EAB 20 | Energy Absorbing Bollards

1.6 tonnes at 20km/h

Complies with AS/NZS 1170.1:2002

Introducing Australian Bollards' EAB20

An effective solution for low speed traffic areas. The EAB20 is a cost effective and compact alternative to the traditional Energy Absorbing Bollard. Able to withstand 1.6 tonnes at 20km/h, our EAB 20 also complies with Australian Standards (AS/NZS 1170.1:2002)
