HANDHELD RANGE

gme.net.au

HANDHELD RANGE

GME has an extensive range of Handheld UHF CB Radios to meet a variety of needs. From 4WDing to construction sites, GME has a handheld radio to suit.

Our class leading range, including the Australian Made XRS-660 and TX6600S, are built tough and rugged to withstand the harsh Australian landscape. Our broad Handheld UHF CB Radio range includes affordable entry-level radios right through to serious equipment for commercial applications.

With unique features such as IP67 Ingress Protection, Bluetooth, built-in GPS, and exceptional battery life, GME's range of handhelds give users peace of mind that they will always be connected.

XRS™ CONNECT

XRS-660

XRS™ Connect Handheld UHF CB Radio

The XRS-660 is the first Handheld UHF CB Radio to feature a Colour TFT LCD screen, providing the ultimate Handheld radio display for all environmental conditions – even in full sunlight.

Bluetooth® audio connectivity allows the XRS-660 to wirelessly connect to an extensive range of third-party audio accessories, providing users with new and improved ways to stay connected.

Built-in GPS functionality ensures the XRS-660 offers true location awareness without relying on a smartphone to provide GPS location data. This capability is particularly useful in commercial applications where location tracking of users in remote areas may be required for workplace safety.

Featuring rugged IP67 Ingress Protection and a MIL-STD810G rating, the XRS-660 is our toughest and most advanced Handheld UHF CB Radio yet.
