PRODUCTS WE'RE LOVING RIGHT NOW

Summer is officially in full swing! And with it comes longer days, warmer temps, and a whole new arsenal of products that soothe the sunburns, keep b.o. at bay, clarify clogged pores, and provide that coveted dewy summer glow that comes either from a really effective highlighter or just really aggressive humidity (we'll take the highlighter).

### Together Beauty Hair Mask

Sam Brocado is a bit of a legend in the hair care space, so when we learned he was creating a new clean hair line, we jumped at the opportunity to try them out. We had the chance to try some of the products from Together Beauty, and chat with Sam about why he wanted to create a clean hair care line.

*“Together Beauty was born not only from my desire to create a line that was clean and free of petro-based additives, but to create a line of natural products that were still high performance and delivered on results.”*

Our favorite from the line (though every product is definitely worth a try) is the C + G Masque, which is formulated with a blend of mongongo oil, quinoa and baobab seeds, and castor oil for moisture and leaves hair feeling light and bouncy after washing out. And Sam’s pro tip for all of you hitting the beach this summer? The Masque is meant to be blended onto the hair somewhat heavy and then absorbs into the hair, so work the C + G Masque into your hair before heading to the beach. The addition of the sun rays help to easily melt the cream into the hair, and the oils and carnauba wax are able to better penetrate into the hair follicles for a super deep condition.
