

SOFA EIGHT SYSTEM WORKSHEET

Sofa Eight by Neri&Hu is a modular seating system comprising five key modules, and many possible configurations.

A complete list of modules can be found on pages 2 - 3, including measurements and small throw cushion counts. Additional throw cushions are available separately.

Find common configurations on pages 4 - 7. Numerous other configurations are also possible, by combining the modules in a variety of ways.

Connection hardware will be provided to fix the individual modules into the configuration ordered.

Each module's seat height is: 45cm | 17 3/4"

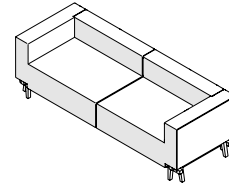

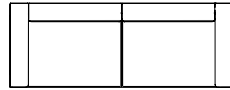

The Timber Table module can be attached to the side of any sofa module where there is not already an arm. This table adds 30cm | 11 4/5" to the overall length or width, as relevant.
