jamstik+ Quick Start Guide

1 Download our apps on the AppStore

jamstik+ app:
Connect, Sounds,
Configure

jamTutor 1 and 2:
Learn, Practice,
Progress

jamMix app:
Create, Remix,
Instant Fun

2 Remove tape from battery

- Open battery cover and remove battery.
- Locate and remove yellow tape covering battery contacts.
- Reinsert battery and replace cover.

3 Attach strap

- Find strap and strap buttons (packaged separately) under the box insert.
- Locate button holes on back of the jamstik+. Insert buttons and push up to snap into place.
- Find holes on ends of the strap and push buttons through.

4 Power on

- Press the power button on the side of your jamstik+. Wait for the LED to pulse orange.
- Do not touch the fretboard during power up.

5 Connect & Pair iPad/iPhone*

- Activate Bluetooth on your iPad/iPhone.
- Launch the jamstik+ app and tap "Select a jamstik+".
- Select your jamstik+ ID from the list. Your unique jamstik+ ID is listed inside the battery cover.
- The LED will turn solid green when connected.

Bluetooth MIDI Devices

JS123456

Connected

Explore & Customize

- More than guitar, explore sounds in jamstik+ app
- Customize settings
- Open chord play

Creativity & Instant Fun

- Remix songs in jamMix
- Instant fun, can't play a wrong chord in jamMix

Learn & Practice

- Step-by-step lessons in jamTutor app series
- Instant feedback
- Learn at your pace

Important!!

- Use wired headphones and speakers for best performance. **Wireless headphones and speakers create latency.**
- Always check for software and firmware updates. Update notices are displayed in the jamstik+ app.
- The jamstik+ app is not required to connect to other MIDI apps like GarageBand®.

We can't wait to see what the jamstik+ inspires in your hands!
