3x Terminals 6mm <sup>2</sup>
<b>E14</b>	For 2 strings and 4 poles, 9x M16 Cable Glands, 5x Terminals 6mm <sup>2</sup>
<b>E16</b>	For 3 strings and 6 poles, 13x M16 Cable Glands, 9x Terminals 6mm <sup>2</sup>

## Domestic Firefighter Safety Switch

- 1. Robust enclosure**  
IP65 watertight / UV resistant / Designed for optimal switch access and ease of installation
- 2. Safety seal**  
Possible placement of safety seal for controlled maintenance
- 3. Motor-driven X-TYPE switch**  
Santon's reliable X-type switch / Switch disconnection within 3m.sec / minimum arc / maximum lifetime
- 4. Mechanical position indication**  
Visual feedback of the switch position (GREEN / OFF and RED / ON)
- 5. Temperature sensor**  
The DFS will automatically switch to the off position in case the temperature rises above 100°C
- 6. Power supply (UPS)**  
Power supply unit for remotely operating the switch
- 7. Power connection**  
AC power connection for charging the power backup and for optional integration with a fire alarm system
- 8. Pressure equalising valve**  
Avoids condensation inside the enclosure and ensures maximum endurance and lifetime
- 9. Knock outs**  
The DFS is supplied with 10 x 12mm knockouts
- 10. Cable glands or MC4 connectors**  
The DFS can be ordered pre-wired with MC4 connectors or with separately delivered cable glands M12

Ratings according to IEC 60947-1&3 DC21 B based on switching both the positive and the negative pole:

Voltage	1000V DC	850V DC	800V DC	650V DC
Amps	16A	20A	25A	32A
Product Code	No. Of Strings	No. Of Poles	Description	
<b>DFS-1</b>	1	2	Unit with Knock Outs	
<b>DFS-1-W</b>	1	2	Unit with Cable Glands 5x M12	
<b>DFS-1-MC4</b>	1	2	Unit pre-wired with 4x MC4 connectors & 1x M12 Cable Gland for AC	
<b>DFS-14</b>	2	4	Unit with Knock Outs	
<b>DFS-14-W</b>	2	4	Unit with Cable Glands 9x M12	
<b>DFS-14-MC4</b>	2	4	Unit pre-wired with 8x MC4 connectors and 1x M12 Cable Gland for AC

## ECCO Charger / PWM Charger

The 20A PWM Solar controller is for off-grid solar systems and control the charging and discharging of the battery. The intelligent charging process has been optimized for long battery life and improved system performance.

### Major functions

- Automatic identification system voltage, 12 volts/24 volts
- Humanized LCD displaying and double button operation of man-machine interface
- High efficiency intelligent PWM 3stage charging
- The load control mode can be selected; the timer function can be reset for street light at night
- Reliable over voltage protection: short circuit protection, over load protection, overcharge protection, over-discharge protection
- Accurate temperature compensation, correcting the charging and discharging voltage automatically, improving the battery lifetime
- Roundly reverse connected protection
- Solar panels, battery, solar charge controller positive poles are all connected together, adopting negative MOSFET in series control circuit

## Ordering Information

Product Code	ECCO20A	ECCO30A
Max. Charge Current	20A	30A
Max. Discharge Current	20A	20A
System Voltage	12V / 24V	12V / 24V
PV Max. Input Voltage	55V	55V
Self - Consumption	≤12mA	≤12mA
LVD	11V ADJ. 9V...12V; x2 / 24V	
LVR	12,6V ADJ. 11V...15V; x2 / 24V	
Boost Voltage	14,4V; x2 / 24 Battery voltage less than 12,6V auto boost 2hours	
Battery Over Voltage Disconnection Voltage	16,5V; x2 / 24V	
Reverse Connection Protection	Yes	
Load Over Current Protection	Yes, each 30s auto restart again	
Charge Type	PWM	
Temperature Compensation	-24mV / °C for 12V system; x2 / 24V	
Working Temperature	-20°C --- +50°C	
Terminal Scale	14 ---6 AWG 10mm <sup>2</sup>	
Waterproof Grade	IP32	
Size	168 x 92 x 34mm	
Weight	320g	

\*Please under rated power using under high temperature environment.

## PV Connectors

### Stäubli MC4 MULTILAM Technology:

MULTILAM are specially formed, resilient copper-alloy contact elements that are silver or gold plated depending on their application, and are float mounted in a groove. Thanks to their constant spring pressure, MULTILAM louvers maintain continuous contact with the contact surface, resulting in a low and constant contact resistance. MULTILAM technology allows us to meet a very broad range of requirements and to find solutions within the severest constraints, including electrical (up to several kA), thermal (up to 350°C), and mechanical, with contact durability of up to 1 million mating cycles.

MC4 MULTILAM Technology

**NEW**  
1500V DC

- Snap-in lock
- Locking by safety lock clip PV-SSH4 in accordance with NEC 2011, can be released only with a tool
- Proven MULTILAM technology with high long-term stability, which ensures consistently low performance loss throughout the entire service life of the plug connector
- Tried and tested plug connectors, 12 years of experience in the field
- Available for assembly with cross-sections of 10mm<sup>2</sup>

### Female And Male Cable Coupler MC4-EVO 2 (1500V DC)

Female and male cable coupler as individual part (including insulating part)

Product Code	Description
32.0082P0001-UR	PV-KBT4-EVO 2 / 2,5I-UR, Female cable coupler, Crimp (1,5mm <sup>2</sup> - 2,5mm <sup>2</sup> ), Cable (OD 4,7mm - 6,1mm)
32.0083P0001-UR	PV-KST4-EVO 2 / 2,5I-UR, Male cable coupler, Crimp (1,5mm <sup>2</sup> - 2,5mm <sup>2</sup> ), Cable (OD 4,7mm - 6,1mm)
32.0086P0001-UR	PV-KBT4-EVO 2 / 6I-UR, Female cable coupler, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 4,7mm - 6,1mm)
32.0087P0001-UR	PV-KST4-EVO 2 / 6I-UR, Male cable coupler, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 4,7mm - 6,1mm)
32.0092P0001-UR	PV-KBT4-EVO 2 / 10III-UR, Female cable coupler, Crimp (10mm <sup>2</sup> ), Cable (OD 7,7mm - 8,5mm)
32.0093P0001-UR	PV-KST4-EVO 2 / 10III-UR, Male cable coupler, Crimp (10mm <sup>2</sup> ), Cable (OD 7,7mm - 8,5mm)

### MC4 Inline Connectors (1000V DC)

The MC4 is the benchmark solar connector. Easy to use and constructed of high quality materials. The patented multilam insert ensures the best possible electrical connection for 1000V DC connections. Available for PV cable sizes 4mm<sup>2</sup> – 10mm<sup>2</sup>.

Product Code	Description
*32.0014P0001-UR	PV-KST4 / 6I-UR, MC4 Inline, Female, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 3mm - 6mm)
*32.0015P0001-UR	PV-KBT4 / 6I-UR, MC4 Inline, Male, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 3mm - 6mm)
*32.0016P0001-UR	PV-KBT4 / 6II-UR, MC4 Inline, Female, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 5,5mm - 9mm)
*32.0017P0001-UR	PV-KST4 / 6II-UR, MC4 Inline, Male, Crimp (4mm <sup>2</sup> - 6mm <sup>2</sup> ), Cable (OD 5,5mm - 9mm)
*32.0034P0001	PV-KBT4 / 10II, MC4 Inline, Female, Crimp (10mm <sup>2</sup> ), Cable (OD 5,5mm - 9mm)
*32.0035P0001	PV-KST4 / 10II, MC4 Inline, Male, Inline, Crimp (10mm <sup>2</sup> ), Cable (OD 5,5mm - 9mm)

\*Please contact us for volume pricing! \*Available and stocked

### MC4 Panel Mount Connectors

The panels mount MC4 is commonly used in combiner box manufacture or as the connector of choice for inverter manufactures. The connector comes complete with the lock-ring and is available for PV cable sizes 4mm<sup>2</sup> – 10mm<sup>2</sup> for 1000V DC connections.

Product Code	Description
*32.0076P0001-UR	PV-ADBP4-S2 / 2,5-UR, MC4 Female, Crimp (1,5 - 2,5mm <sup>2</sup> )
*32.0077P0001-UR	PV-ADSP4-S2 / 2,5-UR, MC4 Male, Crimp (1,5 - 2,5mm <sup>2</sup> )
*32.0078P0001-UR	PV-ADBP4-S2 / 6-UR, MC4 Female, Crimp (4 - 6mm <sup>2</sup> )
*32.0079P0001-UR	PV-ADSP4-S2 / 6-UR, MC4 Male, Crimp (4 - 6mm <sup>2</sup> )

\*Please contact us for volume pricing! \*Available and stocked

32.007 FEMALE

32.007 MALE

## MC4 Branch Connectors (1500V DC)

The MC4 Y-connectors make it possible to parallel wire PV modules with Stäubli output cables. Maximum current rating allowed through connectors is 30A. Rated for 1000V DC. Connectors have an IP68 dust / waterproof rating.

Product Code	Description
<b>*32.0018</b>	PV-AZB4, MC4 In-Line branch connector: 1 male – 2 female
<b>*32.0019</b>	PV-AZS4, MC4 In-Line branch connector: 2 male – 1 female

\*Please contact us for volume pricing! \*Available and stocked

**NEW**  
1500V DC

## MC4 Safety Lock Clip PV-SSH4 MC4 (MC4 Accessories)

Safety lock – Locks the male and female MC4 connectors together to ensure they are not disconnected under load. The lock will require a special tool to unlock.

Product Code	Description
<b>32.5280</b>	PV-SSH4, MC4 Safety Clip (Requires PV-MS... Tool to unlock)

## Sealing Caps MC4 (MC4 Accessories)

Sealing Caps – Seals the male and female MC4 when not in use to protect against dust, water and insects.

Product Code	Description
<b>32.0716</b>	PV-BVK4, Suitable for MC4 Socket Side
<b>32.0717</b>	PV-SVK4, Suitable for MC4 Plug Side

\*Material TPE. \*Degree of protection: IP67

## Test Plug (MC4 Accessories)

This test plug is used to control the correct engagement of the contact in the insulation when assembling MC4

Product Code	Description
<b>*32.6028</b>	PV-PST Test Plug

\*Available and stocked

## Test plug MC4-Evo2

This test plug is used to control the correct location of the MC4-Evo2 contact in the insulation.

Product Code	Description
<b>32.6073</b>	PV-EVO-PST Test Plug

## MC4 Type Connectors System

Product Code	Product Code	Description
<b>4mm<sup>2</sup> Leads</b>	<b>6mm<sup>2</sup> Leads</b>	<b>Pre – Assembled Leads</b>
XPMC4PV1F4/2M	XPMC4PV1F6/2M	2m, Male to Female MC4
XPMC4PV1F4/5M	XPMC4PV1F6/5M	5m, Male to Female MC4
XPMC4PV1F4/8M	XPMC4PV1F6/8M	8m, Male to Female MC4
XPMC4PV1F4/10M	XPMC4PV1F6/10M	10m, Male to Female MC4
XPMC4PV1F4/12M	XPMC4PV1F6/12M	12m, Male to Female MC4

\*Other configurations available to order, please enquire.

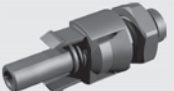

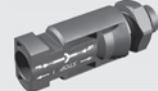

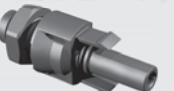

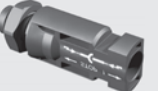

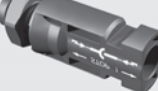

**Moulded Cable Assemblies**

Rubicon's moulded cable assemblies are designed to facilitate the fast, cost effective string combination of a PV installation. Commonly used on thin-film installations, they provide a good solution to combining many panels without the necessity of full combiner boxes. They are ideally suited to thin-film modules, where string currents are relatively low and module voltages are relatively high.

## MC4 Overview

MC4 PV cable connectors require special tools to properly attach the connectors. Single-purpose tools from Stäubli work with only that type of connector and are often the best option for installers who work only with modules that have that same connector type.

## MC4 Crimping Tools - Crimping Pliers for Private use PV-CZM-BS

Product Code	Description	Qty.
*32.6025	PV-CZM-BS, MC4 Crimping tool including die for 2,5mm <sup>2</sup> , 4mm <sup>2</sup> and 6mm <sup>2</sup> wire sizes	1
*Available and stocked   Suitable for the assembly of products approved by TÜV in small amounts.		

## Stripping Pliers

With length stop for conductor cross sections 1,5 mm<sup>2</sup>, 2,5 mm<sup>2</sup>, 4 mm<sup>2</sup>, 6 mm<sup>2</sup> and 10 mm<sup>2</sup>. Specially adapted for the Flex-Sol-Evo... PV cable, for stripping small cable quantities on the roof.

Product Code	Description
32.6027-156	PV-AZM-156, Pliers with Insert for cable cross section wire sizes 1,5; 2,5; 4; 6mm <sup>2</sup>
32.6027-410	PV-AZM-410, Pliers with Insert for wire sizes 4; 6; 10mm <sup>2</sup>
32.6057-156	PV-M-AZM-156, Spare insert for wire sizes, 1,5; 2,5; 4; 6mm <sup>2</sup>
32.6057-410	PV-M-AZM-410, Spare insert for wire sizes, 4; 6; 10mm <sup>2</sup>

## Crimping Pliers For Industrial Use PV-CZ...

Only the tools stated below may be used for the assembly of UL- and TÜV-approved products. These are suited for the processing of high numbers of pieces and can be adjusted to the product to be processed with the help of changeable locators and crimp inserts.

Product Code	Type	Designation	Crimp Range		Suitable For	
			mm <sup>2</sup>	AWG	MC4	MC4-Evo2
32.6020-18100	PV-CZM-18100	Crimping pliers incl. locator and insert	1,5; 2,5; 4	14; 12	×	
32.6020-19100	PV-CZM-19100		2,5; 4; 6	14; 12; 10	×	
32.6020-20100	PV-CZM-20100		4; 10	—	×	
32.6020-21100	PV-CZM-21100		6; 10	—	×	
32.6020-22100	PV-CZM-22100		—	12; 10; 8	×	
32.6020-40100	PV-CZM-40100		1,5; 2,5; 4	16; 14; 12		×
32.6020-41100	PV-CZM-41100		2,5; 4; 6	14; 12; 10		×
32.6020-42100	PV-CZM-42100		4; 10	12; 8		×

### Individual Parts, only for PV-CZM...

Product Code	Type	Designation	Crimp Range		Suitable For	
			mm <sup>2</sup>	AWG	MC4	MC4-Evo2
32.6021-18100	PV-ES-CZM-18100	Insert	1,5; 2,5; 4	14; 12	×	
32.6021-19100	PV-ES-CZM-19100	Insert	2,5; 4; 6	14; 12; 10	×	
32.6021-20100	PV-ES-CZM-20100	Insert	4; 10	—	×	
32.6021-21100	PV-ES-CZM-21100	Insert	6; 10	—	×	
32.6021-22100	PV-ES-CZM-22100	Insert	—	12; 10; 8	×

32.6021-41100	PV-ES-CZM-41100	Insert	2,5; 4; 6	14; 12; 10		×
32.6021-42100	PV-ES-CZM-42100	Insert	4; 10	12; 8		×
32.6040	PV-LOC	Locator	universal		×	
32.6055	PV-LOC-B	Locator	—	12; 10; 8	×	
32.6056	PV-LOC-C	Locator	universal			×

## Solar Connector Spanner

Product Code	Description
*32.6024	PV-MS, suitable for MC4, 2 Open-end plastic spanners,
*32.6058	PV-MS-PLS, MC4, MC4-EVO3 unlocking tool, incl. belt pouch 2 Open-end spanners, metal
9410888400	PV-MS-PLS/G, Unlocking tool
32.6075	PV-MS-EVO AC, MC4-EVO3, Unlocking tool

Econo Solar Crimp Set

Product Code	Description
*SOLARCRIMP	MC4 Economy Crimping Set (Crimps 4mm and 6mm cable)
*Available and stocked. The set includes strippers, plastic spanner and zip tool bags and crimper.	

CB-HS-700D

1416\*

Wire Strippers

This is a HS series cable stripper, which is an electrician tool and is suitable for peeling the external layer foreskin of a cable, comprising a knife frame, a knife blade arranged in the knife frame, a fixing and regulating mechanism for the knife blade, a tailstock connected with the knife frame, etc. The cable stripper has reasonable structure, and the peeled cable thread end is orderly. The utility model has convenient operation, is labor saving and safe and can not damage cable wires and human bodies.

Product Code	Description
CB-HS-700D	Wire stripper (0,25-2,5mm) automatic

Cutters

Cable Cutter PVC Pattern

High leverage jaws with shear cut blade. | Compact cutter fits into most tool pouches.

Product Code	Length
141640	160mm
141645	200mm
141650	250mm

## AC Combiner Box For Commercial Projects

### Specification:

A 3 compartment design, allowing clear, neat and spacious reticulation.

### A PV AC combiner supplied complete with:

- Class 1 surge protection
- Emergency shutdown function as standard (E-stop)
- Adjustable main grid interface circuit breaker
- 10kA 3 pole distribution miniature circuit breakers for each inverter
- Production metering with CT's
- Optional temperature controlled forced air cooling
- **Version 1:** Includes centre busbar chamber for distribution connections
- **Version 2:** No centre busbar chamber (distribution directly from AC MCCB) but includes a separate instrumentation chamber for metering, monitoring, modems, ethernet equipment or any other sensitive equipment

Product Code	Description
RUB-COMB-100KW-1	100kW Combiner Board, with centre busbar compartment
RUB-COMB-200KW-1	200kW Combiner Board, with centre busbar compartment
RUB-COMB-300KW-1	300kW Combiner Board, with centre busbar compartment
RUB-COMB-450KW-1	450kW Combiner Board, with centre busbar compartment
RUB-COMB-100KW-2	100kW Combiner Board, with instrumentation compartment
RUB-COMB-200KW-2	200kW Combiner Board, with instrumentation compartment
RUB-COMB-300KW-2	300kW Combiner Board, with instrumentation compartment
RUB-COMB-450KW-2	450kW Combiner Board, with instrumentation compartment

Product Code	Description
RUB-COMB-100KW-1	100kW Combiner Board, with centre busbar compartment
RUB-COMB-200KW-1	200kW Combiner Board, with centre busbar compartment
RUB-COMB-300KW-1	300kW Combiner Board, with centre busbar compartment
RUB-COMB-450KW-1	450kW Combiner Board, with centre busbar compartment
RUB-COMB-100KW-2	100kW Combiner Board, with instrumentation compartment
RUB-COMB-200KW-2	200kW Combiner Board, with instrumentation compartment
RUB-COMB-300KW-2	300kW Combiner Board, with instrumentation compartment
RUB-COMB-450KW-2	450kW Combiner Board, with instrumentation compartment

IP65 Outdoor enclosure, complete, user to specify distribution MCB quantity and sizes.

\*For fan cut outs add -F to end of product code (Includes ball-bearing fans in each compartment with thermostat and 1 vented side)

\*(IP20) For vented side only add -V to end of part number (IP20)

## DC Fuse Box For Commercial Projects

### Specification:

DC string fusing for large scale PV projects, used where inverters do not include string fusing and where combiner boxes are not used.

- Powder coated steel enclosure
- IP65
- 30A fuse holders on both + and - of each string
- Standard fuse size: 15A (others on request)

Product Code	Description
FB500-12	12 String Fuse Box
FB500-24	24 String Fuse Box

Product Code	Description
FB500-12	12 String Fuse Box
FB500-24	24 String Fuse Box

## DC Emergency Shutdown Box For Commercial Projects

### Specification: DC string emergency cutout

- Powder coated steel enclosure
- IP65
- NOARK 1000V DC MCBs with UVT
- rigging with E-stops or by AC MCB auxiliary
- 1000V DC per string

Product Code	Description
RUB-SOL-ESD6-16	6 String 1000V DC Shutdown Box, 16A per string
RUB-SOL-ESD6-25	6 String 1000V DC Shutdown Box, 25A per string

Product Code	Description
RUB-SOL-ESD6-16	6 String 1000V DC Shutdown Box, 16A per string
RUB-SOL-ESD6-25	6 String 1000V DC Shutdown Box, 25A per string

DC Combiner Boxes

Updated! Rubicon's popular DC string combiner boxes have been updated to include double pole fusing and DC disconnection devices.

Features:

- Type 2 Surge protection
- DC disconnect + and – pole fusing on each string
- MC4 string connections

Ordering Information

Product Code	Description
RUB-SOLAR-CB04-130VDC-DDF	Solar String Box - 4 String, 130V DC, disconnect, double fused
RUB-SOLAR-CB04-600VDC-DDF	Solar String Box - 4 String, 600V DC, disconnect, double fused
RUB-SOLAR-CB05-130VDC-DDF	Solar String Box - 5 String 130V DC, disconnect, double fused
RUB-SOLAR-CB06-1KVDC-DDF	Solar String Box - 6 String 1kV DC, disconnect, double fused
Custom sizes available up to 16 string and voltages up to 1500V – contact us for a quote on your configuration requirement.	

DC Combiner Boxes

Benefits

- 1000V DC gPV Fuses on positive (Size to be specified on order)
- 4kV 20kA surge protector with optional health monitor on Modbus
- Individually certified and tested
- Optional IP65 disconnect switch
- Optional individual blown fuse led indicator
- Optional Modbus RS485 Interface with individual current monitoring of each string

Product Code	Description
HTSCB031	3IN-1OUT - Fuse protection with 1000V DC T2 SPD only, no isolator
HTSCB051	5IN-1OUT - Fuse protection with 1000V DC T2 SPD only, no isolator
HTSCB061	6IN-1OUT - Fuse protection with 1000V DC T2 SPD and 1000VDC 63A isolator

RUB-SOLAR-CB04-130VDC-DDF

HTSCB031 with lid off

HTSCB031 with lid on

## Test Kit

With the Solarlink test kit, there is no need for several different instruments, at the press of a button the PV150 solar tester conducts all of the required electrical safety tests, and now Solarlink™ connectivity with the supplied Survey 200R multifunction irradiance meter enables the PV150 to wirelessly receive and record irradiance and temperature measurements in real time as required by international standards and best practise recommendations.

- Combines all PV electrical test functions into one tester
- USB download to PC
- Simple, fast and comprehensive PV testing
- Records irradiance and temperature simultaneously to electrical tests being conducted
- Stores up to 200 complete test records

Product Code	Description
396A910	The Solar Survey 100 / 200R Irradiance Meters (Basic version)
396A914	The Solar Survey 100 / 200R Irradiance Meters (Built in compass and inclinometer)
396A961	Solar Power Clamp meter
388A910	SolarCert Software
388A915	PV150 Solar PV Installation Tester
389A915	PV200 Solar PV Installation Tester with IV curve tracer
MinIR80	Thermal camera

## Apollo GEM-C

Produces free hot water from your Solar PV System. If you own a solar PV system it is probable that 50% or more of the electricity generated will be exported, that is given away, to the electricity grid. The Apollo GEM is an innovative solar energy management product that will use all the surplus power generated by your PV system to produce hot water. Every unit of power used to heat the hot water in this way reduces imported energy by the same amount resulting in a significant saving in imported energy costs.

GEM will work with any solar PV system and uses a standard immersion heater to produce free hot water. The advanced GEM controller ensures maximum usage of PV power that would have been exported. The system is simple to install and will not affect your feed-in tariff payments. GEM works with wind generation systems too!

### How does GEM work?

The GEM system works by accurately monitoring the power being imported or exported and always diverts sufficient power into the hot water system in order to keep the exported power to as near zero as possible whilst at the same time ensuring that no additional power is ever imported to supply the hot water store. Priority is always given to the energy demands of the household appliances and only surplus energy that would have otherwise been exported is stored in the hot water system.

## Specifications

Product Code	Description	Max. Load	Input Vol.	Output	Power Adjustment Period	Boost Function	Power Use	Dimensions H x W x Dmm
PP9044-V01	Apollo GEM-C (Compact & wireless)	3200W	215V - 255V AC	50W - 3200W	Every 2 Sec	1 or 2 Hrs	1W	145 x 115 x 50mm

Display: 4x LEDs – Import Power, Export Power, Heater Power, Max. Temperature

### Transmitter

Power	Range
215-255V AC	30-40M Indoor Range

### Current

Current Sensor	Current Rating
Non-invasive clip-on, 16mm max. cable diameter (35mm <sup>2</sup> CSA)	100A

## Solar-log 300 / 1200 / 2000

Just the right Solar-Log™ system for optimum monitoring, from small domestic installations to large your plant or what conditions are present on site, Solar-Log™ monitoring systems can be customised to your needs.

All Solar-Log™ devices are available with several different options and features for plant capacities up to 15kWp, 100kWp or 2000kWp. They are equipped with numerous features and options such as Touch screen Display, Power Management and mobile modems.

Product Code	Product	Type	Peak Power	Used With	Display
255574	Solar-log 300	Standard	Up to 15kWp	Small domestic installations	Mono info. LCD
255591	Solar-log 1200	Standard	Up to 100kWp	Small domestic installations and medium-sized plants	Mono info. LCD and colour production statistics
255592	Solar-log 2000	Standard	Up to 2000kWp	Solar power stations and large-scale PV plants	Mono info. LCD and colour production statistics

## Sensor Box Professional Plus IP65

The Sensor Box Professional Plus is equipped with a high-quality Mono-crystalline solar Cell. This very reliable and rugged sensor as well as the component parts are designed for long lasting outdoor use (IP65).

The Solar-Log™ continuously compares the production of the PV - Plant with the measurements of the sensor. If the Solar-Log™ detects a definable difference an error message will be generated.

Product Code	Supply Current	Operating Temp.	Dimensions W x H x D	Housing Material	Weight
220060	10mA	-20°C to +70°C	145 x 85 x 40mm	Powder-coated aluminum	360g

## Sensor Box Professional Plus IP65 Accessories

Product Code	Description
220061	Wind sensor for connection to the Sensor Box Professional Plus
220062	Ambient temperature sensor for connection to the Sensor Box Professional Plus

## Solar-Log™ Utility Meter

The Solar-Log™ Utility Meter is a universal metering device. It can be integrated in both low- and medium-voltage networks (via a transformer) and is needed for various tasks. In addition to voltage-dependent reactive power control Q(U),

it is also used for reactive power control at the feeding point and to record the data that is needed to send signals to the grid operator. It is also suited as a consumption meter for heavy loads.

Product Code	Description
255385	Janitza Utility Energy meter (requires Current Transformers – not included)

## Accessories

Product Code	Description
255346	Solar-Log Pro 1 Single Phase Energy Meter 45A
255913	Solar-Log Pro 380 3PH Energy Meter 100A
255422	Installation Housing for outdoor use, IP65
RUB-SL1	Solar-log Web Commercial portal 1 - 3kWp annual subscription (only required for commercial use)
RUB-SL2	Solar-log Web Commercial portal 4 - 10kWp annual subscription (only required for commercial use)
RUB-SL3	Solar-log Web Commercial portal 11 - 20kWp annual subscription (only required for commercial use)
RUB-SL4	Solar-log Web Commercial portal 21 - 50kWp annual subscription (only required for commercial use)
RUB-SL5	Solar-log Web Commercial portal 51 - 200kWp annual subscription (only required for commercial use)
RUB-SL6	Solar-log Web Commercial portal 201 - 1000kWp annual subscription (only required for commercial use)

## Home Energy Monitor

Smappee detects all of the important electric appliances in your home, as each one has a unique electrical signature.

Via the app, you'll get real-time readings of their use and cost, on your tablet or Smartphone. In short: Smappee makes saving easy, because you'll know exactly where your energy is going.

Product Code	Description
COMFORT PLUGS 3-PACK	3 Plugs for remote control with Smappee+1 Remote Control
COMFORT PLUGS 6-PACK	6 Plugs for remote control with Smappee+2 Remote Controls
CURRENT CLAMP, 100A, 16MM	Alternative current clamp for larger cables / Current supplies
CURRENT CLAMP, 200A, 24MM	Alternative current clamp for larger cables / Current supplies
SMAPPEE	1 / 3 P, without solar. 3x 50A Current Transformers included
SOLAR SMAPPEE	1 / 3 P, with solar. 6x 50A Current Transformers included
SMAPPEE PRO	For commercial solar monitoring

## Smappee Plus

- Our most efficient energy monitor for households.
- Know exactly how much it costs you to charge your electric car.
- See how much your heat pump consumes in real-time.
- Check the output of your solar panels.
- Save up to 30% on your energy bill.
- Remotely control your electrical appliances.
- Suitable for single-, two- and three-phase connections.

The Smappee Plus energy monitor has up to 9 dedicated inputs for CT's. Depending on your electrical installation, you can measure 6 to 8 sub-circuits that consist of certain appliances or a group of appliances separately. It's the perfect solution to gather the most accurate energy data down to appliance level and to know more about appliances with a variable capacity, such as a heat pump or an EV charger.

## PV String Monitoring Hardware

Established in 2005, Monsol specialises in the design and manufacturing of (PV) energy monitoring software and devices

- Non-intrusive current measuring by Hall effect system (shunt version avail. on request)
- 1000V and 1500V DC compatible
- Exhaustive monitoring: 60 readings per minute and per string
- Standard Modbus RTU protocol
- Transient voltage protected
- Surge protection
- 3kV isolation
- Manual selection of Modbus address by microswitch
- LEDs for Power indication and data flow
- Surge protection
- Transient voltage protected
- Polarity reversal protection
- PCB thickness of 2mm suited for industrial handling
- Innovative High Current PCB manufacturing technology
- Busbar current up to 240A without external copper busbar
- Electroless nickel immersion gold finish for maximum conductivity
- Auto-detection of extension modules (Plug and Play)
- 2 years warranty
- Security epoxy resin over moulding and tropicalised PCB

## Features And Performance

Each device monitors up to 32 strings (1 master +3 slaves)

### Monsol 1000 / 1500 (String current monitoring)

Number Of Channels	Up to 32 channel
Number Of Strings	Up to 64 strings
Max. Current Per Channel	30A DC (2 strings parallel)
Max. Measurement Range	±20A
Rated Voltage	Up to 1,500V
Current Measurement Error	±1% (14 bits)
Communication	Modbus RTU over RS485
Number Of Digital Inputs	2 Optoisolated digital inputs
Number Of Analogue-To-Digital Inputs	1 Input for the external temperature sensor (PT100)
Elevation	2,000m
Operating Temperature	Min. -30°C, Max. 70°C
Supply Voltage	24V DC ± 10% with 3kV isolation
Extras	Monsol Meteo® extension 4,20mA module with 3 high accuracy inputs (4...20mA)

Monsol 1500 Volt® extension module for voltage measuring up to 1500V DC

## Ordering Information

Product Code	Description
M15HM	Hall Master Device
M15HS	Hall Slave Device
M15HV	Hall Voltage Device
M15S24	Shunt Device
M15PSDC	1500V DC / 24V DC Power Source
CCM1	Current sensor Submetering single-phase (pending of data sheet)
CCM2	Current sensor Submetering three-phase (pending of data sheet)

Loggers

Higeco's GWC loggers are the most flexible, user friendly RS485 MODBUS loggers on the market, suitable for a multitude of tasks. Out of the box, they can log temperature, power, energy, pressure, wind speed or any other parameter from a supported Modbus slave device. Included is native support for a variety of energy meters, inverters and other devices. With both self-contained local logging or optional cloud-based paid storage and remote management, GWC loggers work in every situation.

They also support input / output devices on the bus, which can be used for management of loads according to specified conditions – for example, turning lighting or A / C on and off according to your needs.

GWC 4 DIN

GWC 2 DIN

Features

Product Code	GWC 4 DIN	GWC 2 DIN
Maximum Slave Devices	256	5
Display	2 line LCD	-
Rs485 Modbus Interface	1 + 1	1
Ethernet Interface	Y	Y
Usb Host	Y	Y
GSM / 3G	Optional USB	Optional USB
Local Input	3	2
Local Output	1	1

Optional Software Add-ons:

- 1 year remote monitoring subscription
- Energy logger specialty package
- PV logger specialty package
- Remote monitoring and unlimited logger storage
- Optional dedicated energy monitoring interface
- Optional PV monitoring interface

Ordering Information

Product Code	Description
GWC 4 DIN	Fully functional basic logger, up to 128 Slaves
GWC 2 DIN	Fully functional basic logger, up to 5 Slaves

Popular devices and brands compatible with GWC2 / 4 Loggers:

- SMA inverters and sensors
- ABB / PowerOne string inverters
- Friem Centralised inverters
- Studer inverters and charge controllers
- ITRON meters
- Kaco inverters
- Landis meters
- Fronius inverters
- Dixell I / O
- Delta PLCs
- Danfoss inverters
- AEG inverters
- Victron
- Various circuit breakers, string boxes and environmental sensors
- Many other devices...

## MODBUS Slave Devices

QEED provide many HIGECO supported slave sensors, which measure parameters, gather data and provide it to the GWC loggers for storage / analysis over MODBUS RS485.

## 3-Phase Energy Analysers

QEED's 3 phase energy analysers provide all standard 3-phase energy parameters both locally on a display and to

the logger over MODBUS, including: Voltage, current, active, reactive and apparent power, power factor, frequency, active and reactive energy.

Product Code	Description
<b>QC-POWER-T-TA</b>	Up to 90A direct measurement analyser, 7 DIN (No CT's required)
<b>QC-POWER-T-RS485</b>	9999A external CT analyser, 4 DIN (1 x 5A CT required per phase)
<b>QC-POWER-3PC</b>	2000A external CT analyser, 4 DIN (1 x 5A CT required per phase) bi-directional

Detailed data sheets available on request for all analysers.

## Passive Current Transformers

Traditional current transformers, used for non-invasive, non-contact measuring current in AC conductors. All have a 5A secondary winding, except the Rogowski coil.

Product Code	Description
<b>QI-SC-24-100/5</b>	100 / 5A Split Core Current Transformer
<b>QI-SC-24-200/5</b>	200 / 5A Split Core Current Transformer
<b>QI-SC-36-300/5</b>	300 / 5A Split Core Current Transformer
<b>QI-SC-36-400/5</b>	400 / 5A Split Core Current Transformer
<b>QI-SC-36-500/5</b>	500 / 5A Split Core Current Transformer
<b>QI-SC-36-600/5</b>	600 / 5A Split Core Current Transformer
<b>QI-50/5-1</b>	50 / 5A Fixed CT Primary Circuit at 50A, hole 20mm
<b>QI-60/5-1</b>	60 / 5A Fixed CT Primary Circuit at 60A, hole 20mm
<b>QI-80/5-1</b>	80 / 5A Fixed CT Primary Circuit at 80A, hole 20mm
<b>QI-100/5-1</b>	100 / 5A Fixed CT Primary Circuit at 100A, hole 20mm
<b>QI-150/5-1</b>	150 / 5A Fixed CT Primary Circuit at 150A, hole 20mm

## MODBUS Slave Devices

### Active current transformers with voltage and or power measurement:

Single current transformer and voltage measurement terminals, all with integrated Modbus communication. All are DIN rail or foot mounted and require 24V DC.

Product Code	Description	Example Usage
<b>QI-50.V-485</b>	TRMS AC / DC, 50A, 0 - 10V	Inverter output current (requires transformer for voltage measurement).
<b>QI-300.V-485</b>	TRMS, 230A AC / 300A DC, 0 - 10V	House current usage (requires transformer for voltage measurement).
<b>QI-POWER-485</b>	50A AC / DC, 800V AC or 1000V DC, Irms, Vrms, Watt, Var, Va, Vpk, IPk, Frequency, Cosφ, Bidirectional energy and THD.	<ul style="list-style-type: none"> <li>Solar string monitoring</li> <li>AC energy and power analysis</li> </ul>
<b>QI-POWER-485-300</b>	300A AC / 400A DC, 800V AC / 1000V DC, Irms, Vrms, Watt, Var, Va, Vpk, IPk, Frequency, Cosφ, Bidirectional energy and THD.	<ul style="list-style-type: none"> <li>Solar combiner output</li> <li>AC energy and power analysis</li> </ul>
<b>QI-POWER-485-300-LV</b>	300A AC / 400A DC, 80V AC / 100V DC.	Battery bank monitoring

\*These devices require user to have a Q-USB or similar USB-RS485 serial converter to program bus addresses or other parameters. See accessories.

## Other Bus Slaves And Signal Converters

Various other supported interfaces are available for monitoring industry standard field instruments and sensors. All are DIN rail mounted modular format and require 24V DC.

Product Code	Description	Input	Output
QA-VI	Isolated Voltage and Current Converter, Analogue Output, Relay	0 - 10V and 0 - 20mA DC	RS - 485 Modbus 0 - 10V and 0 - 20mA DC Dry contact USB
QA-TEMP	Isolated Universal Temperature Converter (RTD, TC), Analog Output, Relay	Pt100, Pt500, Pt1000, Ni100, J, K, R, S, T, B, E, N type thermocouples	RS-485 Modbus 0 - 10V and 0 - 20mA DC Dry contact USB
QA-OMNI	Isolated Universal Signal Converter (V, I, Frq, Temp, Potentiometer)	0 - 10V and 0 - 20mA DC Pt100, Pt500, Pt1000, Ni100, J, K, R, S, T, B, E, N type thermocouples. Frequency.	RS-485 Modbus 0 - 10V and 0 - 20mA DC Dry contact USB
QA-POWER-M	Single phase power analyser / meter	1000V DC / 600V AC, 10AAC / DC (more with external CTs)	RS - 485 Modbus 0 - 10V and 0-20mA DC Dry contact USB
QE-CURRENT-485	All-in-one current converter / analyser.	1A / 5A or + / -10V DC 0,333V DC transducers, Rogowski probe	RS - 485 Modbus

\*These devices require user to have a Q-USB or similar USB-RS485 serial converter to program bus addresses or other parameters. See accessories.

## Accessories

Product Code	Description
Q-USB	USB to Serial Converter for programming QEED devices (bus address etc.)

## Power Supply (1000V DC and 1500V DC)

### 1000V DC

High voltage DC / DC power supply unit with wide input range, designed to supply monitoring devices of photovoltaic power plants directly from the generator strings. Low self-consumption / Safe separation of primary – secondary circuits / secondary circuits SELV type / LED operation indication / DIN rail mount.

### 1500V DC

High voltage DC / DC power supply unit. Safe separation of primary and secondary circuits, secondary circuits SELV type. LED operation indication / DIN rail mount.

### Technical Parameters

	Product Code	SS-10-240.DIN	SS-10-240.DIN.1K5
Input data	Input Voltage	300V DC - 1000V DC	300V DC - 1500V DC
	Input Current	DC 40mA max.	DC 40mA max.
	Reverse Polarity Protection	Yes	Yes
	Input Fuse	Yes (internal)	Yes (internal)
	Input Voltage Start Ramp	Any Slope	Any Slope
Output Data	Output Voltage	24V DC (+ / -7%) including line and load regulation	24V DC (+ / -7%) including line and load regulation
	Output Current	400mA max.	400mA max.
	Output Power	10W	10W
	Power Derating	-2% / °C from 50°C - 70°C	-2% / °C 50°C to 70°C
	Short-Circuit Protection	Yes (auto resume)	Yes (auto resume)
	Max. Residual Ripple	<200mV	<150mV

## Comb Busbars

### Acti 9 – Cutable

- Comb busbars make it easier to implement Schneider Electric products
- Can be sawn and cut in a single pass, using Busbar chocks
- Supplied with two IP20 lateral end-pieces
- The end-pieces are compulsory during cutting
- The phases are identified by symbols on each side of the comb Busbar
- Cutting marks on the insulating material
- The spare teeth can be insulated with tooth covers
- Power supply by connector recommended

Energy Storage

Tesla Powerwall 2 is a fully-integrated AC battery system for residential or light commercial use. The fully rechargeable lithium-ion battery pack provides energy storage for solar self-consumption, load shifting and backup power. It also has a built in battery inverter, and comes with an energy gateway for managing Tesla and distribution board communications.

Tesla Powerwall 2 achieves market leading energy density in a compact design, enabling the owner to fully utilise their clean power production. Powerwall 2 can be installed with new solar installations or existing installations and can be wall or floor mounted. Please contact us for information on compatibility with a new or existing solar inverter system.

Tesla Powerwall 2

Product Code	Description
Powerwall2	Tesla Powerwall 2, 13,5kWh, Li-ion battery pack, Tesla Backup Gateway is included

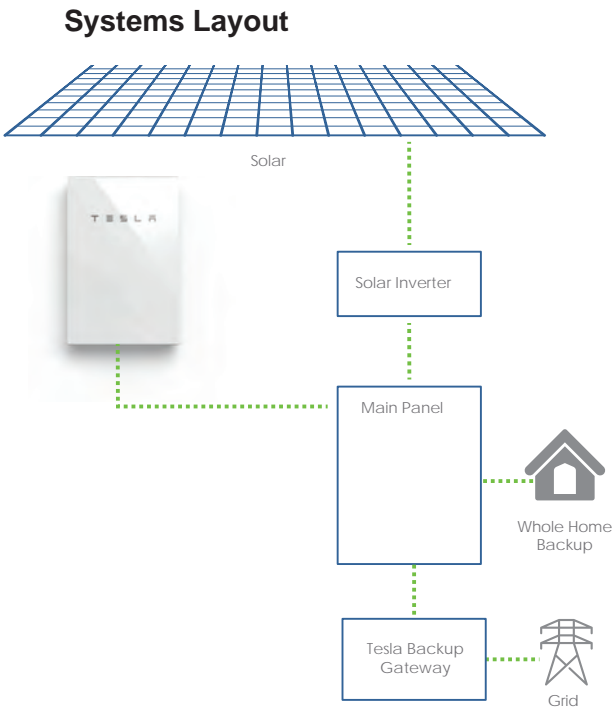

\*Please note: Tesla products and kitted solutions may only be sold to Tesla Powerwall Certified Installers

Systems Components

Monitor your energy from the comfort of your phone

### Performance Specifications

AC Voltage (Nominal)	230V
Feed-In Type	Single
Grid Frequency	50 Hz
AC Energy <sup>1</sup>	13,5kWh
Real Power, Max. Continuous <sup>2</sup>	5kW (charge and discharge)
Real Power, peak (10 s) <sup>2</sup>	7kW (discharge only)
Apparent Power, Max. Continuous <sup>2</sup>	5,8kVA (charge and discharge)
Apparent Power, Peak (10 s) <sup>2</sup>	7,2kVA (discharge only)
Imbalance for Single-Phase Loads	100%
Power Factor Output Range	+ / - 1,0 adjustable
Power Factor (Full-rated power)	+ / - 0,85
Depth of Discharge	100%
Internal Battery DC Voltage	50V
Round Trip Efficiency <sup>1,3</sup>	90,0%
Warranty	10 years

<sup>1</sup>Values provided for 25°C, 3,3kW charge / discharge power.  
<sup>2</sup>Values region-dependent. | <sup>3</sup>AC to battery to AC, at beginning of life.

### Environmental Specifications

Operating Temp.	-20°C to 50°C
Storage Temperature	-30°C to 60°C
Operating Humidity (RH)	Up to 100%, condensing
Maximum Altitude	3 000m
Environment	Indoor and outdoor rated
Enclosure Type	NEMA 3R
Ingress Rating	IP67 (Battery & Power Electronics) IP56 (Wiring)
Noise Level @ 1m	<40 dBA at 30°C

### Mechanical Specifications

Dimensions	1150 x 755 x 155mm
Weight	122kg
Mounting Options	Floor or Wall Mount

### Backup Gateway Specifications

User Interface	Tesla App
Connectivity	Wi-Fi, Ethernet, 3G
AC Meter	Revenue grade
Operating Modes	Support for wide range of usage scenarios
Backup Operation	Optional automatic disconnect switch
Modularity	Supports up to 10 AC-coupled Powerwalls

### Compliance Information

Safety	UL 1642, UL 1741, UL 1973, UL 9540, UN 38.3, IEC 62109-1, IEC 62619, CSA C22.2.107.1
Grid Standards	Worldwide Compatibility
Emissions	FCC Part 15 Class B, ICES 003, EN 61000 Class B
Environmental	RoHS Directive 2011/65/EU, WEEE Directive 2012/19/EU, 2006/66/EC
Seismic	AC156, IEEE 693-2005 (high)

Powering Business Worldwide

xStorage Home Single Phase System Combinations Overview

Features

- Increasing power bills
- Variable electricity rates
- Power outages
- Potential natural disasters
- Intermittent solar pv production
- Decreasing incentives for solar pv production

How xStorage Works?

**Used to provide Grid Services:** xStorage Home could charge from the grid or discharge to the grid in order to generate the flexibility needed to further increase the penetration of renewable energy

**Renewables:** xStorage Home can store energy from your renewables installation (Solar panels, wind power, subfloor heating...) and allow to use that energy for your home when you need it

**xStorage Home:** The battery stocks both grid and renewable energy during the day, allowing you to source it how you want and when you want. Thanks to Nissan + Eaton technology, you have the power (and can even give some back to the grid as well).

**Redistribute over production of renewables:** Sometimes, your renewables are producing more energy than needed to power the load. Therefore, xStorage Home injects the energy back into the grid when the demand is high.

Ordering Information

Product Code	Battery Capacity (nominal)	AC Inverter Power (nominal)	Max. Recommended PV Input Power	Full System Weight (appr.)	Full System Dimensions (appr.) (HxWxD)
X Storage 6-6	6kWh	6kW	4.8kW	135kg	1230x890x220mm
X Storage 6-7.5	7.5kWh	6kW	4.8kW	135kg	1230x890x220mm

## Battery Pack

Nominal	6kWh
Cell Chemistry	NMC (lithium nickel manganese cobalt oxide)
Max Charge/Discharge Current DC	54A
DC Battery Input Voltage	74.4 - 98.4V
Overcharge Protection	Fuse + Contractor
DoD	90%
Warranty – Battery Life Time	10 years (1 full cycle per day i.e., charge and discharge)
Dimensions(HxWxD)	442x781x175mm
Weight	83kg

## Hybrid Inverter For 6kWh Battery Pack

PV Input (DC)	Inverter Power Range	6kW
	Max. DC power	4.8kW
	Maximum DC Voltage	500V
	Nominal DC Operating Voltage	100 - 500V
	MPPT Max. Voltage Range	240 - 500V
	Max. Input Current	20A
	Initial Feeding Voltage	150V
	Number of MPP Trackers	1
Load/Grid Output (AC)	Nominal Output Power	6000W
	Nominal AC Output Current	26.1A
	Max. AC Current	29A
	AC Wiring System	Single phase/N/PE, TN, TT, IT (additional fuse or CB required)
	Power Factor	0.99 (Grid-Tie), $\pm 0.9$ (Off-Grid)
Efficiency	MPPT Efficiency	>99%
	Maximum Efficiency (Battery to AC)	>90%
	PV to Grid Max. Efficiency	97%
	Standby Losses	<10W
Physical Properties	Dimensions (HxWxD)	515x796x182mm
	Weight	37kg

## Delta All-In-One Storage Solutions

The Hybrid E5 energy storage system consists of a single phase 5kW hybrid inverter, a separate battery cabinet equipped with a high capacity 6kWh Li-Ion battery, Power Meter and Smart Monitor. The Hybrid E5 storage system has been designed to integrate seamlessly with the battery and features dual MPPT, a standalone function and a high charging efficiency of up to 97%. This is made possible as the inverter can send DC electricity generated by the PV system directly to the battery, without any additional power conversion steps or equipment required. The E5 inverter and battery cabinet are compact and separate from each other, allowing for greater flexibility and simplified installation. The Power Meter measures energy flow and displays the data on the Smart Monitor, which can be used to control the system operation modes to maximise use of self-generated solar energy.

### 1. Hybrid Inverter

The E5 inverter is a true hybrid battery-ready inverter. Acting as a traditional inverter with the one exception that it can deliver energy during a power outage provided your solar array is generating electricity, even without batteries.

### 2. Battery

Pair the BX6.0 to the E5 and you have instant "Energy Security" for when the grid lets you down. Also, saving you money by storing your free solar energy for use later on.

### 3. Power Meter

The P1E and P3E can measure your energy purchased, exported, stored and self consumed. The R4 will display this in real time as it happens. P1E is for single-phase systems and P3E for three-phase systems.

### 4. Smart Monitor

The R4 brings a new dynamic to managing your energy. Choose when and how you want energy delivered. View the real time status of your battery and consumption.

## Input / Output Interface

## Designed For Battery Safety

- Safe and Powerful
- Floor or Wall Mounted
- Water-resistant and dustproof
- Extremely Quiet
- Solid Protection

## Hybrid Inverter

BX6.0

<b>Model:</b> E5	<b>Product Code</b>	<b>BX6.0</b>
<b>DC Input</b>	<b>Rated Voltage</b>	370V DC
	<b>Recommended PV Power</b>	7kW
	<b>MPPT</b>	2
	<b>Max. Input Current</b>	2x 12A DC
	<b>Operating Voltage Range</b>	100V DC ~ 550V DC
	<b>MPP Voltage Range</b>	220V DC ~ 450V DC

<b>AC Output</b>	<b>Rated Output Power</b>	5000VA
	<b>Rated Voltage</b>	230V AC
	<b>THD</b>	< 3% at rated power

<b>Standard Power With Battery &amp; Solar</b>	28A (on critical load)
<b>Maximum Power Only Solar*</b>	5,0kW
<b>Standalone Power With Battery Only</b>	3,6kVA
<b>Nighttime Consumption</b>	<30W with battery; without battery <10W
<b>Communication</b>	Wi-Fi (option) / RS-485
<b>Dimensions(Unit)</b>	510 x 445 x 177mm
<b>Weight</b>	27kg

## Battery

RPI502E121000

<b>Product Code</b>	<b>RPI502E121000</b>
<b>Battery Supplier</b>	Panasonic
<b>Nominal Capacity</b>	6kWh
<b>Maximum Capacity</b>	6,4kWh
<b>Usable Capacity (80% DoD)</b>	4,8kWh
<b>Cycle Stability (80% DoD)</b>	6000
<b>Voltage Range</b>	85 ~ 104V DC
<b>Nominal Charging Power</b>	2,5kW
<b>Nominal Discharging Power</b>	3kW
<b>Max. Charging Current</b>	30A
<b>Max. Discharging Current</b>	35A
<b>Battery Technology</b>	Li-ion
<b>Dimensions</b>	552 x 596 x 200mm
<b>Weight</b>	75kg
<b>Enclosure Rating</b>	IP55
<b>Installation Type</b>	Indoor / outdoor (For longer battery life it is recommend the battery is used indoors)

## RES Advance Range

### Technical Information

Systems Sunlight are manufacturers of high grade industrial and renewable energy batteries. Locally stocked and supported are their specifically developed RES- OPZS and RES-OPZV renewable energy series' of batteries. Sunlight's high quality, long life and excellent performance are make renewables projects perform at their peak.

## BlueNova LiFePO4 Batteries

BlueNova's range of Lithium-Ion batteries achieve robustness, safety and reliability through the use of LiFeYPO4 (Lithium Iron Yttrium Phosphate) cell chemistry and careful engineering. With a design life well in excess of 10 years, this is a technology worth investing in.

Convenient features such as on-board display for monitoring performance variables, integrated energy meter and serial communication over CANBUS. While compatible with leading inverters, they can be used in managed or in unmanaged configurations for drop-in replacement of lead batteries\*. The convenient Automatic pre-charge circuit and built-in fuse & DC isolator make it hard to beat.

### Ordering Information

### IMPI

BlueNova's Impi all-in-one Inverter-charger- battery solution is a market first, with many convenient features, even including outlet sockets. It can be used with or without PV modules, depending on your requirements.

Product Code	Description
Impi-26V-3000VA-600W-2k	24V 3kva inverter, 600W MPPT, 2kWH LiFePO4 battery
Impi X-26V-3000VA-1500W-2k	24V 3kva inverter, 1500W MPPT, 2kWH LiFePO4 battery
Xtenda module	2kWH LiFePO4 battery
Xtenda X module	2kWH LiFePO4 battery, 100V 30A MPPT charger

**Rubicon Hybrid Inverters**

**Hyper Series Hybrid Inverter**

The Hyper 5000 is a high-performance solar-battery hybrid inverter for homes.

Hyper Series can operate in both on-grid and off-grid modes, which is ideal for all the areas whether there is grid or not.

RB-5KW-HB-65

AC Ratings	Product Code	RB-5KW-HB-65
	Rated AC Power	5000VA
	Rated AC Voltage	230V AC
	AC Voltage Range	180 – 264V AC
	AC Frequency	50 / 60Hz
	Max. AC Current To Grid	21,7A
	Max AC Current To Grid	30A
	Power Factor Range	-0,8~+0,8

Solar Lighting

## iSSL+ All in one solar streetlight

### HORIZONTAL SOLAR PANELS

Dedicated to inter-tropical and tropical areas.  
Anti dust and self cleaning coating.  
No dirt accumulation.

### HIGH PERFORMANCE NIMH BATTERY

12 years lifespan (40°C constants) according IEC 61427 standards.

### SUNNACORE

Smart lighting and battery management system. Patented algorithms to maximise energy use and battery lifetime preservation. Connection via bluetooth to a mobile phone application, the Sunnapp'.

### LED MODULE

0° to 30° tilting

### VANDAL-PROOF

Anti-theft screws (optional)

#### Key Features

- No blackout feature
- Remote monitoring and communication
- Plug and play
- Unique resistance to extreme climates

## Lighting

Efficiency	Up to 164lm / W
Colour Temperature	5700K (3000K et 4000K available on demand)
Life Span	50 000 hours (12 years)
Max. Power	Up to 25W*
Nominal Power	10W
Motion Sensor	Optional

\*autonomy will depend on lighting power

## Photovoltaic Panels

Technology	Mono-crystalline photovoltaic panels
Power	50Wp
Life Span	25 years

## Battery

Technology	NiMH high temperature Nickel metal hydride
Voltage	12V
Autonomy	2 days at nominal power
Life Span	12 years

## General

Dimensions	1050 x 375 x 105mm
Fixation	Top or Side Mounting, Ø60mm
Weight	13kg (without pole)
Protection	IP65
Working Temperature	-20°C to +70°C
Connectivity	Bluetooth
Remote monitoring	Optional

Dimensions	1050 x 375 x 105mm
Fixation	Top on a pole, Ø60mm
Weight	12kg (without pole)
Protection	IP65
Working Temperature	-20°C to +70°C
Connectivity	Bluetooth
Remote Monitoring	Optional

Order Information

Product Code	Description
SD4140 000 000	UP1
SD4140 100 000	UP1 - motion sensor

## UP2 Ultra performance solar streetlight

**ANTI BIRD SPIKES (Optional)**

### TILTED SOLAR PANELS

Dedicated to temperate areas.  
Anti dust and self cleaning coating.  
No dirt accumulation.

### HIGH PERFORMANCE NIMH BATTERY

12 years lifespan (40°C constants)  
according IEC 61427 standards

### SUNNACORE

Smart lighting and battery management system.  
Patented algorithms to maximise energy use and battery lifetime preservation.  
Connection via bluetooth to a mobile phone application, the Sunnapp<sup>®</sup>.

### VANDAL-PROOF

Anti-theft screws (optional)

### HIGH EFFICIENCY LED LANTERN

164 lm / W

### Key Features

- No blackout feature
- Remote monitoring and communication
- Plug and play
- Unique resistance to extreme climates

## Lighting

Efficiency	Up to 164lm / W
Colour Temperature	5700K (3000K et 4000K available on demand)
Life Span	50 000 hours (12 years)
Max. Power	Up to 50W*
Nominal Power	20W
Motion Sensor	Optional

\*autonomy will depend on lighting power

## Photovoltaic Panels

Technology	Mono-crystalline photovoltaic panels
Power	80Wp (2x 40Wp)
Life Span	25 years

## Battery

Technology	NiMH high temperature Nickel metal hydride
Voltage	24V
Autonomy	2 days at nominal power
Life Span	12 years

## General

Dimensions	820 x 755 x 105mm
Fixation	Top on a pole, Ø60mm
Weight	19kg (without pole)
Protection	IP65
Working Temperature	-20°C to +70°C
Connectivity	Bluetooth
Remote Monitoring	Optional

## Order Information

Product Code	Description
SD4240 000 000	UP2
SD4240 100 000	UP2 - motion sensor

## UP4 Ultra performance solar streetlight

### ANTI BIRD SPIKES (Optional)

### TILTED SOLAR PANELS

Dedicated to temperate areas.  
Anti dust and self cleaning coating.  
No dirt accumulation.

### HIGH PERFORMANCE NIMH BATTERY

12 years lifespan (40°C constants)  
according IEC 61427 standards

### SUNNACORE

Smart lighting and battery management system.  
Patented algorithms to maximise energy use and battery lifetime preservation.  
Connection via bluetooth to a mobile phone application, the Sunnapp<sup>®</sup>.

### VANDAL-PROOF

Anti-theft screws (optional)

### HIGH EFFICIENCY LED LANTERN

164 lm / W

### Key Features

- No blackout feature
- Remote monitoring and communication
- Plug and play
- Unique resistance to extreme climates

## Lighting

Efficiency	Up to 164lm / W
Colour Temperature	5700K (3000K et 4000K available on demand)
Life Span	50 000 hours (12 years)
Max. Power	40W to 80W*
Nominal Power	20W

\*Only available if specified in advance

## Photovoltaic Panels

Technology	Mono-crystalline photovoltaic panels
Power	160Wp (4x 40Wp)
Life Span	25 years

## Battery

Technology	NiMH battery, maintenance free, very high temperature resistance
Voltage	24V
Autonomy	-
Life Span	12 years

## General

Dimensions	820 x 755 x 105mm
Fixation	Solar engine: Top mounting Ø76 mm; Luminaire: horizontal bracket
Weight	42kg (without pole)
Protection	IP65
Working Temperature	-20°C to +70°C
Connectivity	Bluetooth
Remote Monitoring	Optional

## Order Information

## Sunnapp' Supports You

**INSTALLATION AND COMMISSIONING SUPPORT**

**LIGHTING PROFILES MANAGEMENT**

**DATA LOG & PERFORMANCES MONITORING**

**REGISTRATION AND MAPPING OF INSTALLED DEVICES**

## Sunna Cloud: Remote Management

This web management platform gives an overview on products localization and data collected via the Sunnapp'. It's a complete solution for devices management, allowing to track performances and to help distributors or local technicians in case of problems with the lights.

**AVAILABLE Q3 2018**

- PROJECTS DATABASE
- REMOTE MANAGEMENT
- REMOTE MONITORING
- TRACKING OF INCIDENTS

## Innovative Lighting Program

The Sunnacore powers the Led modules using a smart lighting profile to avoid blackouts during the night. Nights are divided into 3 phases during which lighting level will depend on charge level.

Thanks to a dynamic and smart energy consumption, our products will work all year long and in any weather condition.

To maximise energy consumption. Our products can have a motion sensor in option. The lighting level will increase as soon as a vehicle or a pedestrian is detected.

## Anti-Theft

Vandalism is a major risk for solar street lights. Most competitors face troubles because they are using valuable and standard components such as standards sized solar panels or batteries. Sunna products are using only very specific components. They can't be used separately making them less valuable. Nevertheless, every Sunna product can be secured by using anti-theft fixations such as anti-theft screws and self-breaking nuts. This option can be purchased separately.

iSSL+ - Secondary Road, South Africa

iSSLmaxi AREA - Packing lots, Area Mayotte

UP2 - Urban streets, Bénin

# Electric Vehicles

EVBox products are manufactured in the Netherlands and North America, and offer a complete range of charging solutions. Customers can choose from our full range of AUTOSTART devices or “online” devices.

The below overview indicates our base models according to application.

## HomeLine

## Technical Features

Charging Capacity Per Connector	3,7kW, 7,4kW, 11kW, 22kW
Charge Mode	Mode 3, Z.E. Ready
Connector Type	Type 2
Number Of Connectors	1
CE Certified	Yes
Output Power	1-phase or 3-phase, 230V – 400V, 16A and 32A
Temperature Range	-25°C to +60°C
Moisture (Non-Regulating)	Max. 95%
Authorization	Auto START / Keyfob / RFID card
Information Status	LED ring
Communication	GPS / GSM / UMTS / GPRS Modem / Controller with RFID reader
Communication Protocol	OCPP 1,2, 1,5 and 1,6

## Physical Properties

Designed According To	IEC 61851-1 (2010), EC 61851-22 (2002), Renault Z.E. Ready guidelines
Protection	IP54, IK09
Installation Instructions	NEN 1010, IEC 61851-1 (2010), IEC 61851-22 (2002), IEC 60364-4-41 (2007), EN 62196-1 (2003), EN 60335-1 (2012), AC (2014)
Housing	Polycarbonate (Bayblend)
Dimensions (L x W x H)	490 x 315 x 170mm
Weight	8kg (Max.)
Mounting	Wall or pole
Standard Colours	RAL 6024 (light green), RAL 6007 (dark green), RAL 5017 (blue), RAL 7042 (light grey), RAL 7016 (dark grey), RAL 9016 (white)
Optional	6 or 8 meter fixed cable

All online charging stations include a MID-certified kWh meter.

## Ordering Information For 3,7kW - 22kW

Ordering Information For 11kW and 22kW

Product Code	Description
EVB-P11   EVP-H22	EV Public Charger Station

Designed and manufactured in the UK, EO Charging build smart energy technologies. Electric Vehicle charging points designed for homes, workplaces and destinations. Plus eoHUB, their revolutionary smart energy device – which puts up to 30 chargers online, unlocking EO's software capabilities and in the near future - solar battery storage, smart-grid and smart-home integration.

## Basic Chargers For Home, Work & Destination

### EO MINI

The eoMini is the smallest fast charger on the market; designed and built specifically for charging-up at home.

#### Features

- Power Ratings: 3,6kW / 7,2kW
- Plug Type: Universal Socket (charges every EV on the market)
- Standard Colours: Silver / Black / White
- Branding Options: Pick any colour and add your logo
- 3 year product warranty

Product Code	Product	kW	Amps	Connectivity
EM001	eoMINI home charger - socket	3,6kW	16A	Nil
EM002	eoMINI home charger - socket	7,2kW	32A	Nil

## eoBASIC

The eoBASIC charger is designed for charging-up at home. With no software, just plug in and instantly get a charge. No nonsense. Just a simple plug and play charging solution.

### Features

- Power Ratings: 3,6kW / 7,2kW
- Plug Types: Universal Socket / Type 1 Tethered / Type 2 Tethered
- Standard Colours: White
- Unique installation mechanism for quick deployment and future upgrades
- Key Lock Option Available on Socket
- 3 year product warranty

Product Code	Product	kW	Amps	Connectivity
EG009	eoBASIC home charger - socket	3,6kW	16A	Nil
EG009-T1	eoBASIC home charger - 5m tethered Type 1	3,6kW	16A	Nil
EG009-T2	eoBASIC home charger - 5m tethered Type 2	3,6kW	16A	Nil
EG010	eoBASIC home charger - socket	7,2kW	32A	Nil
EG010-T1	eoBASIC home charger - 5m tethered Type 1	7,2kW	32A	Nil
EG010-T2	eoBASIC home charger -5m tethered Type 2	7,2kW	32A	Nil

## eoBASIC 3-phase

The eoBASIC 3-Phase EV Charger is designed to fast charge every EV on the market. It's super easy to install and is perfect for charging-up at work or on-the-go. With no software; it's just a simple plug and play charging solution.

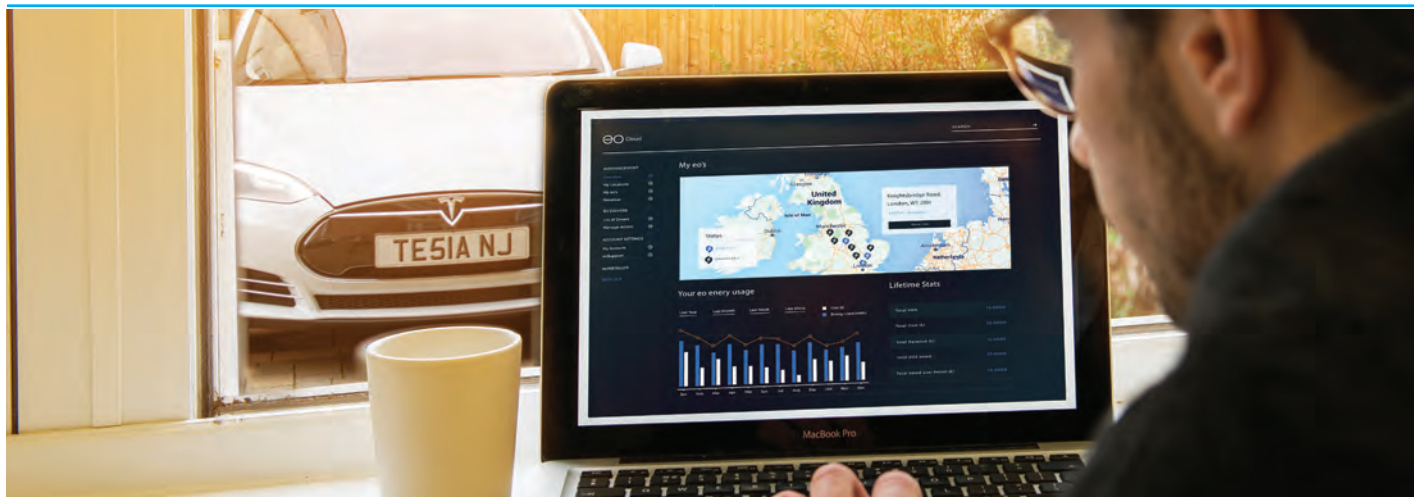

### Features

- Power Ratings: 11kW / 22kW
- Plug Types: Universal Socket (every EV on the market)
- Standard Colours: White
- Unique installation mechanism for quick deployment and future upgrades
- 3 year product warranty

Product Code	Product	kW	Amps	Connectivity
EO003	eoBASIC 3-phase - socket	11kW	16A	Nil
EO004	eoBASIC 3-phase - socket	22kW	32A	Nil

## Smart Chargers For Home, Work & Destination

### EO GENIUS

Coupled with eoHUB, our Genius Charger is supersmart. Genius is designed for charging-up at home, work and on-the-go (i.e. hotels and car parks). eoHUB connects the eoGenius to eoCloud software platform and eoApp.

#### Features

- Manage your chargers from eoCloud
- Control from your smartphone (eoAPP)
- Over-the-air remote software upgrades
- Power Ratings: 3,7kW / 7kW / 11kW / 22kW
- Plug Types: Universal Socket (every EV on the market)
- Standard Colours: White
- 3 year product warranty

Product Code	Product	kW	Amps	Connectivity
EG001	Genius - Pro socket	3,6kW	16A	With eoHUB
EG002	Genius - Pro socket	7,2kW	32A	With eoHUB
EG003	Genius 3-phase - Pro socket	11kW	16A	With eoHUB
EG004	Genius 3-phase - Pro socket	22kW	32A	With eoHUB

### EO HUB

eoHUB is a little internet connected box that plugs into a Genius charger and puts it online. One eoHUB can connect up to 30 Genius chargers, making installing multiple smart chargers super cost effective. eoHUB allows you to control your Genius chargers via eoCloud and eoAPP.

#### Features

- For maximum safety eoHUB monitors a buildings power supply and actively manages the load on multiple chargers.
- Hardwire internet connection or GSM connection available.
- Coming Soon – Solar PV, Battery Storage and Smart-Grid Integration

Product Code	Product	kW	Amps	Connectivity
EH001	eoHUB	-	-	Yes
INT	Intelligence: 3yr software + data package	-	-	-

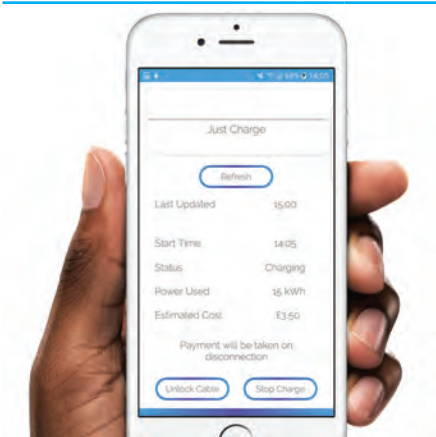

**EO CLOUD**

- Monitor your electricity consumption
- Restrict access to specific individuals
- Set pricing and generate revenue\*
- Links home & work charging to record benefit-in-kind tax

**EO APP**

Use eoApp to control your charger from anywhere in the world. Start, stop, pay-for and schedule charge – all from the palm of your hand.

- Navigate to your nearest available EO
- Pay for charging on-the-go
- View your charging history
- Charge session notifications

**Accessories: Stainless Steel Floor Mounted Pedestal**

Mount one charger on it's own or two back-to-back. Our robust Stainless Steel Floor Mounted Pedestal is the perfect solution for car parks, where wall mounting is not an option.

Product Code	Product	kW	Amps	Connectivity
SSPS	Stainless Steel Post - single	-	-	-
SSPD	Stainless Steel Post - double	-	-	-

**Accessories: Charging Cables**

Designed to charge your electric car or electric motorbike from home, work and public charge points.

- Dust proof and waterproof to IP54 rating (when mated)
- Compatible with 16A and 32A public and home charge points
- Type 2 (IEC 62196-2) to Type 1 (SAE J1772)
- Type 2 (IEC 62196-2) to Type 2 (IEC 62196-2)
- 24 month warranty against manufacturing defects
- Security locking hole

## Delta DC Wallbox EV Charger

## Key Features

- CCS\* / CHAdeMO dual charging ports
- DIN 70121 / CHAdeMO compliance
- Max. output power: 25kW
- Output voltage range: 50 - 500V DC (Combo); 50 - 500V DC (CHAdeMO)
- Max. 94% power efficiency
- RFID card reader for user authentication
- Network connectivity (OCPP)
- IP55 protection and IK10 vandal-proof casing

Product code	EVDC-25	
Power Input	Input Rating	380 ~ 415 V AC; 50 / 60Hz; Three-phase / L1, L2, L3, N, PE
	Power Factor	> 0,98
	Current THD	Compliant with IEC 61000-3-12
	Efficiency	94%
Power Output	DC Output #1*	IEC CCS DC Level 2, 50 - 500 V DC, 60A max., 25kW max. (Optional: SAE DC)
	DC Output #2	CHAdeMO, 50-500V DC, 60A max., 25kW max.
Protection	Protection	Over current, Under voltage, Over voltage, Residual current, Surge protection, Short circuit, Over temperature, Ground fault
User Interface & Control	Display	2,7" OLED screen
	Support Language	English (Other languages available upon request)
	Push Buttons	Multi-functional buttons (LED light: Orange, Blue) / Emergency stop button (Red)
	Charge Options	Charge options to be provided upon request: Charge by duration, Charge by energy
	User Authentication	ISO/IEC 14443 Type A / B RFID for user authentication
Communication	Network Interface	Ethernet (standard); 3G (optional); Wi-Fi (optional)
Environmental	Operating Temperature	-30°C to +50°C
	Storage Temperature	-40°C to +85°C
	Humidity	< 95% relative humidity, non-condensing
	Altitude	Up to 2000m
Mechanical	Ingress Protection	IP55
	Enclosure Protection	IK10
	Cooling	Forced air
	Charging Cable Length	4m
	Dimension (W x H x D) / Weight	680 x 430 x 230mm, excluding plug and cable / 47kg
Regulation	Certificate	CE
	Compliance	CHAdeMO / IEC 61851-1 / IEC 61851-23
Compatibility	Compatible vehicle brands	CCS: BMW, GM, Volkswagen; CHAdeMO: Nissan, Toyota, Mitsubishi, Peugeot, Citroen

\* SAE DC is optional, Maximum current is 65A. Specifications are subject to change without notice.

## Ultra Fast Charger

The ultra fast charger supports the quick charge standards of all European, Asian and North American electric vehicle (EV) manufacturers, supporting actual and future generations of EV which are demanding higher charge capacity than 50kW. The charger enables simultaneous charging up to four cars. Two charge points are available for DC quick charging up to 150kW, and two charge points are available for AC charging up to 65kW. The DC charging concept is based on a modular rectifier platform offering the scalability up to 150kW DC. The modularity, quality, product reliability and remote supervision maximise the uptime of the charge service.

The charger supports a variety of access and payment systems and is very simple and intuitive to use.

The charger is the optimal solution to establish a universal quick charge network to build the quick charge infrastructure for fleet operation such as taxi, car sharing and also for utility companies and car dealers who want to provide a value addition to their customers. Delta provides also back-office solutions with the related services.

Product Code	EV-UFC120	120kW Ultra Fast Charger
	EV-UFC150	150kW Ultra Fast Charger
Input	AC Connection	3L + N + PE
	AC Voltage	400 VRMS (L-L) + / - 10%
	Frequency	50 / 60Hz
	Current Nominal	312 ARMS @ 150kW <sub>DC</sub> + 65kW <sub>AC</sub> charge
	Power Factor	0,99
	MAINS TERMINAL	Terminal blocks 3L + N + PE
	Transient OVP	Class II / C protection
DC Charge Points – CCS & CHAdeMO	DC Output Voltage Range	170 - 500V <sub>DC</sub>
	Maximum Charge Current	300A <sub>DC</sub>
	Maximum charge power	150kW <sub>DC</sub>
	Cable / Access Length	3,5m / 2,5m
	Protections	Over current circuit breaker, Low-voltage protection, Short circuit protection, Isolation monitoring, Over voltage protection, Earth monitoring
DC Charge Point – CCS	Compliance	IEC 61851-23 / -24, IEC 62196-3, DIN 70121
	Rating Cable & Gun	200A <sub>DC</sub> / 850V <sub>DC</sub>
DC Charge Point – CHAdeMO	Compliance	IEC 61851-23 / -24, JEVS G 105, Rev. 1.0.1 compliant
	Rating Cable & Gun	125A <sub>DC</sub> / 500V <sub>DC</sub>

**Main features**

Modular scalability to charge next generation cars

Simultaneous charging up to four cars

Dynamic power management to minimise charge time

Easy to install, operate and service

**Two DC charge points** – total up to 150kW<sub>DC</sub>

- CCS up to 100kW<sub>DC</sub>

- CHAdeMO up to 62,5kW<sub>DC</sub>

**Two AC charge points** – total up to 65kW<sub>AC</sub>

- Type 2 plug 43kW

- Type 2 socket 22kW

Local authentication by RFID

Back-office system integration with OCPP 1,5

Different plug configurations available

<b>AC Charge Points</b>	Operating Temperature	-10°C to +50°C (standard); -30°C to 50°C (optional)
	Storage Temperature	-40°C to +70°C
	Humidity	< 95% relative humidity, non-condensing
	Altitude	Up to 1828,8m
<b>AC Charge Points</b>	Compliance	IEC 61851-22
	AC plug 43kW Charge Point	IEC 62196-2 Mode 3, Type 2
	AC socket 22kW Charge Point	IEC 62196-2 Mode 3, Type 2
	Nominal AC voltage	400 VRMS
	Maximum Charge Current / Power	3 x 63 ARMS @ 43kW point / 3 x 32 ARMS@ 22kW point
	Cable / Access Length	3,5m / 2,5m
	Protections	RCD Type B, Overcurrent circuit breaker, Earth monitoring
<b>User Interface</b>	Display	7" colour display
	Keypad	5 buttons – back-light
	Local Authentication	RFID reader
<b>Connectivity</b>	Connectivity	Fixline: Ethernet, Wireless: GPRS / 3G modem
	Back Office Interface	OCPP 1,5
<b>General</b>	Height <sub>(overall)</sub> x Width <sub>(body)</sub> x Depth <sub>(overall)</sub>	2079 x 852 x 998mm
	Weight, System	400kg
	Protection	IP55
	Enclosure Protection	IK 10
	Efficiency Rectifier	94%
	Ambient Temperature	- 25 to +45°C
	Relative Humidity	95% maximum, non cond.
	Compliance & Safety	IEC 61851-1
	EMC	IEC 61851-21-2, IEC 61851-21-2, EN 61000-6-1 / -2 / -4

## Degree Of Protection (IP Rating)

### 1<sup>st</sup> Numeral Digit

Protection against contact + penetration of solid bodies	
1	Protection against solid objects more than 50mm
2	Protection against solid objects more than 12mm
3	Protection against solid objects more than 2,5mm
4	Protection against solid objects more than 1,0mm
5	Protection against dust (limited ingress)
6	Protection against dust (total protection)
7	-
8	-

### 2<sup>nd</sup> Numeral Digit

Protection against penetration of liquids	
1	Protection against vertical falling drops of water
2	Protection against drops of water falling up to 15°
3	Protection against rain at up to 60°
4	Protection against projections of water from all directions
5	Protection against jets of water from all directions
6	Protection against heavy seas
7	Protection against the effects of immersion
8	Protection against continuous immersion
