

printable swift warping helper

Instructions:

1) Print this document on A4 size paper at 100% scale.

2) Check this gauge to ensure that the scale is correct:

3) Cut out the *swift warping helper* and fold along the dotted lines.

4) After you have your fabric on the work surface and attached to the loom body, attach put the swift warping helper accross the work surface and tuck the tabs under the tie.

5) Use the edges of the black squares to align your warp stitches.

You may only need one, but we've included some extras just in case (and to fill space on the page)
