

DIFFERENT TYPES OF NAILS

Nails are one of the most crucial aspects to the dabbing process. Every nail is different and they all have pros and cons. So it's important that you choose one that's a great fit for you. We at Smoke Cartel have compiled a list of the most common nail types that we offer.

DOMES REQUIRED

We recommend pairing vapor domes with the two nails shown below. A vapor dome fits over the nail and prevents you from losing any of your concentrate vapor.

ADJUSTABLE NAIL

Adjustable means that this nail can change to fit several different size joints.
Materials: Titanium and Titanium Nitrate
Sizes: 14mm, 14mm to 10mm, and 14mm to 19mm
Genders: Fits male joints

GLASS NAIL

The standard nail that is sometimes included with pieces. Very fragile.
Materials: Glass
Sizes: 14mm and 18mm
Genders: Fits male joints

HOMELESS

A domeless nail is the combination of a nail and a dome. They're great because they reduce the risk of burn when dealing with adjusting the dome.

UNIVERSAL NAIL

These nails can fit up to two sizes of either male or female joints.
Materials: Titanium and Ceramic
Sizes: 14mm and 18mm
Genders: Available for male and female joints

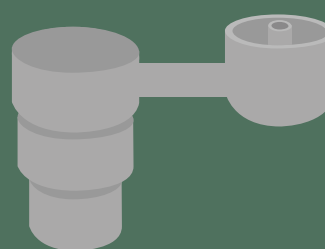

SUPER UNIVERSAL NAIL

The ultimate, one size fits all nail. It can be adjusted to fit both female and male joints as well as two different sizes.
Materials: Titanium and Ceramic
Sizes: 10mm, 14mm, and 18mm
Genders: Fits both male and female joints

DIRECT INJECT NAIL

This nail features a bucket style top with a tube protruding through the center to provide airflow.
Materials: Quartz
Sizes: 10mm, 14mm and 18mm
Genders: Available for female and male joints

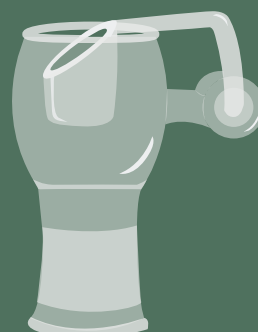

SIDEARM NAIL

This nail is great for getting the heat away from the glass rig and joint. It fits two sizes of female joints.
Materials: Titanium
Sizes: 14mm and 18mm
Genders: Fits female joints

BANGER

Another great nail to use when you want to keep the heat away from your glass.
Materials: Quartz
Sizes: 10mm, 14mm and 18mm
Genders: Available for female and male joints

HONEY BUCKET

The hybrid of a vapor dome and a banger. Also features a removable, swinging arm.
Materials: Quartz
Sizes: 14mm and 18mm
Genders: Fits male joints

SO WHICH NAIL DO WE RECOMMEND?

It all depends on the buyers needs and wants. Do you have an expensive, heady piece that you cherish? We'd recommend a sidearm to keep the heat as far away from the glass as possible. Are you new to dabbing? Start out with a Super Universal Titanium Nail. They're impossible to break and it will fit any size piece you have, so you can't go wrong. Just be sure to pick a nail that will make you and your piece happy!
