

DEAD CENTER Archery Products®

2024 PRODUCT GUIDE
PRECISION ENGINEERED STABILIZATION SOLUTIONS.

DEAD SILENT HUNTING SERIES CARBON XS

The New Carbon XS features .5in. **Micro Diameter** carbon for an Ultra Slim, Ultra Light stabilization solution.

Carbon XS Stabilizers are threaded 1/4-20 to accept Custom Balance Weights allowing you to customize your forward balance for optimum accuracy. Includes (2) 1oz weights.

DSHCXS-6 | 6 inch | 4.4oz

DSHCXS-8 | 8 inch | 4.6oz

DSHCXS-10 | 10 inch | 4.8oz

Micro diameter, precision machined aluminum for a solid connection. Includes O-Rings for added dampening and silencing properties.

.5in. micro diameter carbon tubing for an ultra light, ultra strong, vibration crushing stabilizer.

Stabilizer silencers provide superior vibration dampening and silencing ability.

Custom Balance weights allow you to custom tailor your weight configuration to your specific needs.

Owner, Todd Reich

The New Carbon XS stabilizer boasts both .5in. micro diameter carbon and micro diameter machined aluminum end caps making it our thinnest, lightest stabilization solution to date.

I CHOOSE DEAD CENTER

DEAD LEVEL XS HUNTER LITE XS

The Dead Level Hunter and Dead Level Hunter Lite come complete with 2 Carbon XS Stabilizers, (6) 1oz Custom Balance Weights and 1 Diamond Series Combo Mount or 1 Diamond Series Single Lite Mount.

6 Custom Balance weights allow you to customize your weight distribution for optimum balance and increased accuracy down range.

The Dead Level Hunter XS LITE Kit includes the 20% Lighter Diamond Series Single Lite Mount and is built to utilize the bow's lower rear mounting hole.

DLHXS-8-6 | 8/6 inch Lite Kit
DLHXS-10-8 | 10/8 inch Lite Kit

DEAD LEVEL XS HUNTER XS

DLXS-8-6 | 8/6 inch Kit
DLXS-10-8 | 10/8 inch Kit

Custom Balance Weights allow for a custom tailored weight configuration for optimum stabilization and increased accuracy down range.

.5in. micro diameter carbon tubing for an ultra light, ultra slim, vibration crushing stabilizer.

Diamond Series Hardware is precision engineered for rock solid performance and perfect balance.

Stabilizer silencers provide superior vibration dampening and silencing ability.

The Dead Level Hunter XS kits offer a micro diameter, ultra lightweight stabilization system for bowhunters to customize the balance of any bowhunting setup without adding excessive overall mass weight resulting in a superior shooting experience.

DEAD SILENT HUNTING SERIES

VERGE

Verge End Protector is threaded 1/4-20 to accept Custom Balance Weights allowing you to customize your forward balance for optimum accuracy. Includes (2) 1oz weights.

DSHVRG-7 | 7 inch | 4.9oz

DSHVRG-9 | 9 inch | 5.3oz

DSHVRG-12 | 12inch | 5.6oz

Precision Machined Aluminum for a solid connection. Includes Dual Thread Indexing Stud for proper logo decal alignment.

Lightweight Carbon Tubing for ideal combination of silencing and stability without added weight or felt vibration.

Innovative Verge end protector design provides a sleek profile and superior vibration dampening while protecting the end of the stabilizer. Set screw allows for precise alignment.

Experience the Verge with its performance engineered profile for enhanced stability and superior silencing ability.

I CHOOSE DEAD CENTER

DEAD LEVEL HUNTER VERGE LITE

6 Custom Balance weights allow you to customize your weight distribution for optimum balance and increased accuracy down range.

The Dead Level Hunter Verge LITE Kit includes the 20% Lighter Diamond Series Single Lite Mount and is built to utilize the bow's lower rear mounting hole.

Lightweight rigid carbon tubing for ideal combination of silencing and stability without added weight or felt vibration.

DLHVRGL-12-9 | 12/9 inch Lite Kit
DLHVRGL-9-7 | 9/7 inch Lite Kit

Innovative Verge end protector design provides a sleek profile and superior vibration dampening while protecting the end of the stabilizer. Set screw allows for precise alignment.

DEAD LEVEL HUNTER VERGE

Lightweight rigid carbon tubing for ideal combination of silencing and stability without added weight or felt vibration.

6 Custom Balance weights allow you to customize your weight distribution for optimum balance and increased accuracy down range.

DLHVRG-9-7 | 9/7 inch Kit
DLHVRG-12-9 | 12/9 inch Kit

Diamond Series hardware is precision engineered to offer infinite adjustability for rock solid performance and perfect balance.

Innovative Verge end protector design provides a sleek profile and superior vibration dampening while protecting the end of the stabilizer. Set screw allows for precise alignment.

The Verge kit offers unparalleled performance for optimum stability and accuracy. The precision engineered sleek profile combined with customizable weights and a rock solid mount make the Verge kit the Ultimate in bowhunting stabilization.

DEAD LEVEL V2 HUNTER

DLHV2-10-8 | 10/8 inch Kit
DLHV2L-10-8 | 10/8 inch Lite Kit

Custom Balance Weights allow for a custom tailored weight configuration for optimum stabilization and increased accuracy down range.

Lightweight Carbon Tubing for ideal combination of silencing and stability without added weight or felt vibration.

Diamond Series Hardware is precision engineered for rock solid performance and perfect balance.

Stabilizer silencers provide superior vibration dampening and silencing ability.

The Dead Level Hunter v2 kits offer bowhunters the ability to precision balance and tune virtually any bowhunting setup for an optimum aiming experience and increased accuracy.

I CHOOSE DEAD CENTER

DEAD SILENT HUNTING SERIES XD4

DSH-XD4 | 4 inch | 4.9oz

5 Stabilizer Silencers offer superior vibration dampening and work to silence your bow.

CNC Machined Aluminum core provides additional forward weight to help stabilize your bow and improve accuracy.

The XD4 compact stabilizer was built to simply do the job - kill vibration, provide necessary added forward weight and never break the budget.

I CHOOSE DEAD CENTER

ICONX 625 SERIES

DualThread Indexing Stud allows for proper alignment of the logos when the stabilizer is installed.

Iconx-specific designed and precision machined aluminum end caps provide an extra solid connection while minimizing vibration and flex.

Ultra High Modulus woven carbon fiber tubing makes the Iconx our stiffest stabilizer for optimized stability and accuracy. Internal anti-vibration material kills felt vibration after the shot. Slim 5/8" diameter reduces the effects of wind on the shooter.

Accepts Custom Balance Weights threaded 1/4-20 allowing you to custom tailor your weight configuration to your specific needs.

ICX-9	9in.	3.0oz	ICX-24	24in.	4.5oz
ICX-12	12in.	3.3oz	ICX-27	27in.	4.8oz
ICX-15	15in.	3.6oz	ICX-30	30in.	5.2oz
			ICX-33	33in.	5.4oz

Crafted with premium ultra high modulus, slim diameter carbon fiber tubing and expertly engineered aluminum end caps, the Iconx 625 series begs to be put to the ultimate test by the ultimate archers.

I CHOOSE DEAD CENTER

DIAMOND SERIES

DualThread Indexing Stud allows for proper alignment of the logos when the stabilizer is installed.

Precision machined aluminum end caps provide stability and durability without added weight.

Ultra High Modulus carbon tubing provides an ultra stiff and light stabilizer. Internal anti-vibration material kills felt vibration after the shot. Slim 5/8" diameter reduces the effects of wind on the shooter. Available in 10 custom color full wraps.

Accepts Custom Balance Weights threaded 1/4-20 allowing you to custom tailor your weight configuration to your specific needs.

DIA-8	8in.	2.8oz	DIA-24	24in.	4.6oz
DIA-10	10in.	3.0oz	DIA-28	28in.	4.9oz
DIA-12	12in.	3.2oz	DIA-30	30in.	5.3oz
DIA-15	15in.	3.6oz	DIA-33	33in.	5.5oz

The Diamond Series delivers a premium ultra high modulus target stabilizer precision engineered to be light weight, slim diameter, rock solid and offer perfect balance

I CHOOSE DEAD CENTER

DEADSTEADY

TARGET SERIES

Precision machined aluminum end caps provide stability and durability without added weight.

Pultruded carbon tubing in 3/4" diameter provides for an ideal combination of rigidity, stability and strength. Internal anti-vibration material kills felt vibration after the shot. Available in 10 custom color full wraps.

Accepts Custom Balance Weights threaded 1/4-20 allowing you to custom tailor your weight configuration to your specific needs.

DST-8	8in.	3.8oz	DST-24	24in.	6.6oz
DST-9	9in.	4.0oz	DST-28	28in.	7.3oz
DST-10	10in.	4.2oz	DST-30	30in.	7.7oz
DST-12	12in.	4.5oz	DST-33	33in.	8.2oz
DST-15	15in.	5.0oz	DST-36	36in.	8.8oz

The Dead Steady offers proven performance and stability that competitive target archers demand without the premium price tag. This work horse far exceeds expectations making it the choice of professional and amateur archers world wide.

STARTER PACK

The Dead Steady Starter Pack is a complete package to get you started. The kit includes:
2 Dead Steady Target Stabilizers,
(6) 1oz Custom Balance Weights and
the Diamond Series Combo Mount.

DST-24-10-STPK | 24/10 inch kit
DST-28-12-STPK | 28/12 inch kit
Only available in Black Wrap color

The Diamond Series is our Premium series of mounting hardware. These mounts are some of the most rock solid mounting solutions on the market with their TaperLok friction fit design that simply will not come loose when tightened, yet pops apart with ease when adjustments are needed. This design allows for infinite adjusting and precise positioning.

Diamond Series Single Offset Mount

Single Offset Mount is the ideal mounting solution for front or rear installation.

Includes Mounting bolt and stabilizer clamping rod.

DS-S | Standard
DS-S-Hoyt | Hoyt Specific mount.

Weight | 4.4oz

Diamond Series Combo Mount

A rock solid mount that integrates a Straight Front Quick Disconnect with a Single Offset Mount.

Includes Mounting bolt and stabilizer clamping rods.

DS-CS

Weight | 5.1oz

Diamond Series V-Bar Mount

Engineered to accommodate a front or rear mounted V-Bar system.

Includes Mounting bolt and stabilizer clamping rods.

DS-VBAR

Weight | 8.2oz

Diamond Series Riser Mount

Engineered to mount through the bow riser.

Includes Mounting bolt and stabilizer clamping rod.

DS-RMS

Weight | 5.4oz

All Custom Balance weights are constructed of Stainless Steel and include Rubber O-Rings for vibration dampening and superior tightening. Available in Matte Black or Polished Stainless and 1/4-20 or 5/16-24 thread.

Shock Response System

Precision engineered to kill felt vibration when added to your weight stack. The SRS utilizes an internal rubber dampening system and machined aluminum caps to create a superior dampening product.

Weight | 1.5oz

SRS

Aluminum Weight Cap

Top off your weight stack with the Aluminum Weight Cap.

Thread | 1/4-20
Weight | 1oz

CAP-1OZ

Thread Conversion Stud

Convert 1/4-20 to 5/16-24 thread

Length | 3/4"

Includes 2 studs

STUD-CONV

Front Quick Disconnect

Allows for quick and easy attachment and removal of the front stabilizer

Includes mounting bolt and stabilizer clamping rod.

FQD-STR | Straight
FQD-10DEG | 10 Degree

Weight | 1.6oz

SWITCH FRONT QUICK DISCONNECT

The FQD Switch features interchangeable face plates in 0°, 5°, 10° or 15° to adjust the downward angle of your front stabilizer for the ultimate in versatility and customization.

FQD-SWT- Kit includes 4 face plates and body.
FQD-BODY | FQD-0DEG | FQD-5DEG
FQD-10DEG | FQD-15DEG

Weight - 1.7oz

Wrist Sling

The Dead Center Wrist sling provides an adjustable wrist sling for bowhunters and target archers alike. The CNC machined mount can be secured behind the front stabilizer or front quick disconnect.

DC-SLING

PRO BOW BALANCER

US Patent # 10,145,644

Proper balance is paramount when it comes to optimum accuracy. The Pro Bow Balancer is a simple tool that allows the user to see where the bow's balance bias truly is and gives a visual aid as to the effect of any changes in stabilizer position or amount of weight. This allows for faster and more accurate stabilizer and weight balance customization for the individual archer. Without this tool, adjustments are nothing more than trial and error. The patented Pro Bow Balancer is used by pro shops, professional archers, bowhunters and coaches worldwide.

Custom Color Dampening Products

Customize your look and dampen vibration.

Stabilizer Silencer-
3/4" - fits all V2, and Dead Steady Stabilizers
5/8" - fits all Verge, XS, XD4, Iconx and Diamond stabilizers

Dead End Dampener-
Protect the end of your stabilizer and dampen felt vibration after the shot.

Black, Red, Orange, Yellow, Green, Blue, Purple, Pink, Silver

Customize your look and dampen vibration.

Custom Color O-Rings-
Small - fits 1oz weights
Large- fits 3oz and 6oz weights

Includes | 12pcs

Red, Orange, Yellow, Green, Blue, Purple, Pink, White

Ideal Starting Point | Effective Fine Tuning
Precise Desired Balance
Optimized Aiming Stability & Accuracy
