

# Maestosa Automatic

## Fully Automatic

### Adaptive Grinding Technology

Electronically controlled precision grinding for the best flavour: 2 grinders and a new electronic control guarantee a precise and consistent grinding and a long-lasting performance, preparation after preparation.

### Independent Bean Containers

Two independent bean containers for a more personal coffee experience: the end-user can choose, via display, which type of coffee beans to be used for his beverage preparation.

### LatteCrema Thermal Carafe

Thanks to the new LatteCrema thermal carafe with moving arm, users can deliver double milk beverages in one shot. Moreover, milk foam can be easily regulated from the display.

### One Touch Recipes

From authentic Italian Espresso to Cappuccino, from Coffee to Flat White, Maestosa can deliver multiple recipes with just one touch, including Cold Coffee (thanks to the dedicated MixCarafe) Coffee pot and a selection of beverages served for 2.

**Innovative Design and Finishings** Users can be delighted by an elegant striped stainless steel body, an ultra-mirror stainless steel top cover and bright black glass front panel.

### Intuitive Colour Display

5" full touch TFT colour display and Coffee Link App for the maximum ease of use and interaction.
