so much to tell...

3326 Series
Matrix
Bay Built-in Gas Fireplace

Faber helps you create the atmosphere and look you desire for your unique space. Our built-in Matrix models let you design your fireplace - to viewing angles and finishes.

Bay Built-in Gas Fireplace

Logs
Realistic charred log set to maximize the illusion of depth and the appearance of burning firewood. Combine with loose embers for a custom display.

Burners
With a total of five burners, the gas flame has never been more versatile with the ability to adjust the height and width while, the flame uniquely wraps around the logs for an ultra-realistic effect.

Light Module
Provides a pulsating burn on logs for a truly lifelike effect.

Rear Wall Steel
Provides a solid dark interior finish.

Invisimesh
A protective layer of Invisimesh surrounds the glass barrier of the fireplace to prevent anyone from touching the heated surface area and ensure the safety of children and pets.

Remote Control
Uses radio frequency to control all fireplace features from the comfort of your chair.

28,000 - 42,500 BTU
