colo

—
We are a specialty coffee roaster from Bogotá, Colombia inspired in our country, in our people and our land.

**WE WANT TO BRING COLOMBIA'S
DIVERSITY TO EVERY CUP OF COFFEE.**

OUR MAIN PURPOSE
IS TO SELECT, ROAST
— AND SERVE —

THE BEST CUPS OF COLOMBIAN
COFFEE.

We believe in doing things with intense passion. We believe in Colombia, in the wealth of our land, and our people. We love to share and connect through stories. We work every day to bring 100% fresh colombian coffees to our cafes and our customers' homes.

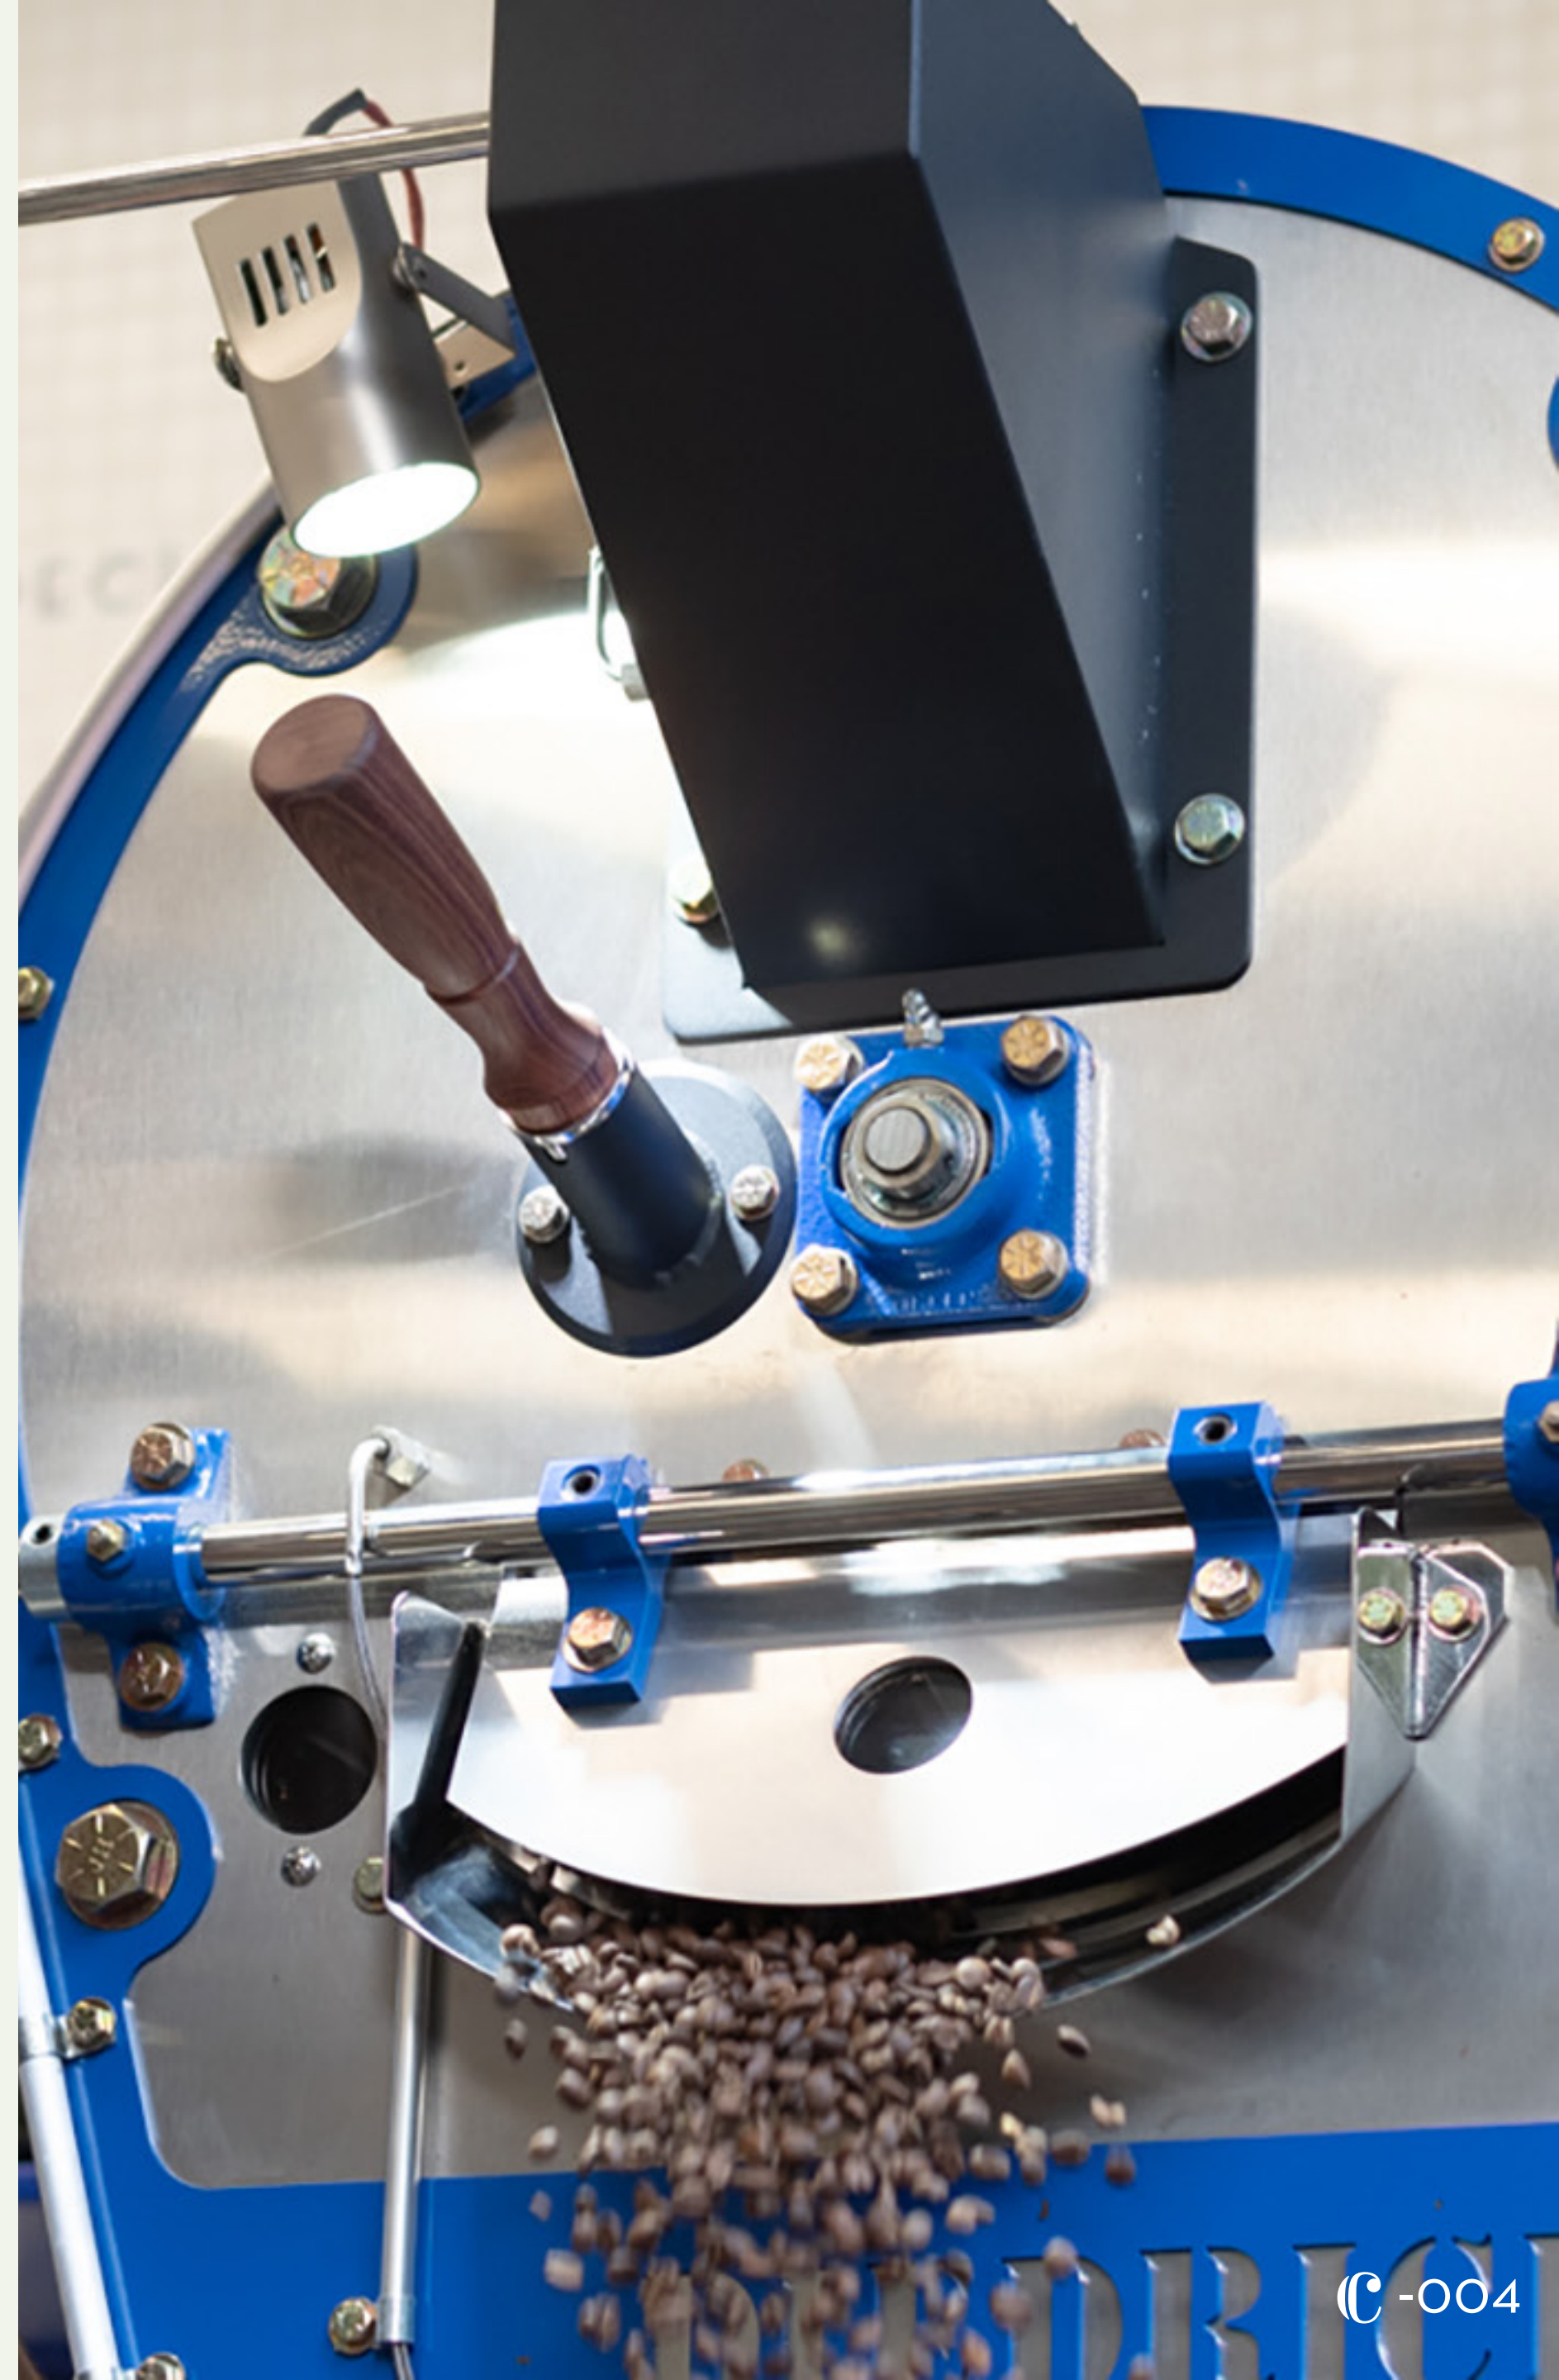

**WE'D LIKE TO SHARE THIS PASSION WITH YOU,
FROM COLOMBIA'S COFFEE FARMS TO YOUR CUP.**

ROASTING

Every day, we strive to give you the best colombian coffee. Our master roaster profiles our coffees to give you an incredible experience and to show you the diversity of colombia in a single cup of coffee. We have the first roaster in Colombia 100% energized with solar energy.

We have less co2 emissions and with the diedrich technology we can produce more homogeneous batches roasted and selected every day by our master roaster.

OUR SERIES

DIVERSOS

We offer a collection of diverse and exuberant coffee varieties, defined by region, traditions, and local farmers. We strive to represent the immense diversity of the coffees of Colombia.

OUR SERIES

CONTEMPORÁNEOS

We have dedicated ourselves to find coffee beans with unconventional cultivation and fermentation processes, in order to expand the experience of our coffee heritage. We want to represent new trends and create new experiences through these coffees.

OUR SERIES

ANCESTROS

Our line of “ANCESTROS” coffees pay homage to the traditional coffee beans our ancestors have been harvesting for centuries. By finding these traditional beans, that are not commercial nor well-known, we are trying to get back to our roots and revitalize these colombian varieties to the global market.

OUR SERIES

COLD BREW

Our Nitro Cold Brew is a canned nitro coffee drink. Infused in cold water for 18 hours, making it sweeter and with a higher caffeine content. No sugars or additives added. It's our all-natural energy drink.
