MAGSCAPES LIMITED, as a supplier of wallcoverings and magnets, is fully committed to establishing environmental care as an integral part of its overall business strategy. Through a programme of pollution control, development and good practice, the Company aims to actively reduce its impacts upon both the local and global environments.

MagScapes Limited shall endeavour to:

- **Minimise the use of resources through careful planning, recycling and re-use**
- **Review and improve waste management practices**
- **Evaluate all new products and processes relative to their environmental merits and impacts**
- **Comply with all relevant environmental legislation**
- **Ensure that all employees, contractors and suppliers are aware of their environmental responsibilities**

The manufacturers of our wallcoverings ensures that all paper based materials used within its products come from 'well managed' forests and has sourced paper that has been independently certified and meets the standards maintained by the Forest Stewardship Council (FSC).

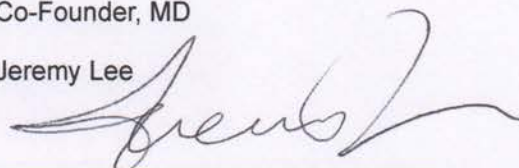

A management system is in place to meet the requirements of chain-of-custody in accordance with SGS Forestry to improve product tracing and labelling.

MagScapes Ltd. regards energy consumption and its associated climate change impacts as an important issue and has developed an ongoing programme to improve energy management and efficiency throughout all areas of the business.

The Company is committed to continual improvement and operates an Environmental Management System in line with the standard ISO 14001:2004 Periodic environmental audits and reviews shall ensure that this standard is maintained.
