## Wall Mounted Bump Rails

### AB-WMBR-S

### Description

Our wall mounted version Bump Rail are designed to protect items such as walls, partitions, insulated wall panels and masonry wall, from the impact of trolleys, mobile bin units, pallet trucks and other forms of wheeled traffic.

Our wall mounted bumprails are also an ideal alternative for when surfaces are not suitable for floor mounting.

This wall mounted style Tubular Bump Rail is typically supplied mounted on flat bar posts with a circular baseplate and countersunk fixings.
