

**TIMBER/FINISH OPTIONS**

All timber products are available in all of our solid timbers and finishes unless otherwise indicated in our media. The timber we use is from sustainable farms. The trees on the farms are pruned regularly to allow for consistent grain patterns and fewer knots, ensuring exceptionally strong planks of the highest quality.

Our black walnut is from the midwestern United States, our white oak is from the eastern coast of the United States and Croatia, and our ash is from Portugal, Spain and France.

Our oil finishes provide a renewable surface for enduring beauty.

Our oxidised timber is sealed with a clear matte lacquer to maintain the colour whilst preserving the tactility of the surface.

## TIMBER FOR MANUEL AIRES MATEUS PRODUCTS

European Douglas Fir timber is available exclusively for products designed by Manuel Aires Mateus.

The timber we use is from sustainable farms in France. The trees on the farms are pruned regularly to allow for consistent grain patterns and fewer knots, ensuring exceptionally strong planks of the highest quality.

Douglas fir trees can grow to very large sizes which, when regularly pruned, results in impressively wide and long planks of timber with consistent grain patterns.

Our white oil finish provides a renewable surface for enduring beauty.

## PAINT/STAIN OPTIONS

We offer ten standard colours that can be applied to our products in a variety of ways:

### PAINTED ASH

European ash timber is wire brushed to create a textured surface before the application of the paint.

### STAINED ASH

European ash timber is stained then sealed with a clear matte lacquer to maintain the colour whilst preserving the tactility of the surface.

### PAINTED HDF

High density fibreboard is painted to create our satin matte finish, or painted then coated in clear lacquer to create our gloss finish.

### PAINTED FIBREGLASS

Fibreglass is painted to create our satin matte finish, or painted then coated in clear lacquer to create our gloss finish.
