**AB-SPEHP-200**

Solar Power

Emergency Help

Point Bollard

The Essential First Step

Post Dimensions

200mm x 200mm

Material

Rust Proof RHS finished with a rippled powder coating.

Installation

Mounted on a 16mm Base Plate.

Inputs

Wireless 4G, Integrated Camera with DVR allowing easy download.

Operation

Mounted solar panel powers the inbuilt batteries giving operation for a minimum 72 hours.

Additional Notes

Our new wireless 4G help point bollard would suit many applications such as bus terminals, car parks, universities, public parks, special events, shopping centers and many other applications. Saving lives - 24/7 keeping Australians Safer.

It can be integrated into an existing monitoring system and can be implemented with minimal infrastructure. We can also customise to suit your requirements.
