DREAM WEAVER

Bewitching pop songstress **Ryn Weaver** is ready for the major leagues.

uck is where opportunity meets preparation," explains **singer-songwriter** Ryn Weaver of her chance encounter with **mega-producer Benny Blanco**. The beat savant became the "Warhol to the Factory," connecting her with the likes of **Jessie Ware** and **Charli XCX** (whom she dubs "a fierce fellow Leo") after she moved to Los Angeles. Although the starry names sit comfortably in the 22-year-old's inner circle, it's her whimsical style and mesmerizing presence that have us **hooked**.

"I want people to love my music because they can relate to what I'm talking about," she shares. Having grown up with three brothers, Ryn is also prone to the J. Law effect—she's **refreshingly outspoken** and unafraid to use the F-word. "Anyone who says they aren't a **feminist** hasn't read the definition," she says. "I hope my fans know that I'm doing this as a woman who doesn't have to sell anything other than good music." Between her **stellar EP, *Promises***, and an upcoming debut album featuring tunes about "losing yourself to love," Ryn is quickly **redefining** the pop prototype. —L.W.
