# Face & Body Bar Soap

The Olivella® bar soap is a very precious soap with a green color, typical of ripe olives, obtained **exclusively from 100% ultra-purified virgin olive oil, enriched with notes of Mediterranean fragrances.**

The bar is compact but, at the same time, is very soluble in water. **Versatile for frequent washing for the face, hands and body, while also suitable for sensitive skin** and washing delicate clothes. It produces a white foam, very delicate with remarkable detergent and emollient properties. **The soap is the result of a completely innovative technology that combines the millennial tradition of Aleppo soaps (100% from olive oil) with the most modern manufacturing techniques.**

Each soap has its own characteristics: durability, cleansing power and delicacy. The characteristics and therefore the properties of a soap highly depend on the raw materials used and the extensive knowledge of the soap maker.

All of our Olivella® soaps come from the finest and most beneficial vegetable oil: 100% ultra-purified virgin olive oil transformed into a very precious mixture of the salts of fatty acids and therefore rich in natural dermo-protective compounds.

**Suitable for all skin types** because from the dawn of time, olive oil has been used in the caring for skin, hair and nails.

What is it?  
How does it work?

From 100% virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

## What makes it different from other soaps?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

Our soap is guaranteed by patent technology. The results of the irritability tests and the toxicological evaluation based on the individual raw materials, the routes and the levels of exposure have certified it as a "safe product". Years of customer satisfaction in the international marketplace confirm its quality. It's dermatologically tested and it's free of palm oil, coconut oil, animal ingredients, petroleum, gluten, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Since natural ingredients are used, the color and the compactness can vary depending on the different production batches. Because of its affinity with water, avoid leaving the bar in damp containers.

**PATENTED**

## Why choose Olivella® Face & Body bar soap?

- 1 Gently cleanses thanks to its long unsaturated chain salts.
- 2 It protects from aggressive external agents (U rays. V. air action) thanks to the presence of phenolic antioxidants, vitamin E, B carotene (progenitor of vitamin A).
- 3 Helps the regeneration of the dermis (abrasions, dermatitis) thanks to a good amount of phytosterols and triterpenic acids.
- 4 100% biodegradable.
- 5 Nourishes the skin thanks to the dermo-protective action of natural squalene.
- 6 It preserves the hydrolipid layer of the skin thanks to the presence of natural glycerin and waxes.
- 7 It has a light and natural antibacterial and antifungal power thanks to the presence of complex phenols.
- 8 It is free of any preservative compound.

# Face & Body Bar Soap

This fragrance-free bar soap from Olivella® is a very delicate soap with a natural green color, typical of ripe olives, with a light natural scent, and **does not have any added fragrances.**

What is it?  
How does it work?

Derived **from 100% ultra-purified virgin olive oil.** The bar is compact but, at the same time, is very soluble in water. Versatile for frequent washing of the face, hands and body.

**Suitable for the most sensitive skin in both children and adults** and also for washing delicate clothing. It produces a very delicate white foam with remarkable detergent and emollient properties. **The soap is the result of a completely innovative technology that combines the millennial tradition of Aleppo soaps (100% from olive oil) with the most modern manufacturing methods.**

Each soap has its own unique characteristics: durability, cleansing power and delicacy. The characteristics and therefore the properties of a soap highly depend on the raw materials used and the extensive knowledge of the soap maker.

All of our Olivella® soaps come from the finest and most beneficial vegetable oil: 100% virgin olive oil transformed into a very precious mixture consisting of the salts of fatty acids and therefore are **rich in natural dermo-protective compounds. Suitable for all skin types, and highly recommended for dermatitis, sensitive skin, eczema, psoriasis, abrasions and skin irritations** because from the dawn of time olive oil has been used for the care of the skin, hair and nails.

From 100% virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

## What makes it different from other soaps?

ALL OF OUR INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

We have not added any chemicals, synthetic ingredients or fragrances. By maintaining all of the natural ingredients already contained in virgin olive oil, we preserve the precious compounds of virgin olive oil in its derived salt: the SODIUM OLIVATE! The uniqueness of our soap is guaranteed by our patent technology, the results of our skin irritability testing and the toxicological evaluation based on the raw materials and exposure levels that are certified as a "SAFE PRODUCT", and the many years of customer satisfaction in different international markets. It's dermatologically tested and it's free of palm oil, coconut oil, animal ingredients, petroleum, gluten, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Since natural ingredients are used, the color and the compactness can vary depending on the different production batches. Due to its affinity with water, avoid leaving the bar in damp containers.

**PATENTED**

## Why choose Olivella® Raw Fragrance Free Soap?

- 1 Gently cleanses thanks to its long unsaturated chain salts.
- 2 The presence of phenolic antioxidants, vitamin E-B, carotene (progenitor of vitamin A) assures a protective action against aggressive external agents (including UV rays).
- 3 Helps the regeneration of the dermis (abrasions, dermatitis) thanks to a good amount of phytosterols and triterpenic acids.
- 4 Nourishes the skin thanks to the dermo-protective action of natural squalene.
- 5 It preserves the hydrolipid layer of the skin thanks to the presence of natural glycerin and waxes.
- 6 It has a light and natural antibacterial and antifungal power thanks to the presence of complex phenols.
- 7 It is free of any preservative or allergenic compound that alters its original nature.
- 8 100% natural and 100% biodegradable.

# Exfoliating Bar Soap

Olivella® Exfoliating Soap is a very precious bar soap with a green color typical of ripe olives, **obtained from 100% ultra-purified virgin olive oil, to which we have added granules of apricot pits and mint essential oil.** It is therefore a body / face scrub soap.

The detergent power is guaranteed by Sodium Olivinate, a mixture of Sodium Salts from saponification of 100% ultra-purified virgin olive oil.

The exfoliating power is given by the action of the granules of finely ground apricot pits that form an emulsion with the foam that is gently abrasive. Suitable for use on the body and hands, it produces a white foam rich in natural granules, **microbiologically sterile and biodegradable.**

**The fresh foam cleanses and at the same time eliminates the impurities and dead skin cells of the most superficial layer of the epidermis.**

The scrub will be intense depending on the contact time and the energy of the massage. After rinsing a smoother and more relaxed skin will be revealed. **Thanks to the action of natural oil obtained from the mint leaves, you will have a feeling of freshness throughout the day.**

What is it?  
How does it work?

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 100%

# NATURAL

150 gr  
5.29 Oz

WITH MINT ESSENTIAL OIL

## What makes it different from other exfoliating bar soaps?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

The exfoliating bar soap is derived from natural plants: The soap is 100% designed for all skin types and indicated for frequent washing. It has an effective emollient and detergent effect. Olivella® exfoliating soap exerts a dermatological effect more like the lipid layer of the skin when compared to the conventional products on the market. This tolerability is combined with good exfoliating power. It's dermatologically tested and it's free of palm oil, coconut oil, animal ingredients, petroleum, gluten, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Since natural ingredients are used, the color and the compactness can vary depending on the different production batches. Because of its affinity with water, avoid leaving the bar in damp containers.

## Why choose Olivella® Exfoliating Bar Soap?

**1** .Sodium Olivate is a mixture of salts of fatty acids, obtained exclusively from 100% ultra-purified virgin olive oil very well tolerated even by the most sensitive skin.

**2** It gently cleans and can therefore be used every day.

**3** It is biodegradable and therefore does not pollute the environment.

**4** The innovative production technology by Umbria Olii International, a leading company in the olive oil sector, containing a large part of the precious compounds naturally contained in olive oil such as natural glycerin, the squalene, B carotene, alcohols, esters and phenols. Each of these is widely used in cosmetics for its emollient, moisturizing, dermo-protective properties.

**5** The apricot pits are finely ground, microbiologically pure, totally biodegradable, 100% natural. The slight abrasion of the superficial layer of the skin does not attack the underlying dermis but gently removes already damaged or dead cells to be replaced by new ones.

**6** The essential oil from mint leaves has a natural anti-stress, regenerating and refreshing action.

# Face & Body Liquid Soap

Olivella® Liquid Soap is a line of light and transparent soaps, designed for all skin types and particularly suitable for frequent washing.

Each fragrance (**classic mediterranean citrus, violet, apricot**) is designed to satisfy different tastes and needs, always respecting the balance of the epidermis. Due to its delicacy, the line can also be used on the face to remove makeup.

**The secret of Olivella® Liquid Soap** is extremely simple and consists of the emollient and moisturizing properties of the raw material from which it derives: **100% ultra-purified virgin olive oil. Free of dyes**, designed for all skin types, even the most delicate, leaving a pleasant feeling of clean, soft freshness. The new formula is BHT/ETDA free.

The soap produces a very delicate and soft foam that is formed by the slight rubbing of the hands under water. The liquid soap cleanses hands and face, leaving the skin smooth and polished after rinsing.

What is it?  
How does it work?

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

## What makes it different from other liquid soaps?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

Olivella® Liquid Soap is a soap that respects the hydrolipid layer of the epidermis and the environment. Based on Potassium Olivates, unlike other liquid soaps on the market, it contains a part of the unsaponifiable fraction of olive oil (a group of very valuable compounds that a long tradition and specific clinical studies attest to its emollient and moisturizing power). It's dermatologically tested and it's free of palm oil, coconut oil, animal ingredients, petroleum, parabens, BHT/ETDA, SLES/SLS and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Store the bottle at room temperature, avoiding sudden changes in temperature, far from sources of heat and intense light. Due to its origin from 100% virgin olive oil it can change color and compactness. Avoid contact with eyes. Product subject to natural weight loss.

## Why choose Olivella® Face & Body Liquid Soap?

- 1 Good cleansing power thanks to the Potassium Olivates, a mixture of salts of fatty acids obtained exclusively from 100% virgin olive oil.
- 2 Excellent tolerability of the skin, tested by clinical studies and confirmed by the long experience of the product on the international market.
- 3 Good emollient and dermo-protective function guaranteed by the innovative production technology of Umbria Olii International, a leading company in the olive oil sector. In fact, soap retains a large part of the precious compounds naturally contained in olive oil such as natural glycerin, squalene, B carotene, alcohols, esters, phenols. Each of these is widely used in cosmetics for its emollient, moisturizing and dermo-protective properties.
- 4 Excellent sensation of freshness and fragrance that persists throughout the day.

# Face & Body Liquid Soap

Olivella® Raw Fragrance Free Liquid Soap is 100% natural and exclusively made with 100% ultra-purified virgin olive oil. This soap is rich in salts which are the reason for its typically veiled appearance. Designed to meet the needs of customers who pay careful attention to their health and have great respect for the environment.

**Suitable for all skin types, it is particularly advised for those who are sensitive to fragrances.** Ideal for the most sensitive and delicate skin, therefore also suitable for children. **It is made from the processing of olive oil,** innovative in its formula, essential in its structure, soft in its foam, easy to use, rich in functional active ingredients.

**Its secret is in the simplicity of the structure, in the absence of any additive (including fragrances) that can alter its delicate detergent function. The "rough, raw" aspect is a guarantee of NATURALITY.**

This soap is rich in well-visible salts that are at the origin of the delicate and soft foam. It cleanses the hands and face, leaving them smooth and hydrated. The exclusive formula respects the hydrolipidic layer of the skin, face, hands and body, thanks to the skillful combination of dermatologically active ingredients naturally present in olive oil and stored in the transformation process.

**Suitable for all skin types, recommended in cases of dermatitis, sensitive skin, eczema, psoriasis, abrasions or irritations.**

What is it?

What makes it  
different from  
other soaps?

ALL OUR  
INGREDIENTS ARE  
**100% FROM  
NATURAL  
VEGETABLE  
DERIVATION**

Olivella® Raw Fragrance Free Liquid Soap is a totally natural soap, modern in its manufacturing and formulation. The success and uniqueness of the product consist of the following criteria: safety for the skin - safety for the environment. Irritability testing and toxicological evaluation of the product based on the individual raw materials, routes and exposure levels which have certified it as a "safe product" according to its use and its function.

## HOW TO PRESERVE FOR BEST RESULTS.

Store the bottle at room temperature, avoiding sudden changes in temperature, far away from sources of heat and intense light. Due to its origin from 100% virgin olive oil it can change color and compactness. Due to the absence of preservatives and sequestrants of synthetic origin, it may present a slight deposit of salts on the walls and bottom of the bottle.

## Why choose Olivella® Raw Fragrance Free Liquid Soap?

- 1 It is 100% biodegradable and natural.
- 2 It does not contain any allergenic molecules.
- 3 It has excellent tolerability for the most sensitive and delicate skin, tested by clinical studies and confirmed by the extensive experience of the product on the international market.
- 4 It has an excellent cleaning power thanks to the Potassium Olivates, a mixture of fatty salt acids obtained exclusively from 100% Virgin Olive Oil.
- 5 It has a good emollient and dermo-protective function guaranteed by the innovative production technology by Umbria Olii International, a leading company in the olive oil sector.
- 6 The soap contains a large part of the precious compounds of olive oil such as natural glycerin, squalene, B carotene, esters, phenols. Each of these is widely used in cosmetics for their emollient, moisturizing and dermo-protective properties.

with Pure  
Tea Tree  
Oil

# Face & Body Liquid Soap

Olivella® liquid soap with tea tree oil is **naturally antibacterial** formulated, perfect to cleanse the face and body. **Recommended for topical treatment for oily, combination skin** and acne prone skin, its astringent and antiseptic properties are guaranteed by **natural essential oils of tea tree (melaleuca) and lavender**. It is **highly effective against Cutibacterium Acnes**, bacterium present in acne skin, mainly responsible for the infectious aspect of acneic disease.

It also blocks the reproduction of microorganisms frequently present in the external environment as **Escherichia Coli and Saccharomyces Cerevisiae**. Its sanitizing power does not interfere with **its delicate and emollient function**. Essential oils were carefully selected based on the purity and naturalness, in accordance with the company's mission.

The dermo-protective function is guaranteed by the presence in the formula of **Potassium Olivato**, a mix of fatty acid salts obtained exclusively from **the saponification process of 100% virgin olive oil**.

What is it?

TEA TREE OIL

## What makes it different from other antibacterial liquid soaps?

Olivella® liquid soap with tea tree oil is **the perfect ally to fight break-outs and pimples as it's tested in vitro and 99.98% natural**. Acne skin needs topical treatment that is gentle and effective: **our soap does not strip away skin's natural oils and, at the same time, it also nourishes and soothes the skin as it contains saponified 100% virgin olive oil**. Perfect to be used on face but recommended also for hands thanks to **its natural antibacterial properties**.

The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested, and it's free of petroleum, gluten, parabens, dyes, animal ingredients, BHT/ETDA, SLS/SLES, palm oil and coconut oil.

## HOW TO PRESERVE FOR BEST RESULTS.

Store the bottle at room temperature, avoiding sudden changes in temperature, far away from sources of heat and intense light. Due to its origin from 100% virgin olive oil it can change color and compactness. Avoid contact with eyes. Product subject to natural weight loss.

## Why choose Olivella® Face & Body Liquid Soap with Pure Tea Tree oil?

- 1** **Tested in vitro**, it's formulated specifically to clear and prevent acne blemished skin and to keep skin healthy.
- 2** **It's highly effective against Cutibacterium Acnes** (Gram-positive bacteria linked to acne). It also blocks the reproduction of **Escherichia Coli and Saccharomyces Cerevisiae**.
- 3** **It's a natural antibacterial and sanitizing soap, perfect for daily use.**  
The excellent cleaning power is guaranteed by Potassium Olivete (a mix of fatty acid salts obtained from saponification of 100% virgin olive oil). The result is a soap extremely **emollient and dermoprotective**, with natural anti-aging and antioxidant properties.
- 4** **Not irritating**, even with basic PH, and extremely well tolerated from the face, body and hands.

# Bath & Shower Gel

What is it?  
How does it work?

Olivella® Bath & Shower Gel is a line of gel soaps designed for the cleansing of all skin types and therefore suitable for frequent washing. The exclusive formula derives from precious natural ingredients enriched with various selected fragrances (**classic Mediterranean citrus, lavender, orange, vanilla**). The soap's power is created by Potassium Olivinate, a mixture of potassium salts from saponification of **100% ultra-purified virgin olive oil**. Light, typically Mediterranean fragrances are added to the mix; the scent gives the body a feeling of freshness throughout the day. The new formula is BHT/ETDA free and enriched with glycerin for a more emollient effect on the skin..

**Its delicate foam and fresh fragrances leave skin extra smooth.**

Thanks to the skillful combination of ingredients that are dermatologically non-aggressive and respectful of the hydrolipidic layer of the skin, **Olivella® Bath & Shower Gel cleanses the body in the most natural way.**

Each fragrance is particularly designed to satisfy the preferences and needs of our consumers. If dissolved in water for a bath, **our gel exerts a relaxing effect especially after a long tiring day.**

From 100% virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

## What makes it different from other shower gels? ALL THE INGREDIENTS ARE 100% FROM NATURAL VEGETABLE DERIVATION

The Olivella® Bath & Shower Gel is a soap gel that respects the hydrolipid layer of the epidermis. Unlike other gels on the market, it contains a part of the unsaponifiable fraction of olive oil (the richest and most precious of vegetable oils). Very valuable compounds that specific clinical studies and a long tradition attest to its emollient and moisturizing power. It's dermatologically tested and it's free of palm oil, coconut oil, animal ingredients, petroleum, parabens, BHT/ETDA, SLES/SLS and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Store the bottle at room temperature, avoiding sudden changes in temperature, far from sources of heat and intense light. Due to its origin from 100% virgin olive oil it can change color and compactness. Massage in the shower with a sponge or dissolve the gel in bath water. Avoid contact with eyes. Product subject to natural weight loss.

## Why choose Olivella® Bath & Shower Gel?

- 1 Good cleansing power thanks to the Potassium Olivates, a mixture of salts of fatty acids obtained exclusively from 100% ultra-purified virgin olive oil.
- 2 Excellent tolerability to all skin types, tested by clinical studies and confirmed by the extended experience in the international marketplace.
- 3 Good emollient, moisturizing and dermo-protective functions guaranteed by the innovative production technology of Umbria Olii International, a leading company in the olive oil sector. In fact, the soap retains a large part of the precious compounds naturally contained in olive oil (un-saponifiable fraction) such as natural glycerin, squalene, B carotene, alcohols, esters, phenols. Each of these is widely used in cosmetics for its own emollient, moisturizing and dermo-protective properties.

- 4 Excellent sensation of freshness and fragrance that persists over time.

# Shampoo

What is it?  
How does it work?

Olivella® Shampoo is a **transparent gel, delicately scented, suitable for cleansing all types of hair:** dry, damaged, straight, curly, color treated and even greasy hair.

The Olivella® formula for Shampoo is innovative because it is designed to be effective on any hair-type. An ancient recipe taken from the Greek-Roman civilization adapted to the most modern techniques to guarantee a shampoo that cleanses and repairs the hair in the most effective way.

Each hair is a tiny organ whose unique, personal characteristics are inherited. **The Olivella® Shampoo therefore wants to respect the deepest structure of the stem and nourish the bulb so that the hair is healthy and can live in balance with outdoor elements.**

Olivella shampoo leaves hair bright, restructured, soft to the touch and deeply cleanses hair to make it healthy and strong, This formula preserves natural hair colors, enhancing its vitality, obtaining an incredible luminous effect even in treated hair.

97.65%  
NATURAL

250 ml  
8.45 Fl Oz

## What makes it different from other shampoos?

ALL THE INGREDIENTS ARE 100% FROM NATURAL VEGETABLE DERIVATION

The entire Olivella® line including the hair care, arises from the synergy between the high quality of the natural ingredients we use and the technological innovation that enhances its properties. Thanks to the intense research of our internal laboratories and the collaboration of accredited external institutes we try to maintain a high content of active molecules naturally present in olive oil (natural glycerin, olive oil squalene, unsaturated fatty acids and polyunsaturated, natural antioxidants, etc.) with a high nutritional value and skin preservatives within each product. It's dermatologically tested and it's free of animal ingredients, petroleum, SLES/SLES, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

To obtain the best benefits apply Olivella® Shampoo on wet hair, massaging gently to acquire a rich sulfate-free lather. After rinsing with plenty of water we recommend following up with the application of Olivella® Conditioner. In this way the two products (shampoo and conditioner) work in synergy, enhancing each other's actions. Both rich in natural active ingredients, they fight excess heat damage and the oxidative action caused by light and air. After each use keep the bottles tightly closed for best results.

## Why choose Olivella® Shampoo?

**1** The cleansing of the Olivella® Shampoo respects the deeper nature of the hair and scalp thanks to the natural components that ensure the delicate foam.

**2** The naturalness of the shampoo makes it suitable for all types of hair. It's SLS, SLES Free.

**3** The exclusive formula is rich in olive extract, whose nourishing, anti-aging and moisturizing properties are amply confirmed by specific tests and by the custom of use as a natural remedy.

**4** The action of the olive extract is enhanced by a mixture of compounds of natural origin such as wheat and silk extract that give a shine to even the most worn and dry hair without weighing it down.

**5** Olivella® Shampoo is rich in Panthenol, also called vitamin B5. This precious vitamin is responsible for hair regeneration and hair follicle repair.

# Conditioner

What is it?  
How does it work?

Olivella® Conditioner is a soft hair cream, **rich in moisturizing and nourishing substances carefully selected from active compounds of natural origin.**

The knowledge acquired in the field of cosmetics based on olive oil has allowed us to formulate an innovative and at the same time very natural balm because it favors the widely known properties used in ancient Egyptian, Greek and Roman civilizations.

**The active ingredients of olive oil revitalize and regenerate dry and damaged hair**, nourish the structure of the hair from the inside, repair and restore the fibers, respecting the dermis of the scalp.

Our Conditioner, ultra-rich in these active ingredients, **used daily, moisturizes and regenerates damaged, dry and opaque hair giving new vitality and shine without weight or grease.**

NATURAL

250 ml  
8.45 Fl Oz

## What makes it different from other conditioners?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

The entire Olivella® line including the hair care, arises from the synergy between the high quality of the natural ingredients we use and the technological innovation that enhances its properties. Thanks to the intense research of our internal laboratories and the collaboration of accredited external institutes, we try to keep a high content of active molecules naturally present in olive oil (natural glycerin, olive oil squalene, unsaturated fatty acids and polyunsaturated, natural antioxidants, etc.) natural substances with a high nutritional value and skin preservative in all of our products. It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes

## HOW TO PRESERVE FOR BEST RESULTS.

To obtain the best benefits, use Olivella® conditioner on wet hair, massaging gently and leave it on for a few minutes before rinsing with plenty of lukewarm water. It is always recommended, after using Olivella shampoo. Used in this way, the two products (shampoo and conditioner) act in synergy, enhancing each other's action. Both rich in natural active ingredients, avoiding excess heat and the oxidative action of light and air. After each use keep the bottles in a closed environment.

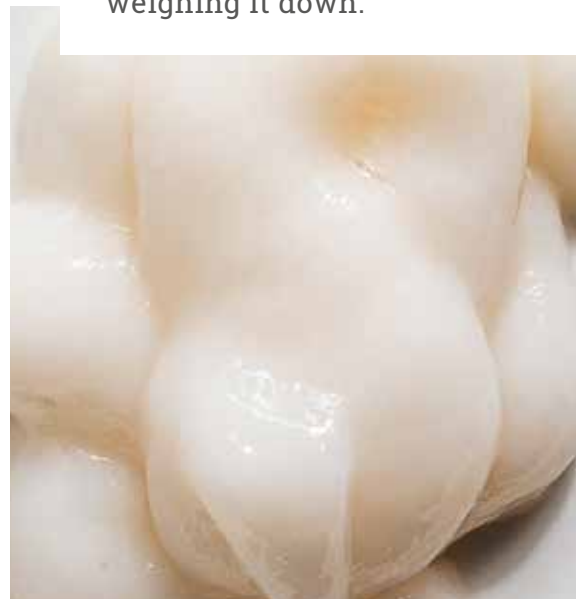

## Why choose Olivella® Conditioner?

**1** Olivella® Conditioner respects the deeper nature of the hair and scalp thanks to the enriched natural components.

**2** The naturalness of the active ingredients makes it suitable for all types of hair. It's SLS, SLES Free.

**3** The exclusive formula with olive oil gives it nourishing, anti-aging and moisturizing properties that are amply confirmed by specific tests.

**4** The natural mixture of grain and silk hydrolysate give shine to even the most worn and dry hair, without weighing it down.

**5** Panthenol, also called vitamin B5, of which it is rich, exerts a decisive remedial action and helps regeneration of hair follicles.

# Daily cleansing tissues

What is it?  
How does it work?

The Olivella® Face and Body Wipes, thanks to the presence of olive oil, **deeply cleanse and nourish the skin, leaving it fresh and hydrated**. Excellent if used as a make-up remover, for eyes and lips. They are suitable for everyday use, to refresh the face and body when needed. **The soft towel is made of a "non-woven fabric" able to preserve its emollient and detergent properties for quite a long time**. Because of its soft consistency and its delicacy, **it is particularly suitable for all types of skin, for use on the face and body and gentle enough for a baby's hygiene**.

The formula for the olive oil wipes is **rich in emollient and moisturizing compounds that are added to the properties of the oil itself**. Among these stands the chamomile extract that can cleanse even the most sensitive areas of the face, like the eye contour and lips with absolute delicacy. The action of the plant origins active ingredients guarantees the natural hydrolipidic balance of the skin. **An ideal substitute for milk and tonic, ready to use, it does not need to be rinsed**, it is an indispensable alternative for the entire family whether inside or outside the home, especially when traveling.

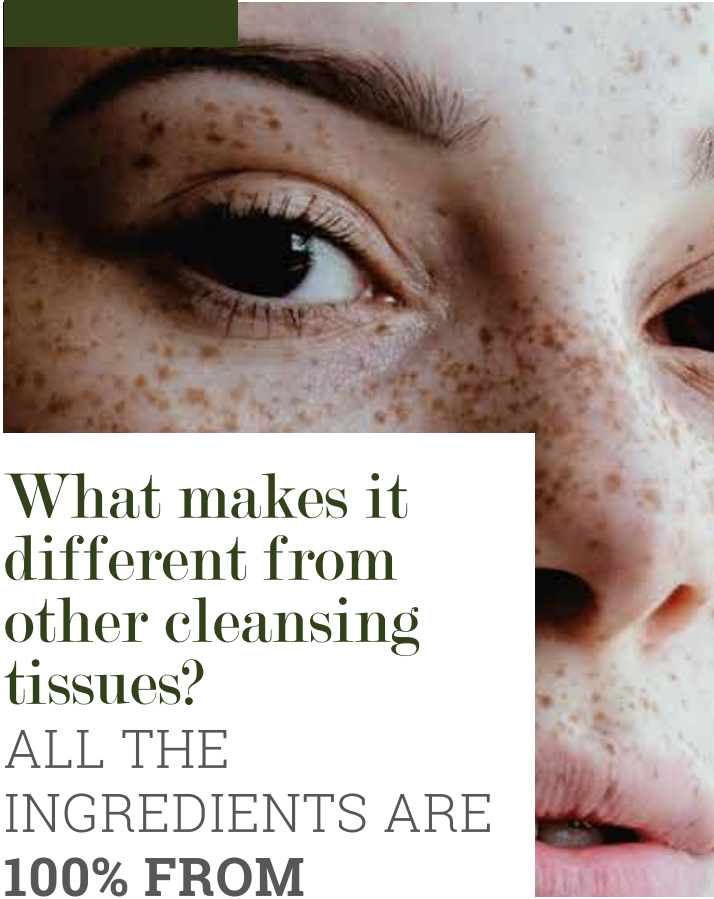

From 100% virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested, and it's free of petroleum and parabens.

## HOW TO PRESERVE FOR BEST RESULTS.

As it contains natural ingredients, it's important to carefully store the product when not in use. The handy packaging is very convenient for purses, backpacks and carry ons, perfect to be used any time when on the run and not near running water and soap, especially while at work or at the gym. Make sure to pour a dime size amount of the product on the hand and rub hands together until completely absorbed.

## Why choose Olivella® Instant hand cleansing gel?

- 1 High alcohol content sanitizes hands
- 2 The olive tree leaf extract was carefully selected to make the formula gentle and delicate, perfect for all types of skin, including sensitive skin. It has a moisturizing effect on the skin and it leaves it immediately smoother after each use.

# Anti-Wrinkle Cream

What is it?  
How does it work?

Face cream formulated for the treatment and prevention of wrinkles with instant anti-aging effect.

Thanks to the **ultra purified olive oil based emulsion, rich in triglycerides and a fraction of unsaponifiables** (phytosterols and tocopherols), this cream has excellent vitaminizing properties, helps to smooth the skin and performs as an antioxidant, with a significant change in the dull, inelastic and dry appearance.

**It targets the four major components of healthy skin: proteins, micronutrients, water, and lipids to nourish from the inside-out and boost firmness and elasticity.**

The extract of the olive tree leaves is rich in hydroxytyrosol and oleuropein which fight the formation of free radicals.

**The hyaluronic acid, in synergy with acetyl hexapeptide-8, composed of natural amino acids, reduces significantly wrinkles, the pores are drastically minimized and contours become more defined.**

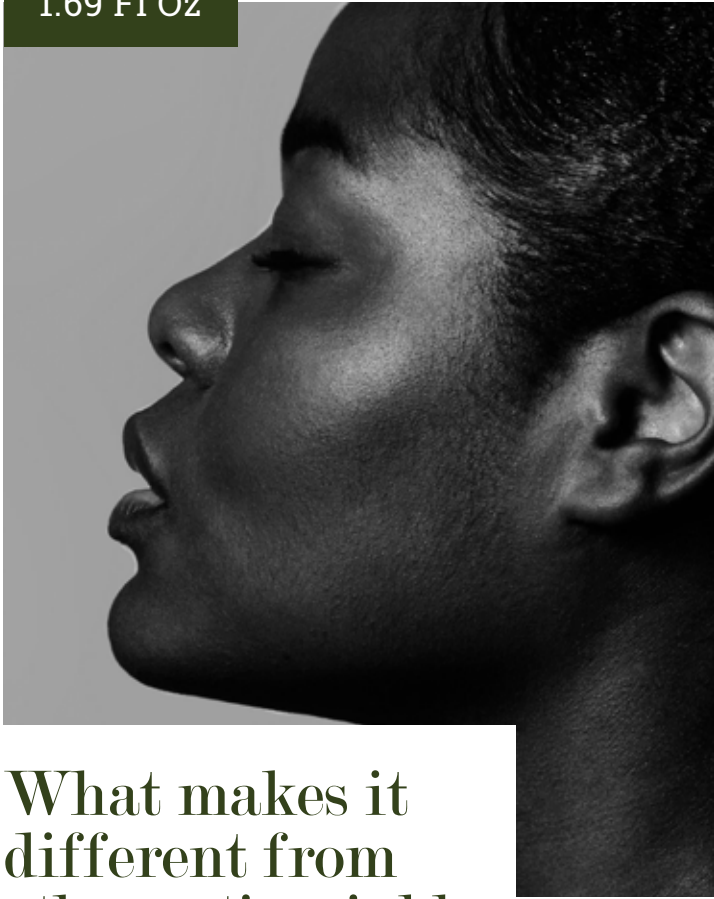

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 99.79%

# NATURAL

50 ml  
1.69 Fl Oz

## What makes it different from other anti-wrinkle creams?

Its basic emulsion is exclusively obtained from 100% ultra-purified virgin olive oil. The olive tree leaf extract added to the formula is rich in hydroxytyrosol and oleuropein., with excellent anti-aging, anti-oxidant and moisturizing properties.

The pureness of the ingredients is guaranteed by Olivella® integrated supply chain.

It is dermatologically tested and it does not contain any parabens, PEG, animal ingredients, mineral oils, dyes or petroleum..

## HOW TO PRESERVE FOR BEST RESULTS.

Because this is a natural product it does not do well if overexposed to light and heat, therefore the jar should be carefully closed and stored after each use.

For greater benefits, apply on the fingertips and disperse on the face with circular movements.

## Why choose Olivella® Anti-Wrinkle Cream?

**1** Its basic emulsion is obtained exclusively from **ultra purified virgin olive oil**, rich in long unsaturated triglycerides (oleic, linoleic, and palmitic acid) and a fraction of unsaponifiables (phytosterols and tocopherols).

**2** It contains **Acetyl Hexapeptide-8**, composed of natural amino acids. Research shows that it **can reduce wrinkle depth** by up to 30% over the course of 30 days. In addition to water-binding properties, this peptide **also helps improve skin elasticity and the skin's natural moisture barrier**.

**3** The hyaluronic acid used in the formulation is of biotechnological origin. 3-Molecular weight is able to deliver instant and long-lasting effects as it **contributes to retain water in different layers of the skin**. This ingredient is capable of holding 1,000 times its weight in water. It inserts itself between the cells of the epidermis, cementing them and forming a visco-elastic film on the surface, **increasing the elasticity and tone of the skin**.

# Contour-eye Cream

Cream formulated specifically for the delicate eye contour area to help improve dark circles and puffiness.

Perfect for morning use and easily absorbed, **it soothes, minimizes and prevents the appearance of crow's feet and sagging of the eyelids.**

Loaded with a botanical complex consisting of soy peptides, hydrolyzed rice germ extract and a biotechnologically produced yeast protein, **delivers a variety of complex antioxidants and moisture deep into the skin, retaining water.**

It improves the microcirculation and strengthens the elastin and native collagen matrix.

Hyaluronic acid of biotechnological origin, combined with virgin olive oil and olive leaf extract, targets fine lines and wrinkles. **It also reduces the dark circles making the skin look youthful.**

What is it?  
How does it work?

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

99.99%

## What makes it different from other contour-eye creams?

The emulsion is exclusively made of 100% ultra-purified virgin olive oil to which Olivella® research and development added powerful effective ingredients for immediate results. This Contour Eye Cream is anti-aging and it helps to improve the appearance of this delicate area of the face, yet very gentle and suitable for all types of skin. The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested and it does not contain any parabens, PEG, animal ingredients, mineral oils, dyes or petroleum.

## HOW TO PRESERVE FOR BEST RESULTS.

Because this is a natural product it does not do well if overexposed to light and heat, therefore the jar should be carefully closed and stored after each use. For greater benefits, apply eye cream to clean, dry skin around the eye orbital area in morning and night, apply before your facial moisturizer to reap all of the benefits and keep refrigerated once opened for best results.

## Why choose Olivella® Contour-eye Cream?

- 1 Emulsifiers based on 100% ultra purified virgin olive oil create a protective barrier very similar to the hydrolipid layer of the skin, and for this reason they are perfectly tolerated, even for the most sensitive skin.
- 2 Olive tree leaves extract, rich in hydroxytyrosol and oleuropein, is a powerful antioxidant as it has the ability to slow the production of melanin and stop the skin tissue from breaking down. It has anti-inflammatory properties, helping to reduce the intensity of pimples and break-outs. It is known to stimulate the growth of new skin cells and to enhance circulation. In turn, the complexion appears to be detoxified, healthy and rejuvenated.
- 3 The botanical complex of biotechnological origin and composed of soybean peptides, hydrolysed rice germ extract, and yeast proteins produced biotechnologically, reduces attenuates the under eyes bags, erasing the visible signs of skin aging and improving the circulation. It also strengthens the matrix of elastin and native collagen.
- 4 The hyaluronic acid used in the formulation is of biotechnological origin. 3- Molecular weight is able to deliver instant and long-lasting effects as it contributes to retain water in different layers of the skin. This ingredient is capable of holding 1,000 times its weight in water. It inserts itself between the cells of the epidermis, cementing them and forming a visco-elastic film on the surface, increasing the elasticity and tone of the skin.
- 5 Bisabolol soothes the skin Organic extracts of mauve and chamomile have a moisturizing, emollient, refreshing and soothing action on the skin.

# Nourishment Cream

What is it?  
How does it work?

Extra nourishing night time face cream, **rich in texture and natural ingredients**. Formulated to penetrate deep into the skin to repair, soothe and maintain the hydrolipidic layer of the skin, leaving it soft and elastic, without any grease residuals.

The exclusive complex design is based on **ultra-purified virgin olive oil** combined with **olive tree leaf extract** which nourishes and protects the skin from external agents due to the high antioxidant **activity of hydroxytyrosol and oleuropein**.

This nourishing cream is **particularly suitable for dry, dull, and inelastic skin**. The renewed formulation is enriched in organic borage oil, rich in fatty acids, in particular the linoleic range and has been shown to be very effective in treating the redness, inflammation and moisture loss associated with dry skin.

**It also participates in cell regeneration and ensures elasticity to the skin.**

## What makes it different from other nourishment creams?

Its basic emulsion is only derived from 100% ultra-purified virgin olive oil uniquely combined with olive tree leaves extract and organic borage oil. **The high concentration of fatty acids contained in the formula revitalizes the skin and reduces signs of aging.** The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested and it does not contain any parabens, PEG, animal ingredients, mineral oils, dyes or petroleum.

## HOW TO PRESERVE FOR BEST RESULTS.

Because this is a natural product it does not do well if overexposed to light and heat, therefore the jar should be carefully closed and stored after each use. For greater benefits, dab a small amount of cream on the fingertips and apply it on the face and neck. Recommended for night use.

## Why choose Olivella® Nourishment Cream?

- 1** Its basic emulsion is obtained exclusively from ultra-purified virgin olive oil, rich in long unsaturated triglycerides (oleic, linoleic, and palmitic acid) and a fraction of unsaponifiables (phytosterols and tocopherols).
- 2** Olive tree leaves extract, rich in hydroxytyrosol and oleuropein, is a powerful antioxidant as it has the ability to slow the production of melanin and stop the skin tissue from breaking down. It has anti-inflammatory properties, helping to reduce the intensity of pimples and break-outs. **It is known to stimulate the growth of new skin cells and to enhance circulation.** In turn, the complexion appears to be detoxified, healthy and rejuvenated.
- 3** Borage oil is the richest plant-based source of gamma linoleic acid (GLA), which is an incredibly important fatty acid because it allows the skin to effectively keep the moisture in and irritants out, favoring cell renewal and ensuring elasticity. It's also extremely rich in tocopherols (Vitamin E) that protect the skin cells from the oxidative stress caused by UV radiation. Lastly, the linoleic acid contained helps to rebuild the skin's barrier, **reducing the so-called transepidermal water loss (TEWL)**, meaning the skin retains moisture for longer. It leads to the skin looking smoother and brighter.

# Hydra-Moisture Gel Cream

What is it?  
How does it work?

**Ultra-light gel-cream that hydrates and moisturizes to lock in moisture for an all-day glow.**

Recommended for night and day use, it's rich in three molecular weights hyaluronic acid, a moisture magnet great for deep hydration, **as it prevents water loss in medium and in depth layers of the skin.**

**Tiger grass (centella asiatica) leaf extract is a natural anti-inflammatory that improves microcirculation and calms the skin from redness, blemishes and discoloration, providing an elastic appearance.**

**The phenolic compounds of olive oil, together with passion flower organic extract, guarantee an antioxidant effect on the skin and reduce the skin sensibility caused by external factors such as pollution, for a bright and fresh look.**

This cream has a gel texture that spreads evenly without getting greasy so that **the skin feels softer and nourished.**

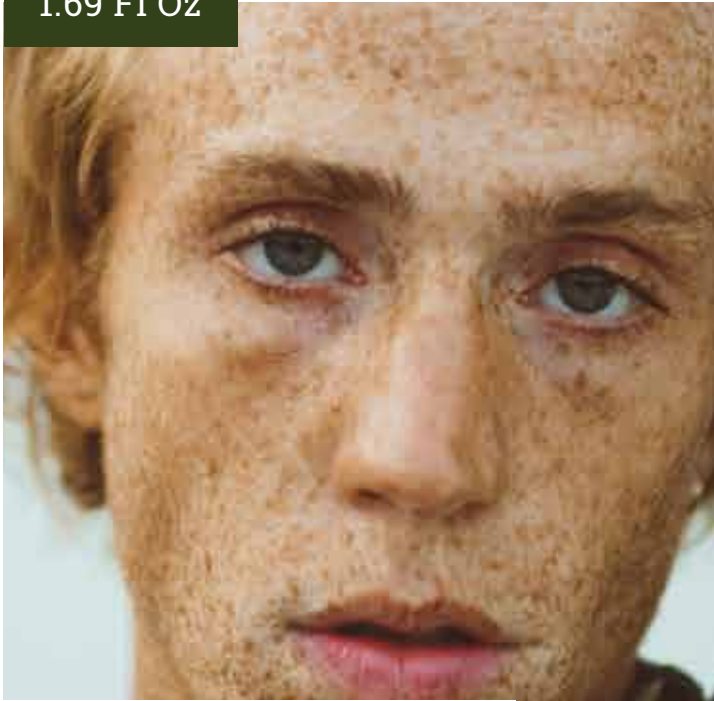

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 99.3%

# NATURAL

50 ml  
1.69 Fl Oz

## What makes it different from other moisturizer gel creams?

The texture is light and easily absorbed, suitable for all skin types. The emulsion is 100% ultra purified virgin olive oil derived and the formula is enriched with extraordinary ingredients such as, hyaluronic acid (protects the skin from dehydration), olive tree leaves extract (antioxidants benefits) centella asiatica extract (calms redness) and passion flower extract (anti free radicals). The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested and it does not contain any parabens, PEG, animal ingredients, mineral oils, dyes or petroleum

## HOW TO PRESERVE FOR BEST RESULTS.

Because this is a natural product it does not do well if overexposed to light and heat, therefore the tube should be carefully closed and stored after each use. For greater benefits, apply a generous amount of gel-cream all over the face alone or as a makeup base. Best if followed by Olivella® Contour Eye Cream.

## Why choose Olivella® Hydra-Moisture Gel Cream?

**1** Centella asiatica extract, obtained from its leaves, is rich in active substances which contribute to improve the skin microcirculation, relieving redness and discoloration, giving it an elastic and bright appearance. Centella asiatica itself also has been shown to have potent antioxidant properties and to be a rich source of amino acids, and there's additional research showing that it's a good hydrating ingredient to soothe upset or compromised skin.

**2** Its emulsion is based on 100% ultra-purified virgin olive oil, rich in triglycerides (oleic, linoleic and palmitic acid) and together with the fraction of the unsaponifiable, has extraordinary nourishing, emollient, protective and vitaminizing benefits for the skin.

**3** Passion flower extract is rich in flavonoids, phytosterols, amino acids, fatty acids, vitamins A (carotenoids) and C, copper, magnesium, phosphorus and calcium. It is used in formula as it helps to slow the damage of aging. In addition, it also helps to preserve collagen and elastin, which keep skin looking firm and youthful. It hydrates the skin without clogging pores and it's soothing and calming for dry, itchy, and irritated skin. It improves the skin cell renewal process and contributes to reducing the appearance of fine lines and wrinkles.

**4** The hyaluronic acid used in the formulation is of biotechnological origin. 3- Molecular weight is able to deliver instant and long-lasting effects as it contributes to retain water in different layers of the skin. This ingredient is capable of holding 1,000 times its weight in water. It inserts itself between the cells of the epidermis, cementing them and forming a visco-elastic film on the surface, increasing the elasticity and tone of the skin.

# Hyaluronic Counter Clock Serum

What is it?  
How does it work?

Counter Clock face serum with three molecular weights hyaluronic acids is an extraordinary product with **immediate illuminating and anti-aging effects.**

We called it "counter-clock" since it brings the skin literally "back into time".

**Rich in olive leaf extract, with antioxidant benefits for the skin.**

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 97.5%

# NATURAL

30 ml  
1.01 Fl Oz

## What makes it different from other hyaluronic acid face serums?

Olivella® research and development carefully selected the most effective ingredients for our serum to make sure the results are immediately visible on the skin. The two key ingredients are the 3-molecular weights of hyaluronic acid, which are able to penetrate deep into the skin's layers creating a barrier against water loss, and the olive tree leaf extract, which is a powerful antioxidant. The pureness of the ingredients is guaranteed by Olivella® integrated supply chain. It is dermatologically tested and it's free of dyes, parabens, animal ingredients and petroleum.

## HOW TO PRESERVE FOR BEST RESULTS.

Because this is a natural product it does not do well if overexposed to light and heat, therefore the bottle should be carefully closed and stored after each use. For greater benefits apply on the face and neck once or twice a day.

## Why choose Olivella® Hyaluronic Counter Clock Serum?

- 1 It's anti-aging: it contains hyaluronic acid with three molecular weights, which reduces the evaporation of water from the skin, favoring the collagen production and elasticity.
- 2 It improves cell regeneration: the mix of biomimetic peptides protects the skin from damage resulting from exposure to the sun and reduces scar marks.
- 3 It's a brightening formula: it brings a brightening effect on the skin, thanks to olive tree leaves, sweet orange, rice and caper fruit extracts.
- 3 It's restorative and calming: a pool of active acids contained in the caper fruit, prickly pear and olive tree leaves extracts, makes it suitable for all skin types, including the most sensitive ones, thanks to its repairing, calming and soothing benefits.

# Moisturizer Oil

**Olivella® Moisturizer Oil is a balanced blend of highly selected natural ingredients: pure virgin olive oil, vegetable squalane and a mixture of vitamins and essential oils.**

The result is a moisturizer rich in nutrients, which we call the "Mediterranean diet" for your skin. This is thanks to the fact that a few well-distributed drops give great results of hydration and brightness. All of the active ingredients contained in olive oil are strengthened in their moisturizing, emollient and dermo-protective action. The Moisturizer Oil is therefore not simply just a natural oil but a true cosmetic formula that **adapts perfectly to the hydrolipidic layer of all skin types, even the most delicate areas from the face to the body.** This oil protects the skin from external agents, nourishes it and repairs it in-depth.

**The Olivella® Moisturizer is a true remedy for damage caused by external agents: sun, cold, wind, pollutants or synthetic materials in direct contact with the epidermis.**

**Ideal if used daily at the start of each day, in the most exposed or in need of places such as the face, hands or other areas like the nails, elbows and heels, which may be dry, chapped, red or irritated.**

**To be applied on hands first and distributed to the face and body with light circular motions.**

**It is perfectly absorbed after a few minutes.**

It can be used in the evening before going to bed and in the morning under makeup. Application is suggested in small quantities, even on damp hair to reduce frizz and make it smooth and easy to comb.

**What is it?  
How does it work?**

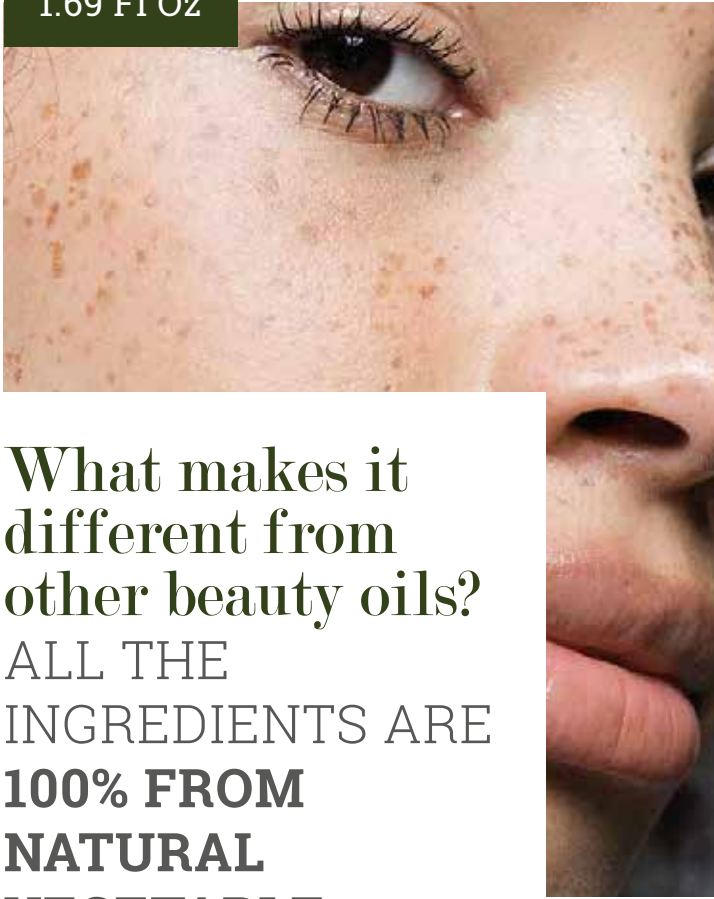

From 100% virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 100%

# NATURAL

50 ml  
1.69 Fl Oz

## What makes it different from other beauty oils?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

The squalene contained in olive oil has a great affinity towards the dermis, effectively fighting dehydration and reinforcing the natural lipid barrier. Therefore, this product is like human sebum, a perfect natural emollient that easily absorbs and leaves no residue.

Repairs while nourishing, which also helps the healing of skin tissues which become irritated, ensuring a silky and elastic appearance even to the most chapped and dry areas of the skin. It's dermatologically tested and it's free of petroleum, dyes, parabens and animal ingredients.

## HOW TO PRESERVE FOR BEST RESULTS.

CHARACTERISTICS? Olive oil and natural essences are very sensitive to the exposure of oxygen, light and direct heat sources. To preserve all of the amazing properties of our Oil, it is advisable to keep it in the cupboard and always use it with the original dispenser avoiding opening the bottle as not to expose the Oil to too much air.

## Why choose Olivella<sup>®</sup> Moisturizer Oil?

- 1
  - Blend of triglycerides of OLIVE OIL rich in monounsaturated acids: HYDRATING EFFECT.
  - Natural glycerin: MOISTURIZING EFFECT.
  - Wax: EMOLLIENT EFFECT.
  - Mixture of natural un-saponifiables (phytosterols): DERMA REGENERATORS.
  - Squalene: ANTI-AGING EFFECT.
  - Vitamin A: ANTI-AGING EFFECT.
  - Vitamin E: ANTI-AGING EFFECT.
  - Alcohols and Triterpenic Acids ANTIMICOTIC EFFECT.
  - Mixture of Polyphenolic Compounds ANTI-OXIDANT, REFRESHING, SOOTHING EFFECT.
  - Vegetal squalane from olive oil: ANTI-AGING EFFECT.

2 100% natural. Without parabens. Without dyes.

3 Rich in natural aromatic active ingredients: Essential Sweet Orange Oil, Essential Lavender Oil, Essential Ylang Ylang Oil.

4 Suitable for all skin types.

# Hand Cream

What is it?  
How does it work?

Olivella® Hand Cream is formulated with ultra-purified virgin olive oil and contains a silky rich consistency, a lustrous appearance and a light fragrance. Designed specifically for the hands which are frequently exposed to the action of aggressive external agents such as the cold and wind. It protects and helps the regeneration of the dermis favoring cell turnover. This Hand Cream has a fundamental structure derived from olive oil, certified Ecological (ECO-CERT), a natural anti-aging substance that gives tone and elasticity to the skin. Able to keep the hydrolipidic barrier intact, by protecting the skin as much as possible. Free of dyes and preservatives, it is naturally rich in the pigments of the ripe fruit of the olive and retains all its nutritive properties.

It is rich in active ingredients that provide intense nourishment, **it absorbs easily without leaving any residue.**

This cream penetrates the deeper layers of the dermis to restore the water balance and provide elasticity and softness.

Apply liberally on the front and back of the hands, it generates the structures of liquid crystals that mimic the skin and keep the hands soft and smooth all day long.

It contains no dyes and synthetic essences. The color of the emulsion is completely natural and is exclusively due to the virgin olive oil.

From 100% ultra-purified virgin olive oil,  
natural ingredients, anti-aging properties,  
natural antioxidants, paraben free.

# 99%

**What makes it different from other hand creams?**

**ALL THE INGREDIENTS ARE 100% FROM NATURAL VEGETABLE DERIVATION**

The cream is the result of the most modern cosmetic research applied to ancient natural ingredients. It is rich in nutrients contained in olive oil and absorbs instantly for a comfy, non-greasy feel, it is delicately colored and is pleasantly fragrant however it does not contain any synthetic fragrances.

It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes.

## **HOW TO PRESERVE FOR BEST RESULTS.**

Ideal if applied after washing your hands with our Olivella® liquid soap line, also to be used several times a day and in the evening before going to bed. Due to the natural principles that it contains, it is best to avoid direct heat sources so it is advisable to close the tube carefully after each application and store it in a suitable environment.

## **Why choose Olivella® Hand Cream?**

**1** Ultra-purified virgin olive oil emulsion: Obtained from the pressing of the fruit of the European Olea is considered the noble Mediterranean oil, consisting almost entirely of long-unsaturated triglycerides (oleic acid, linoleic), contains a fraction of "un-saponifiable". Consisting of squalene, phytosterols and triterpenic alcohols (dermatologically active molecules). Olive oil has always been used in skin care to nourish it, make it elastic, cleanse it, soothe it and protect it.

**2** Enriched with vitamin F: it is the cutaneous vitamin par excellence because its presence avoids dryness, roughness and the dull appearance of the skin.

**3** Free of dyes and preservatives of synthetic origin.

**4** Delicately scented with precious essential oils that enhance and complement the natural fragrance of ripe fruit of the olive tree.

# Body Cream

What is it?  
How does it work?

Olivella® Body Cream is a rich blend of natural ingredients infused with 100% ultra-purified virgin olive oil based emulsion. The Body Cream is derived from virgin olive oil and ecologically certified. **It is a natural anti-aging product that gives tone and elasticity to the skin, maintaining the integrity of the natural skin barrier** that provides ultra-hydration. It helps deliver intense nourishment to the skin and is used to treat and prevent dry, cracked skin while keeping it supple and moisturized.

The nourishing action of the olive oil is enhanced by the presence of the **Natural Moisturizing Factor**, a mixture of vitamins that prevents the skin from losing water.

The body cream therefore guarantees a perfect water balance in the body tissues, providing a major dose of moisture to the skin, maintaining its original structure of its liquid crystals.

**The essential oils of sweet orange and bergamot are considered active, revitalizing and stimulating substances of the skin.** Perfect if applied after baths and showers, it exerts a beneficial emollient and nourishing action especially on the drier or stressed out areas of the body such as the feet, legs and arms.

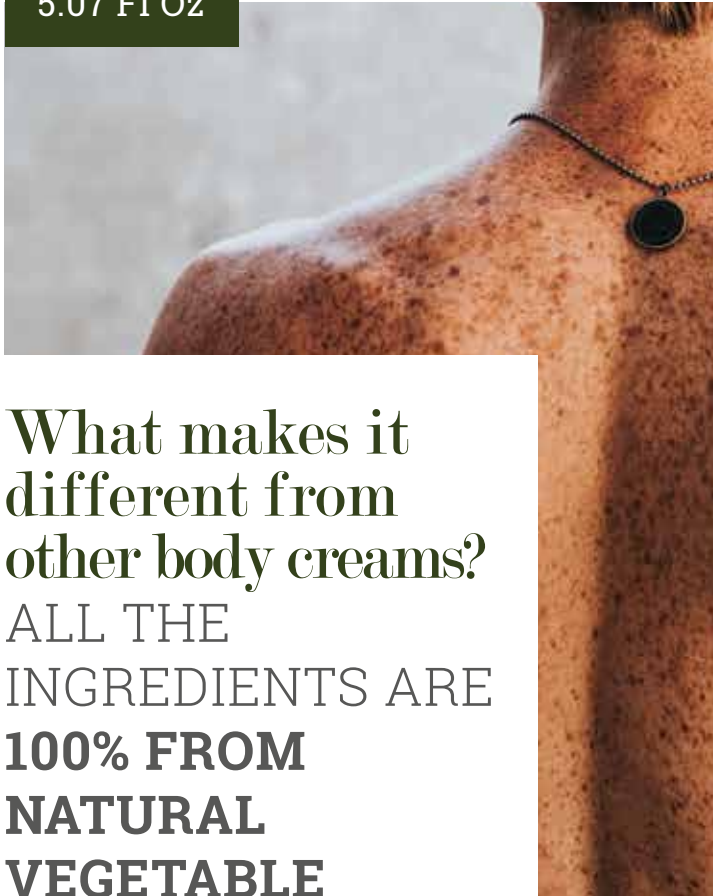

From 100% ultra-purified virgin olive oil,  
natural ingredients, anti-aging properties,  
natural antioxidants, paraben free.

## What makes it different from other body creams?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

The cream is the result of the most modern cosmetic research applied to ancient natural ingredients. **It is rich in nutrients contained in olive oil and absorbs instantly for a comfy, non-greasy feel.** It is a delicate green color with a light clean fragrance thanks to the natural olive pigment however **it does not contain any added colorings nor does it contain synthetic fragrances.** It is an extremely effective cosmetic to use with peace of mind because it is natural and safe for the skin and the environment! It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Distributed with a light circular massage on the areas of the skin that are the most dry (feet, legs, arms). The cream is easily absorbed and ideal after baths and showers. It has a beneficial regenerating and toning effect. Due to the natural principles that it contains, avoid storing in bright light and sources of direct heat. It is advisable to close the tube carefully after each application and store it in a suitable environment.

## Why choose Olivella<sup>®</sup> Body Cream?

**1** Ultra-purified virgin olive oil emulsion: obtained from the pressing of the fruit of the European Olea is considered the Mediterranean noble oil, consisting almost entirely of long-unsaturated triglycerides (oleic acid, linoleic), contains a fraction of "un-saponifiable". Consisting of squalene, phytosterols and triterpenic alcohols (dermatologically active molecules). Olive oil has always been used in skin care to nourish it, make it elastic, cleanse it, soothe it and protect it.

**2** Contains the Natural Moisturizing Factor, a natural blend of vitamins that prevents the skin from losing water from the tissues, used as a complement to the other ingredients to ensure a perfect water balance.

**3** **Enriched with vitamin E: also called tocopherol, is the antioxidant vitamin par excellence, protects the lipids of cell membranes from the aggressive action of free radicals.** It has a moisturizing and soothing action against inflammation. Applied to the skin, it reduces the formation of lipoperoxides and slows down photoaging.

**4** Pleasant to the touch and smell, fragranced with the essential oils of sweet orange and bergamot which are revitalizing and stimulating active substances for the skin.

# Body Lotion

## What is it? How does it work?

Olivella® Body Lotion is a light delicately scented **natural emulsion designed to hydrate and keep the skin elastic.**

The silky soft consistency gives the skin an immediate sense of hydration that lasts throughout the day.

The Olivella® Body Lotion is formulated with the finest active ingredients found in virgin olive oil which prevent and protect the skin from dryness thanks to the purity of the substrate, leaving the skin soft and elastic.

**The emulsion is 100% ultra purified virgin olive oil based. The Vitamin C and Vitamin A give it a particularly fresh texture that leaves the skin with a radiant glow.**

It has the consistency of a light lotion but is rich in precious nutrients for the skin. Designed to be **non greasy and quick-absorbing.**

The abundance of water-soluble vitamins gives it fantastic antioxidant properties. Ideal for everyday use but particularly useful in the hot summer months, especially after frequent sea baths when the skin tends to dehydrate. Also suitable for the most delicate and sensitive skin.

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# NATURAL

500 ml  
16.9 Fl Oz

## What makes it different from other body lotions?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

The real challenge of cosmetics is obtaining excellent results while also keeping all of the properties and characteristics of each active ingredient intact. The Olivella® Body Lotion simultaneously possesses the benefits of both soluble oil and water-soluble molecules. A result not to be taken for granted because oil and water are not mixable. Olivella Body Lotion helps skin maintain its elasticity, luminosity and combats damage related to oxidative stress. It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Due to the natural principles that it contains, it is best to avoid direct sources of light and heat. It is advisable to close the bottle carefully after each application and store it in a suitable environment. Distributed with a light circular massage, it is easily absorbed, perfect after sea baths and recurring showers, restoring hydration and a pleasant sensation of freshness. It has a beneficial regenerating and toning effect.

## Why choose Olivella® Body Lotion?

**1** Olive oil extract obtained from pressing the fruit of the European Olea is considered to be the noble oil of the Mediterranean. It is made almost entirely of triglycerides (oleic acid, linoleic) and contains a fraction of un-saponifiable consisting of squalene, phytosterols and triterpenic alcohols. It nourishes, cleanses, soothes and protects the skin.

**2** It is a very rich lotion full of vitamin C, one of the most powerful antioxidants in nature that can be used "topically" in skin care. Topical treatments of vitamin C can help to improve the state of one's skin if affected by photosensitivity phenomena, dyschromia and sagging due to age, acne scars and inflammatory lesions in general.

**3** The combination of nutrients of olive oil with water-soluble vitamins, promotes the synthesis of collagen (structural protein that is the main fibrous element of the skin). It prevents blemishes from hyperpigmentation and contains anti-inflammatory properties.

**4** Does not contain dyes or preservatives of synthetic origin.

# Classic Body Oil

The Olivella® Classic Body Oil is a lightweight moisturizer for your skin that quickly absorbs providing essential hydration that leaves the skin feeling smooth and silky. The Olivella® body oil line includes a variety of different scents each with their own unique characteristics, designed to meet the needs of customers who are particularly attentive to their health and respectful of the environment. It is an ultra-purified virgin olive oil, enriched with a blend of natural vitamin E and a mixture of precious essential oils all carefully selected in accordance to our strict manufacturing criteria and for the purity. The natural essences (the tree essence and the thym rouge essence) contained in our classic body oil, in the symbolic language of the flowers and in "aromatherapy", indicate courage, lasting love, spirit of creativity and dynamism.

The Classic body oil is designed to deeply nourish the skin leaving it with a radiant healthy glow. It is rich in active ingredients contained in virgin olive oil. This Body Oil protects the skin from the action of all aggressive agents such as synthetic detergents, cold, contact with non-natural garments, prevents irritation and redness.

The precious essences of tea tree and the thym rouge essence make it a stimulating skin tonic which helps calm and soothes the skin, by revitalizing and renewing it. Ideal for toning massages, after a shower or bath, smooth on a few drops of our classic body oil while skin is still damp, or it can be added to bath water to help soften and moisturize your skin while you bathe.

What is it?  
How does it work?

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

# 100%

# NATURAL

250 ml  
8.45 Fl Oz

## What makes it different from other body oils?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

Olivella® body oil, unlike many other products on the market, is not a mixture of different types of oils that come from a variety of different natures, compositions and origins. It really only contains 100% ultra-purified virgin olive oil and no other vegetable oils are added. It does not contain chemical synthesis compounds or petroleum derivatives; it is only an exclusively refined olive oil. The uniqueness of our body oil is designated by the purity of the 100% high quality natural ingredients and the harmonic notes of the precious essences we use. It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Olive oil, like any other natural ingredient, is very sensitive to the action of oxygen, light and direct heat sources. To preserve all the properties of our body oil it is advisable to keep it stored in a cupboard, always use it with the original dispenser, and avoid leaving the bottle open for long periods of time to not expose it to too much air.

## Why choose Olivella® Classic Body Oil?

**1** It is a body oil that contains the following functional active ingredients whose properties are amply demonstrated by clinical studies and by the long experience we have in the olive oil sector:

- Blend of triglycerides of OLIVE OIL rich in mono and polyunsaturated acids: HYDRATING EFFECT
- Natural lotion: HYDRATING EFFECT
- Waxes: EMOLLIENT EFFECT
- Mixture of natural un-saponifiables (phytosterols): DERMA REGENERATORS
- Natural vegetable squalene: ANTI-AGING EFFECT
- Vitamin A: ANTI-AGING EFFECT
- Vitamin E: ANTI-AGING EFFECT
- Alcohols and Triterpenic Acids: ANTIMYCOTIC EFFECT
- Polyphenolic Compounds Blend: ANTI-OXIDANT-REFRESHING-LENITIVE EFFECT

**2** It is a 100% natural body oil and therefore totally biodegradable.

**3** It is suitable for all skin types and thanks to its balanced formulation, it is absorbed quickly.

**4** Due to its essences, it gives a pleasant and lasting sense of vitality.

# Anti-Stretch Marks Body Oil

What is it?  
How does it work?

The Olivella® Body Oil Line provides a variety of different scents all with their own unique characteristics.

**The Anti-Stretch Marks Body Oil was created for the most delicate skin, for example the sensitive skin of pregnant mothers.** This soothing oil can also be used to facilitate the healing of wounds and marks on the body.

**The ultra- purified virgin olive oil is enriched with sweet almond oil and natural essences that make it an emollient, nourishing and elasticizing product.**

Thanks to its delicacy, moisturizing and emollient action of the purest olive oil, and it's fine blend of sweet almond and orange peel oil, it has a soothing and restorative effect on the skin. Due to these properties, **it helps prevent and treat postpartum stretch marks or the consequences of sudden weight gain or loss.** It is ideal if applied to the skin with light massage until absorbed thoroughly.

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

250 ml  
8.45 Fl Oz

## What makes it different from other body oils?

ALL THE INGREDIENTS ARE **100% FROM NATURAL VEGETABLE DERIVATION**

It does not contain chemical synthesis compounds or petroleum derivatives. The uniqueness of our body oil is identified by the purity of the 100% high quality natural ingredients and the harmonic notes of our very delicate precious essences that make it suitable for the most sensitive skin. It's dermatologically tested and it's free of animal ingredients, petroleum, parabens and dyes.

## HOW TO PRESERVE FOR BEST RESULTS.

Olive oil, like any other natural ingredient, is very sensitive to the action of oxygen, light and direct heat sources. To preserve all the properties of our body oil it is advisable to keep it stored in a cupboard, always use it with the original dispenser, and avoid leaving the bottle open for long periods of time to not expose it to too much air.

## Why choose Olivella® Anti-Stretch Marks Body Oil?

**1** It is a body oil that contains the following functional active ingredients whose properties are amply demonstrated by clinical studies and by the long experience we have in the sector:

- Blend of triglycerides of OLIVE OIL rich in mono and polyunsaturated acids: HYDRATING EFFECT
- Natural glycerin: MOISTURIZING EFFECT
- Wax: EMOLLIENT EFFECT
- Mixture of natural un-saponifiables (phytosterols): DERMA REGENERATORS
- Natural vegetable squalene: ANTI-AGING EFFECT
- Vitamin A: ANTI-AGING EFFECT
- Vitamin E: ANTI-AGING EFFECT
- Alcohols and triterpenic acids: ANTIMICOTIC EFFECT
- Mixture of Polyphenolic Compounds: ANTI-OXIDANT-REFRESHING-LENITIVE EFFECT
- Sweet Almond Oil: CICRATIZING EFFECT

**2** It is a 100% natural body oil and therefore totally biodegradable.

**3** It is suitable for all skin types and because of its balanced formulation, it is absorbed in a short time.

# Refreshing Body Oil

What is it?  
How does it work?

The Olivella® Refreshing Body Oil is made using manufacturing techniques that preserve the highest concentration of the functional active ingredients in olive oil.

**Enriched with fine essences of mint, obtained with steam distillation** which guarantees quality and preserves all of the attributes of the antiseptic and antibacterial properties in the mint.

**The refreshing body oil is perfectly purified virgin olive oil which helps maintain and restore the natural lipid layer of the skin.** Enriched with mint essential oil whose properties are known in aromatherapy, it is particularly indicated when you want a feeling of freshness, immediately after a shower or during a massage.

**The formulation of the product guarantees a high absorption of the active ingredients contained in it, exerting a natural anti-stress, regenerating and refreshing action.** Applied daily, directly on the body with light massage until absorbed. Ideal if used in the morning after the shower, to face the day with more energy.

From 100% ultra-purified virgin olive oil, natural ingredients, anti-aging properties, natural antioxidants, paraben free.

**2** It is a 100% natural body oil and therefore totally biodegradable.

**3** It is suitable for all skin types and because of its balanced formulation, it is absorbed quickly.

# Relaxing Body Oil

The Relaxing Body Oil is **derived from 100% ultra-purified virgin olive oil blended with ylang ylang essential oil** which originates from the steam distilled flowers of the *Cananga odorata* botanical with innovative techniques that preserve its dermo-protective properties. Its appearance is a bright yellow color with a sweet delicate floral scent thanks to the precious natural essences obtained by distillation of the ylang ylang plant's sea star-shaped flowering parts.

**Ylang Ylang Essential Oil is known to balance and regulate oil production in the skin and even in the hair, while at the same time soothing inflammation and irritation and contributing and maintaining hydration.**

The purity of the ultra- purified virgin olive oil, balanced with the properties of the Ylang Ylang Essential Oil, all make this product a unique remedy to comfort the mind and body.

Thanks to all of the properties of highly **purified virgin olive oil and the precious ylang-ylang essential oil (highly appreciated in aromatherapy for its relaxing and aphrodisiac properties)**, the product is particularly suitable for body care and massages. Its formulation ensures an excellent absorption of the active ingredients, securing the natural balance of the skin.

It is 100% natural, perfect if applied to the skin accompanied by a light massage until absorbed. Ideal if used at the end of a busy day on the most tired areas of the body.
