

HARBOUR CITY DOG GEAR

MANIFESTO

- We will never stock/endorse products that we believe cause you or your dog harm or fear; eg shock collars, electronic anti-bark collars, citronella collars, water sprays, prong collars.
- We will always be honest about the products we sell and so will our suppliers.
- We will happily recommend a product we don't stock if it is what we think is best for your dog or cat.
- We will not pat, cuddle, pick up, or otherwise touch your dog unless given permission by either them or you.
- We will never give your dog treats or any other food unless given permission.
- We will provide a friendly and safe space where you are welcome to bring your dog. We will never force a dog to try anything that makes them feel uncomfortable or stressed.
- We will always look for Australian-made, but overall we will always find the highest quality and best products we can.
- We welcome suggestions to stock products you love, but we will only stock products that align with our core values: integrity, wellness, quality, safety, comfort, reliability, respect.
