

DOMINOES

By Maztermind

About Maztermind

Maztermind is a team of local designers, artisans, and game players who are passionate about reinventing familiar traditional games. Leveraging on our dynamics, we are committed to using the highest quality craftsmanship, most unique materials, and interesting designs to let you play the same old game in new style.

Maztermind - Play in style

Dominoes

There are many ways to play Dominoes, some of which perhaps are not even discovered yet. However, to Maztermind team, Dominoes is more than just a classic, timeless game. Each Domino can be a piece of an artwork.

Each Maztermind's Domino is a piece of art itself.

HOW DO YOU PLAY DOMINOES?

Game Setup

Prepare Maztermind's Dominoes double six standard set.

Place the dominoes facedown on a flat surface, and shuffle them.

The collection of shuffled tiles is often called the "boneyard," since one of the most common nicknames for dominoes is "bones."

Playing the Game

- 1. Draw an opening hand:** Take seven dominoes and stand them on the table so that the opponent can't see their faces.
- 2. Decide the order of play:** Each player reveals the tile with the highest total value. The player with the highest number goes first and places the first tile down.
- 3. Take turns adding dominoes:** Each player takes turn extending the line of play by placing a tile down; two touching tile ends must be of the same value. If a player does not have a domino that can match the rule, they must keep on pulling tiles from the boneyard until they can place one down. If no more dominoes are left, the player can pass.
- 4. End the round:** The game ends when a player wins the round by running out of dominoes first, or when neither can continue playing. If the game is blocked, the winner is the person with the lowest score.
- 5. Scoring:** Add the number of pips on the tiles remaining in your hand.
