

## 100% ULTRA-PREMIUM SILICONE

All Tantus Toys are made from Tantus' own unique formula of 100% Ultra-Premium Silicone. The superior quality of Tantus silicone makes all Tantus Toys hypoallergenic, non-toxic, phthalate free, odorless, bleachable, boilable and even dishwasher safe. These factors combined make Tantus Toys the safest and most pleasurable toys on the market. A toy from Tantus is meant to be used and with minimal care Tantus Toys can last a lifetime.

### Tantus Tawse It Overboard

Tawses (pronounced taws) were used as corporal punishment in public schools in Scotland until 1987. The impact of the standard leather tawse can be very intense; even more so in Tantus Silicone. Tawse It Overboard features four tongues, each 3/8" thick, 8.5 inches in length. The density is intense. Because it's Tantus Silicone, it transmits energy very effectively and takes very little in terms of strike force. The handle (1.5 inches by 6 inches) is very effective for blunt impact play and as a potential heavily textured dildo for internal use. And, because the Tawse It Overboard is made from Tantus Silicone you can thoroughly cleanse the toy. With a little care, Tawse It Overboard will last a lifetime.

- Transmits Energy Effectively
- Handle Is Perfect For Blunt Impact Play
- 4 Thick Tongues
- Handle Can Be Used As A Textured Dildo
